Approximate date of commencement of proposed sale to the public:
As soon as practicable after the effective date of this registration statement.

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933 check the following box.

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act.

The Registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

PRELIMINARY PROSPECTUS

Subject to Completion, Dated January 28, 2019

\$150,000,000
Monocle Acquisition Corporation
15,000,000 Units

Monocle Acquisition Corporation, a Delaware corporation (the “Company”), is a blank check company newly formed for the purpose of effecting a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our “initial business combination.” We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive business discussions, directly or indirectly, with any business combination target. Our efforts to identify a prospective target business will not be limited to a particular industry or geographic region, although we intend to focus on businesses in the aerospace and defense, industrial, and technology and telecommunications sectors.

This is an initial public offering of our securities. We are offering 15,000,000 units at an offering price of \$10.00 each. Each unit consists of one share of our common stock and one redeemable warrant. Each warrant entitles the holder thereof to purchase one share of our common stock at a price of \$11.50 per share, subject to adjustment, terms and limitations as described herein. The underwriters have a 45-day option from the date of this prospectus to purchase up to 2,250,000 additional units to cover over-allotments, if any.

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of common stock upon the completion of our initial business combination, subject to the limitations described herein. If we are unable to consummate an initial business combination within 21 months from the closing of this offering (or 24 months from the closing of this offering if we extend the period of time to consummate a business combination, as described in more detail in this prospectus), we will redeem 100% of the public shares for cash, subject to applicable law and certain conditions as described herein.

Monocle Partners, LLC (our sponsor) and Cowen Investments II LLC (an affiliate of one of the underwriters of this offering) have committed to purchase an aggregate of 500,000 units (or 545,000 units if the over-allotment option is exercised in full), at \$10.00 per unit, in a private placement that will close simultaneously with this offering. We refer to our sponsor and Cowen Investments II LLC collectively throughout this prospectus as our “founders.” Our founders and directors currently own an aggregate of 4,312,500 shares of our common stock (up to 562,500 shares of which are subject to forfeiture depending on the extent to which the underwriters’ over-allotment option is exercised).

There is presently no public market for our units, common stock or warrants. We intend to apply to list our units on the Nasdaq Capital Market, or Nasdaq, under the symbol “MNCLU” on or promptly after the date of this prospectus. We cannot guarantee that our securities will be approved for listing on Nasdaq. The shares of common stock and the warrants constituting the units will begin separate trading on the 52nd day following the date of this prospectus, unless the representative of the underwriters determines that an earlier date is acceptable, and subject to certain conditions. Once the securities comprising the units begin separate trading, we expect that our common stock and warrants will be listed on Nasdaq under the symbols “MNCL” and “MNCLW” respectively.

We are an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012 and will therefore be subject to reduced public company reporting requirements.

Investing in our securities involves a high degree of risk. See “Risk Factors” beginning on page 33 for a discussion of information that should be considered in connection with an investment in our securities. Investors will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Price to Public	Underwriting Discount ⁽¹⁾	Proceeds, Before Expenses, to us
Per Unit	\$ 10.00	\$ 0.20	\$ 9.80
Total	\$150,000,000	\$ 3,000,000	\$ 147,000,000

(1) The underwriters will receive compensation in addition to the underwriting discount. See “Underwriting.”

Of the proceeds we receive from this offering and the sale of the private placement units described in this prospectus, \$150,000,000, or \$172,500,000 if the underwriters’ over-allotment option is exercised in full (\$10.00 per unit in either case), will be deposited into a trust account with Continental Stock Transfer & Trust Company acting as trustee.

The underwriters are offering the public units on a firm commitment basis. The underwriters expect to deliver the public units to purchasers on or about

SUMMARY

This summary only highlights the more detailed information appearing elsewhere in this prospectus. As this is a summary, it does not contain all of the information that you should consider in making an investment decision. You should read this entire prospectus carefully, including the information under “Risk Factors” and our financial statements and the related notes included elsewhere in this prospectus before investing. Unless otherwise stated in this prospectus or the context otherwise requires, references in this prospectus to:

