

AerSale® Announces Boeing 757-200PCF Freighter Lease to Jupiter Jet

September 16, 2026

MIAMI, Sept. 16, 2026 (GLOBE NEWSWIRE) -- AerSale Corporation (NASDAQ: ASLE), a leading global supplier of aftermarket commercial aircraft, engines, and proprietary engineered solutions, today announced the lease of a Boeing 757-200PCF aircraft to Jupiter Jet, a Kazakhstan-based cargo airline expanding its regional and international freight operations.

The 757-200PCF offers an ideal combination of payload capability, operating economics and range, making it well suited for express cargo and e-commerce networks throughout Central Asia and neighboring markets. The aircraft will support Jupiter Jet's continued fleet growth as demand for reliable air cargo capacity continues to increase across the region.

"We are pleased to support Jupiter Jet's fleet expansion with this Boeing 757 freighter," said Craig Wright, Senior Vice President & Head of Asset Management. "The 757 remains one of the industry's most versatile and dependable medium-haul freighters, and this lease demonstrates AerSale's ability to provide tailored fleet solutions that help operators meet evolving market demand."

Jupiter Jet has established itself as an emerging cargo operator serving Kazakhstan and surrounding markets, providing flexible freight solutions across Central Asia and beyond. The addition of the Boeing 757 freighter will enhance the airline's operational capabilities while supporting its long-term growth strategy.

"We are excited to add the Boeing 757 freighter to our fleet through our partnership with AerSale," said Erik Kozbagarov, Chief Executive Officer of Jupiter Jet. "The aircraft's performance and economics make it an excellent fit for our expanding cargo network, allowing us to better serve our customers while positioning Jupiter Jet for continued growth."

AerSale's aircraft leasing platform provides operators worldwide with flexible fleet solutions backed by the Company's integrated portfolio of aviation products and services, including aircraft and component maintenance, repair and overhaul (MRO), engine solutions, used serviceable material (USM), and asset management.

About AerSale

AerSale serves airlines operating large jets manufactured by Boeing, Airbus and McDonnell Douglas and is dedicated to providing integrated aftermarket services and products designed to help aircraft owners and operators to realize significant savings in the operation, maintenance and monetization of their aircraft, engines, and components. AerSale's offerings include Aircraft & Component MRO, Aircraft and Engine Sales and Leasing, Used Serviceable Material sales and internally developed Engineered Solutions to enhance aircraft performance and operating economics (e.g. AerSafe®, AerTrak®, and AerAware™ Enhanced Flight Vision System).