- *“we,” “us” or “our company” are to Monocle Acquisition Corporation, a Delaware corporation;*
- *“sponsor” are to Monocle Partners, LLC, a Delaware limited liability company affiliated with our executive officers and certain of our directors;*
- *“founders” are to our sponsor and Cowen Investments II LLC;*
- *“public units” are to the units sold in this offering (whether they are purchased in this offering or thereafter in the open market);*
- *“public shares” are to shares of our common stock sold as part of the public units in this offering (whether they are purchased in this offering or thereafter in the open market);*
- *“public warrants” are to our redeemable warrants sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);*
- *“founder shares” are to shares of our common stock initially purchased by our founders in a private placement or placements prior to this offering;*
- *“private units” are to the units sold to our founders in a private placement that will close simultaneously with this offering;*
- *“private shares” are to the shares of our common stock sold as part of the private units;*
- *“private warrants” are to the warrants sold as part of the private units;*
- *“public stockholders” are to the holders of our public shares, including our sponsor, officers, directors and director nominees to the extent they purchase public shares, provided that their status as “public stockholders” shall only exist with respect to such public shares;*
- *“management” or our “management team” refer to our officers and directors; and*
- *“initial stockholders” are to holders of our founder shares prior to this offering.*

Unless we tell you otherwise, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option and our founders will forfeit an aggregate of 562,500 founder shares.

You should rely only on the information contained in this prospectus. We have not, and the underwriters have not, authorized anyone to provide you with different information. We are not, and the underwriters are not, making an offer of these securities in any jurisdiction where the offer is not permitted.

General

We are a Delaware corporation formed for the purpose of effecting a merger, share exchange, asset acquisition, stock purchase, reorganization, recapitalization or other similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not identified any potential initial business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any potential initial business combination target.

We will seek to capitalize on the significant experience and contacts of our management team to complete our initial business combination. Although we may pursue our initial business combination in any business, industry or geographic location, we currently intend to focus on opportunities to capitalize on the abilities of our management team, particularly our executive officers, to identify, acquire and operate a business in the aerospace and defense, industrial, or technology and telecommunications industries, which we believe have many potential target businesses. Following our initial business combination, our objective

will be to implement or support the acquired business' growth and operating strategies. We intend to target businesses with growth potential in excess of forecasted market rates at a reasonable price as a platform for further consolidation opportunities and asset build-ups as well as those that are at an inflection point in the evolution of their business models. Our management team intends to focus on businesses that are prudently implementing advanced information technology and data analytics capabilities in their operations so as to drive growth, realize cost advantages, enhance predictive modelling and result in better corporate decision making.

We believe there are secular trends that will continue to drive opportunities for companies operating in the industrial, technology and telecommunications sectors. We also believe that industrial automation, additive manufacturing, mobility, and transformational demographic dynamics will lead to structural changes, productivity improvements, and growth across a multitude of industries, including our target markets and our target industries. Given our extensive background, experience and network of relationships in the aerospace and defense ("A&D") sectors, we are confident in our ability to find an attractive target within A&D or adjoining sectors such as satellite communications and infrastructure. We believe that the complexities of today's geopolitical environment are growing, and will lead to increasing opportunities. We further believe that the aerospace and defense industry will continue to benefit from sector tailwinds, including the increase in U.S. and global defense spending, demand driven by continued air traffic growth, record production rates and backlog levels of narrow-body commercial aircraft programs and the proliferation of technology within industrial processes. These criteria are not intended to be exhaustive, and we may pursue business combinations based on other considerations, factors and criteria that our management team may deem relevant.

In August 2018, President Trump signed into law the John S. McCain National Defense Authorization Act, approving \$717 billion for the FY2019 national defense budget, including a base budget for the Pentagon and other national defense agencies of \$639 billion, an additional \$69 billion for overseas contingency operations, and approximately \$9 billion for mandatory defense spending. The U.S. government's defense and national security spending, incorporating multiple federal agencies and departments, is driven by a complex range of persistent and evolving threats to the U.S. homeland and to U.S. interests overseas. Over the last decade, the U.S. government has realigned the strategic priorities of the U.S. national security community, its capabilities and posture in an effort to achieve a sustainable balance between the ability to face down conventional threats from opposing states, the ability to combat non-state actors and asymmetric threats, and the ability to defeat threats from new technologies. The 2018 National Defense Strategy of the United States of America states: "To address the scope and pace of our competitors' and adversaries' ambitions and capabilities, we must invest in modernization of key capabilities through sustained, predictable budgets. Our backlog of deferred readiness, procurement, and modernization requirements has grown in the last decade and a half and can no longer be ignored." We expect to see continued robust funding levels as the U.S. seeks to restore warfighter readiness and improve lethal force to combat growing inter-state strategic competition.

The aerospace sector has experienced significant growth in the past decade, partly driven by a substantial increase in commercial aircraft deliveries and backlog levels for major original equipment manufacturers ("OEMs"). Additionally, the aerospace sector has benefited from considerable growth in passenger demand, demonstrated by the increase in global revenue passenger kilometers ("RPKs"), a measure which has grown 54.6% from 2010 to 2017, representing a compounded annual growth rate of 6.4%. The growth in RPKs has resulted in increased demand for additional capacity. Current commercial aircraft backlogs for Airbus and Boeing are at decade-high levels. They have a combined 13,309 aircraft in current backlog, which provides significant visibility into approximately eight years of aircraft production. Boeing and Airbus have announced initiatives to increase the production rates of their largest narrow-body programs, the Boeing 737 and the Airbus A320. Deliveries of next-generation engines including General Electric's LEAP engine and Pratt and Whitney's GTF engine are benefiting from the strong aerospace cycle as the two engine types are rolled out on the largest OEM programs. GE delivered 459 LEAP engines in 2017 and is expected to deliver between 1,100 and 1,200 engines in 2018, an increase of over 130%. Pratt and Whitney has received approximately 2,000 orders for the GTF engine in the last twelve months and expects more than 10,000 GTF engines to be in service by 2025. Increased production rates, continued RPK growth and technological advancements alongside strong replacement demand will likely have beneficial

effects across the aerospace supply chain, including avionics and communications, interiors, componentry, structures and composites; logistics; and aftermarket parts and services. Boeing has forecast that the aerospace sector will deliver 42,000 commercial aircraft with a market value of \$6.3 trillion over the next 20 years.

Our objective is to consummate our initial business combination with such a business and enhance stockholder value by helping it to identify and recruit management, identify and complete additional acquisitions, implement operational improvements, and expand its product offerings and geographic footprint. We intend to utilize our management team's experience and contacts in our target industries to achieve this objective. We believe many businesses in the aerospace and defense, industrial, or technology and telecommunications sectors could benefit from access to the public markets but have been unable to do so due to a number of reasons, including the time it takes to conduct a traditional initial public offering, market volatility and pricing uncertainty. We intend to focus on evaluating companies with leading competitive positions, high barriers to entry, enhanced business visibility, resilience and durability across economic cycles, strong management teams, and strong long-term potential for growth and profitability.

We believe that our management team is very well positioned to source, evaluate and execute a transaction in the aerospace and defense, industrial, or technology and telecommunications sectors that would benefit from access to the public markets and the skills of our management team. We further believe that our management team is well positioned to identify acquisition opportunities in the marketplace and that our contacts and transaction sources, ranging from owners and directors of private and public companies, family office networks, private equity funds, investment bankers, lenders, attorneys, accountants, and other trusted advisors across various sectors, will allow us to generate attractive acquisition opportunities. Our management team has a cumulative 99 years of relevant business and financial experience, a history and record of value creation initiatives, including the execution of mergers, acquisitions and dispositions of companies and assets, and extensive experience involving financial, investment, capital markets, negotiating, restructuring, and governance matters. The multi-disciplinary approach of our management team, whose continuity and working relationship spans 20 years, renders us as exceptionally capable of executing on our objectives and generating an attractive risk-adjusted return to our stockholders.

Eric J. Zahler, our President, Chief Executive Officer and Director, has 35 years of senior leadership, strategy, operations, management, and governance experience related to our target markets and target industries. Mr. Zahler was a co-founder and Managing Director of Sagamore Capital, a private equity firm pursuing investments in the aerospace and defense, industrial electronics, and selected business service markets. Prior to founding Sagamore Capital in July 2008, Mr. Zahler was President and Chief Operating Officer of Loral Space & Communications Inc. (NASDAQ: LORL) ("Loral") for eight years and also served on Loral's Board of Directors. As COO, Mr. Zahler was responsible for overseeing all aspects of Loral's business strategy and operations with company-wide profit and loss responsibility. As a senior member of the management of Loral since 1992, he was integrally involved in identifying, evaluating, negotiating, and integrating Loral's acquisition growth strategy in the aerospace and defense and satellite services industries, actively leading over \$16 billion of acquisitions and divestitures. While at Loral, Mr. Zahler was responsible for the development and implementation of annual operating budgets, including revenue attainment, operating expenses, capital expenditures, and research and development. He was also responsible for business development activities, including mergers and acquisitions, divestitures, joint ventures, and third-party investments, and supervising all commercial and legal activities. He also initiated and implemented a major operational reorganization of Loral's satellite manufacturing operations and was actively involved in substantial capital raising and restructuring activities and the development, operations, and management of several international joint ventures with global telecommunications service providers. Mr. Zahler is a member of the Board of Directors and Chairman of the Human Resources and Executive Compensation Committee of Maxar Technologies Ltd. (NYSE: MAXR; TSX: MAXR), a leading global provider of advanced space technology solutions for commercial and government markets, including satellites, Earth imagery, and geospatial data and analytics. He is also Chairman of the Board of exactEarth Ltd. (TSX: XCT), a leading provider of global vessel tracking data for maritime situational awareness, and a member of the Board of Directors of Sequa Corporation, a portfolio company of The Carlyle Group, which provides the global airline industry with a broad range of aftermarket services and ranks as the

leading independent supplier of advanced repairs for jet engine parts, and is the largest independent metal coil coater in North America. Previously, Mr. Zahler served on the Board of Directors and Audit Committee of Actel Corporation (NASDAQ: ACTL), a leader in low-power field-programmable gate arrays (FPGAs) and mixed-signal FPGAs for aerospace, military, satellite, medical, and industrial applications, and on the Board of Directors and Audit Committee of EasyLink Services Corporation, (NASDAQ: EASY), a global provider of outsourced business process automation services; and served as the Chairman of the Board of Directors of Universal Space Network, Inc. (“USN”), a subsidiary of the Swedish Space Corporation (“SSC”), an entity owned by the Government of Sweden. SSC/USN is a global provider of mission critical systems and services to the space and aerospace markets. As Chairman of USN, Mr. Zahler’s appointment was approved by the U.S. Department of Defense to ensure compliance with a Special Security Agreement (SSA), FOCI requirements and other national security policies. From 1975 to 1992, Mr. Zahler was an attorney at Fried, Frank, Harris, Shriver & Jacobson, where he was elected Partner in 1983. At Fried, Frank, he represented numerous aerospace and defense companies in all aspects of their interactions with the U.S. government. Mr. Zahler graduated, cum laude, from Harvard Law School in 1975, where he was editor of the Harvard Journal on Legislation. He earned a Bachelor’s of Science degree, cum laude, in mathematics from Yale University in 1972.

Sai S. Devabhaktuni, the Chairman of our Board of Directors, has over 25 years of experience analyzing and investing in a broad range of sectors with specific focus in our target markets and target industries. Investing across several economic cycles, Mr. Devabhaktuni has served on numerous creditors’ committees and boards of directors and employs an active approach to investing. Mr. Devabhaktuni has written numerous thought pieces and has participated as a subject matter expert in industry conferences. From January 2012 to March 2018, Mr. Devabhaktuni was an Executive Vice President and Head of Corporate Distressed Portfolio Management at Pacific Investment Management Company (“PIMCO”). While at PIMCO, Mr. Devabhaktuni was Co-Chair of the Investment Committee of the PIMCO Corporate Opportunities Fund II. Mr. Devabhaktuni was also instrumental in business growth initiatives which led to the increase in assets under management by 6.8x for portfolios dedicated to corporate stressed and distressed investing. Prior to joining PIMCO, Mr. Devabhaktuni founded The Monocle Group LLC (“TMG”), an investment firm investing in inefficient markets with an emphasis on debt, equity and other obligations of financially stressed businesses. Prior to TMG, Mr. Devabhaktuni was one of three Managing Principals at MHR Fund Management LLC (“MHR”), which he joined in 1998. During his tenure at MHR, Mr. Devabhaktuni was involved in all aspects of the investment process, including identifying, structuring and conducting due diligence on investment opportunities, including acquisitions and dispositions. Mr. Devabhaktuni worked collaboratively with senior management teams of MHR portfolio companies on operational improvements and growth initiatives, as well as on mergers, acquisitions, divestitures, and financing activities. Prior to MHR, Mr. Devabhaktuni was a member of the event driven strategies group at Highbridge Capital Management LLC (“Highbridge”), and a member of the corporate finance, capital markets, and emerging markets groups of Nomura Securities Co., Ltd. (“Nomura”). Mr. Devabhaktuni holds a Bachelor of Science in Economics, with concentrations in Finance, Economics and Legal Studies from the Wharton School of the University of Pennsylvania. Mr. Devabhaktuni has served on the Board of Directors of Loral and Applied Natural Gas Fuels Inc., and currently serves on the Board of Directors of Sequa Corporation.

Richard J. Townsend, our Executive Vice President and Chief Financial Officer, has 39 years of finance, strategy and operations experience related to our target markets and target industries. Mr. Townsend has served as an Advisory Partner at Rangeley Capital LLC (“Rangeley Capital”), a private investment partnership focused on investments in the event space, since January 2017. Mr. Townsend served as a Managing Partner of Rangeley Capital, with responsibilities as a Portfolio Manager and as the Chief Operating Officer, from January 2008 through January 2017. During this period, Rangeley Capital grew its NAV (net asset value) by a factor of 9.5x. Mr. Townsend focused his experience in evaluating operating management teams’ capabilities and identifying undervalued event opportunities in the public market. Prior to joining Rangeley Capital, Mr. Townsend was the Executive Vice President and Chief Financial Officer of Loral from 1998 to 2007, where he was responsible for all financial aspects of the business, including financial assessment and implementation of corporate strategy; performance measurement and assessment of all operating management teams, focusing on capturing profit improvement as well as internal and external growth opportunities; SEC reporting requirements; treasury operations; external communications

to shareholders, business analysts, and rating agencies; business controls, and corporate governance. As part of the small senior management team, Mr. Townsend led the financial team's participation in the company's key strategic business development activities, including mergers, acquisitions, and joint ventures. From 1996 to 1998, Mr. Townsend served as the Corporate Controller and Director of Strategy of ITT Industries, which was the remaining public company after ITT spun off Sheraton Hotels and Hartford Insurance. As the Corporate Controller and Director of Strategy of an effectively new public company, Mr. Townsend was responsible for developing and implementing key financial processes, including a strategy development and implementation process; budgeting and measurement for the operating business units; and the public reporting process, including communications to shareholders, analysts, and rating agencies. In this early period of ITT Industries, the initial corporate strategy was to sell the automotive supplier business while investing in the water pump and defense and electronics businesses through acquisitions. Mr. Townsend spent the prior 17 years gaining experience in financial management and assessment of businesses while working at International Business Machines Corporation ("IBM"). Starting at IBM after earning his MBA from Stanford University in 1979, he gathered experience in all aspects of financial management of a large international public company through holding positions of increasing responsibility in all areas of finance, planning, and accounting. His final two assignments at IBM were as Controller of Europe, Mideast and Africa located in Paris, France, which managed a third of IBM's total business, and as Assistant Corporate Controller for Financial Planning, during which assignment, Mr. Townsend was responsible for all aspects of financial planning and measurement for IBM. Mr. Townsend started his career as a mechanical engineer at General Electric's ("GE") Nuclear Energy Division after earning his Bachelor of Science degree from the University of Michigan in 1972. While at GE, Mr. Townsend earned a Master of Science degree in Engineering from the University of California at Berkeley in 1977 and became a Professional Engineer in the state of California.

General C. Robert Kehler, USAF (ret), will serve as a director commencing on the date of this prospectus. He has 43 years of leadership, strategy and governance experience related to our target markets and target industries, and service to the United States of America. General Kehler currently serves on the board of directors of Maxar Technologies Ltd. (Ticker: MAXR) and Inmarsat plc (Ticker: ISAT LN), and is a trustee of the Mitre Corporation, a senior advisor to McKinsey and Company and special advisor to EaglePicher Technologies, LLC. General Kehler retired from the United States Air Force in December 2013 after almost 39 years of distinguished service. From January 2011 until November 2013 he served as the Commander, United States Strategic Command (USSTRATCOM), where he was directly responsible to the Secretary of Defense and President for the plans and operations of all U. S. forces conducting strategic deterrence, nuclear alert, global strike, space, cyberspace and associated operations. While in command, he crafted and implemented policies and plans to deter strategic attacks against the U.S. and its key allies, and led a joint team of over 160,000 military and civilian members conducting global deterrence operations while supporting combat actions in the Middle East and North Africa. General Kehler's military career encompassed progressively important operational, command, staff, and joint assignments. Prior to commanding USSTRATCOM, General Kehler commanded United States Air Force Space Command and two operational space wings conducting space launch, missile warning, and space control missions. He also commanded an intercontinental ballistic missile (ICBM) squadron and group. At Air Force Space Command, he designed the Air Force's inaugural blueprint, operating concept, organizational structure, and personnel program to meet rapidly growing cyberspace challenges. General Kehler entered the Air Force in 1975 as a Distinguished Graduate of the Pennsylvania State University R.O.T.C. program, has master's degrees in Public Administration and National Security and Strategic Studies, and completed executive development programs at Carnegie-Mellon University, Syracuse University, and Harvard University. His military awards include the Defense Distinguished and Superior Service Medals, the Distinguished Service Medal (2 awards), Legion of Merit (3 awards), and the French Legion of Honor (Officer). General Kehler continues to offer his expertise as a consultant, adviser and corporate director. He speaks widely on matters of national security and is highly sought for panels, studies, Congressional testimony, and workshops addressing the most compelling issues of national security in the 21st Century. General Kehler was the S.T. Lee Distinguished Lecturer at Stanford University's Freeman Spogli Institute for International Studies for academic year 2014 – 2015, and remains an Affiliate of Stanford's Center for International Security and Cooperation. He is a Senior Fellow of the National Defense University.

Donald W. Manvel will serve as a director commencing on the date of this prospectus. He has 46 years of strategy, operations, manufacturing and turnaround experience related to our target markets and target industries. Mr. Manvel is currently Chairman and CEO of AVL Americas, and a member of the Executive Leadership Team of the parent company based in Austria (“AVL”). AVL is the world’s largest independent company for the development of gasoline, diesel, and alternative fuel powertrain systems, as well as fuel cell and hybrid technologies. Mr. Manvel joined AVL in 2002 and is responsible for leading the development and execution of the company’s long-term strategy for the Americas, with a view to creating shareholder value. From July 2012 to April 2015, Mr. Manvel served as the CEO of Unycom GmbH, an enterprise software company dedicated to the field of intellectual property management. Prior to AVL and from 1999, Mr. Manvel was Acting President and Senior Vice President of Operations at DEKA Research and Development (“DEKA”). At DEKA, Mr. Manvel oversaw the development and implementation of operations and supply chain systems and played a leading role in the development of the Segway Human Transporter, the first self-balancing, electric transportation device. Prior to DEKA, Mr. Manvel was President of the Manlift Division of Grove Worldwide (“Manlift”). While at Manlift, Mr. Manvel managed all aspects of its operations, leading to significant cost improvements, a reduction in design cycle times for the firm’s products, and eventually the sale of the company. Mr. Manvel began his career with Chrysler Corporation in 1972, where he held a variety of senior executive positions including Corporate Manager of Systems and Scheduling for the entire corporation, General Manager and Platform Executive for the company’s Jeep operations, Managing Director of Chrysler Austria and Chrysler Eurostar, and President of DaimlerChrysler Venezuela. Mr. Manvel received his MBA from Wayne State University and earned a Bachelor’s of Arts degree in Business Administration from Michigan State University.

John C. Pescatore will serve as a director commencing on the date of this prospectus. He has more than 30 years of strategy, operations, finance and accounting experience related to our target markets and target industries. From 2004 to September 2018, Mr. Pescatore served in various capacities as Vice Chairman, President, CEO and Member of the Board of Directors of pdvWireless (Ticker: PDVW, “PDV”). In October 2018, Mr. Pescatore began serving in a consulting role as an advisor to PDV. At PDV, Mr. Pescatore led its transformation from a private enterprise software company to a publicly traded wireless carrier, was instrumental in all aspects of fundraising including acquisition financing for the purchase of a nationwide spectrum position through a strategic transaction with a Tier One carrier, embarked on a process to modernize thirty year old Federal Communications Commission rules to allow for spectrum efficiency and for the deployment of more efficient technologies, and launched the company’s wireless service in seven major market areas within the United States. Prior to PDV, Mr. Pescatore was EVP & COO of NeoWorld Communications, Inc. (“NeoWorld”), which was founded to develop a nationwide wireless network and held spectrum in major markets throughout the United States. At NeoWorld, Mr. Pescatore was a member of the core team which led the company’s successful sale to Nextel Communications, Inc. (“Nextel”). Prior to NeoWorld, Mr. Pescatore was Executive Vice President of Operations of Expanets, Inc. (“Expanets”), one of the fastest growing voice and data communications solutions and services companies in the United States. As one of the key architects in building Expanets, Mr. Pescatore oversaw the business through a period of enormous growth by strategic acquisitions, building the company to over U.S.\$1 billion in sales and over 3,000 employees. Prior to Expanets and from 1989 to 1998, Mr. Pescatore was a key member of the team that grew Nextel from a start-up to a national wireless service provider. During his tenure at Nextel, Mr. Pescatore held a variety of senior managerial and supervisory positions including Assistant Controller, Vice President of Operations, President of the Specialized Mobile Radio Division and President of the New York Area. Mr. Pescatore began his career as a consultant with Deloitte in 1986 within the firm’s Emerging Business Services Group, where he developed his expertise in telecommunications. Mr. Pescatore earned a Bachelor of Science degree in Accounting from New York University, was a Certified Public Accountant, and, for nine years ending in November 2014, served as a Board Member and Chair of the Audit Committee at Covenant House International.

The past performance of the members of our management team or their affiliates or employers is not a guarantee that we will be able to identify a suitable candidate for our initial business combination or of success with respect to any business combination we may consummate. You should not rely on the historical record of the performance of our management team’s members, or any of their affiliates or employers, as indicative of our future performance. None of our officers or directors has had any experience with any blank check companies in the past.

Business Strategy

Our business strategy is to identify and complete our initial business combination with a company that complements the experience of our management team and can benefit from our management team's expertise. Our selection process is expected to leverage our management team's contacts in the aerospace and defense, industrial, and technology and telecommunications sectors globally, which we believe will provide us with access to attractive business combination opportunities in these industries. We believe that the extensive networks of our management team members will deliver access to a broad spectrum of opportunities across our target industries. We intend to target businesses that provide a platform for add-on acquisitions or that are at an inflection point in their growth. Our management team has experience:

- managing, operating and investing in businesses in the aerospace and defense, industrial, and technology and telecommunications sectors;
- developing and growing companies, both organically and through acquisitions and investments;
- evaluating and managing the growth of new products and technologies;
- implementing operational improvements, including process enhancements;
- identifying, recruiting, and mentoring management personnel;
- sourcing, structuring, acquiring, and selling businesses;
- executing complex transactions and operating businesses within complex regulatory environments;
- fostering relationships with sellers, capital providers, and target management teams;
- optimizing capital structures; and
- accessing the capital markets across various business cycles.

Following the completion of this offering, we intend to begin the process of communicating with the network of relationships of our management team and their affiliates to articulate the parameters for our search for a potential target initial business combination and begin the process of pursuing and reviewing potential opportunities.

Competitive Strengths

We expect to adhere to a disciplined investment process, which may include (i) utilizing our management team's relationships to identify businesses in our target industries, (ii) performing rigorous due diligence, and (iii) actively participating post-acquisition through the implementation of operational improvements and growth initiatives. Members of our management team have a history of constructive engagement with management teams and will proactively seek to continuously improve a company's competitiveness, strategic position, productivity, and profitability in an effort to increase stockholder value.

We believe we have the following competitive strengths:

Continuity and Working Relationship of our Management Team. Our management team has a 20 year working relationship and a history of driving change and adding value. We have a multi-disciplinary approach combining operations, strategy, finance, and investing and have a history of direct engagement with management teams across businesses. We believe the history and experience of our management team will be viewed favorably by target businesses in their implementation of operational, financial, managerial, and strategic initiatives.

Proprietary and Differentiated Sourcing Pipeline. Our management team (including members of our Board of Directors) has cultivated strong relationships across industries. These relationships include personal networks from prior investment experience and operating knowledge, relationships with industry executives, corporate management teams and family office networks, and relationships with financial institutions, investment banks, private equity sponsors, business brokers, management consultants and advisors, industry trade organizations, accountants, attorneys, academics and restructuring firms. We expect that the diverse networks of our management team will provide us with a pipeline of acquisition opportunities that would be difficult for others to replicate.

Investing Experience and Rigorous Exploration/Diligence Experience. We believe that our management's track record of identifying and sourcing transactions in the aerospace and defense, industrial, and technology and telecommunications industries positions us well to appropriately evaluate potential business combinations and select a target business that will be well received by the public markets. Although the complexities of the business models and regulatory environments of companies in our target industries may be a barrier for other market participants, our management team has decades of experience in operating within such frameworks. Our management team's investigative, highly analytical due diligence process is typically supported by third party external advisors. Inherent in our process are coherent risk aggregation and mitigation techniques, which we believe will be well received by the management teams of targets.

Business Selection, Execution and Structuring Capabilities. Our management team has a disciplined investment culture and due diligence process that we will utilize in selecting a business for potential acquisition. Some factors and business characteristics of target companies that we intend to evaluate include resilience and durability across business cycles, a focus on cash flows, the union of business philosophy and principles with the management of the target, and attractive acquisition entry points, intrinsic valuation and long-term intrinsic value growth. The execution of a business combination requires a rigorous approach to due diligence and experience in negotiating and executing complex transactions. We believe that by focusing on such activities, we will be able to generate investment opportunities that have attractive risk/reward profiles based on their business, valuation, and structural elements.

Active Management. We intend to pursue an active management strategy, employing rigorous diligence of all aspects of a target's business, formulating specific growth strategies and related compensation policies that ensure alignment with target management, and working with management to identify best practices to improve the financial performance and resilience of our business combination. Our active approach includes the implementation of post-acquisition strategic initiatives, which may include the development of new market growth strategies, including product/service and/or geographic enhancement, further acquisitions, operational improvements, review of capital allocations policies, and optimization of capital structures. Our management team has a history of active engagement in implementing such measures.

Status as a Public Company. We believe our structure will make us an attractive business combination partner. As an existing public company, we offer a target business an alternative to the traditional initial public offering. In this situation, the owners of the target business would exchange their shares of stock in the target business for shares of our stock or for a combination of shares of our stock and other consideration, allowing us to tailor the consideration to the specific needs of the sellers. We believe target businesses would find this method a more certain and cost-effective method for becoming a public company than the typical initial public offering. In a typical initial public offering, there are additional expenses incurred in marketing, roadshow and public reporting efforts that will likely not be present to the same extent in connection with a business combination with us. Furthermore, once the business combination is consummated, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could prevent the offering from occurring. Once public, we believe the target business would then have greater access to capital and more attractive opportunities to provide additional management incentives consistent with stockholders' interests. As a public company the target company could enhance its business prospects by augmenting its profile among potential new customers and vendors and increasing its visibility to talented new employees. However, there is currently no market for our securities and a market for our securities may not develop. As a result, these purported benefits may not be realized.

While we believe that our status as a public company will make us an attractive business partner, some potential target businesses may view the inherent limitations in our status as a blank check company as a deterrent and may prefer to effect a business combination with a more established operating entity or with a private company. These inherent limitations include limitations on our available financial resources, which may be inferior to those of other entities pursuing the acquisition of similar target businesses; the requirement that we seek stockholder approval of a business combination or conduct a tender offer in relation thereto, which may delay the consummation of a transaction; and the existence of our outstanding warrants, which may represent a source of future dilution.

Financial Position and Flexibility. With funds available for a business combination initially in the amount of \$150,000,000 (or \$172,500,000 if the over-allotment option is exercised in full) assuming no redemptions, we can offer a target business a variety of options to facilitate a business combination and fund future expansion and growth. Because we are able to consummate a business combination using the cash proceeds from this offering, our share capital, debt or a combination of the foregoing, we have the flexibility to use an efficient structure allowing us to tailor the consideration to be paid to address the needs of the parties. However, if a business combination requires us to use substantially all of our cash to pay for the purchase price, we may need to arrange third party financing to help fund our business combination. Since we have no specific business combination under consideration, we have not taken any steps to secure third-party financing. Accordingly, our flexibility in structuring a business combination may be subject to constraints.

Business Combination Criteria

Consistent with our strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating prospective target businesses and in conducting a thorough due diligence review that will encompass, among other activities, meetings with incumbent management and employees, document reviews, and inspection of facilities, as applicable, as well as a review of proprietary and public financial and other information that we will require be made available to us. We intend to develop detailed financial models of our target companies, identifying critical assumptions, and evaluating forecasted business prospects under varying financial scenarios. We intend to use these criteria and guidelines in evaluating acquisition opportunities, but we may decide to enter into our initial business combination with a target business that does not meet some or all of these criteria or guidelines.

- Focus on aerospace and defense, industrial, and technology and telecommunications businesses in North America that are prudently implementing advanced information technology and data analytics capabilities in their operations and are positioned to benefit from our management team's extensive experience and contacts in these sectors. We believe our strategy leverages our management team's distinctive background and extensive network of industry leaders in the target industries.
- We will target businesses that are market leaders, have high barriers to entry and defensible market positions within their industries, have the ability to endure economic downturns, and have attractive financial metrics and/or prospects, where we believe that our industry expertise and relationships can be used to create opportunities for value creation, whether for acquisitions, capital investments in organic growth opportunities, or the generation of greater operating efficiencies.
- We intend to seek target businesses that have established management teams, but which we believe could benefit from the industry experience and contacts of our management.
- We will seek to acquire a company that we believe could provide a platform for add-on acquisitions or businesses that are at an inflection point and where additional management depth can improve financial performance. We believe this will be an opportunity to deliver incremental stockholder value post-acquisition.
- We will seek a target that we believe will benefit from being publicly traded and will be able to effectively utilize the broader access to capital and the public profile that are associated with being a publicly traded company.
- We expect to focus on target businesses with EBITDA of \$50 million or more per year and an enterprise value of approximately \$500 million to \$1.5 billion, determined according to reasonably accepted valuation standards and methodologies. We believe that targeting businesses in the middle market will provide the greatest number of opportunities for investment and will maximize the collective network of our management team. Our management team believes that greater information asymmetries exist in the middle market, an area where we can create value through active implementation of performance improvement mechanisms and an acceleration of strategic initiatives.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management team may deem relevant. In the event that we decide to enter into our initial business combination with a target business that does not meet the above criteria, we will disclose that the target business does not meet the above criteria in our stockholder communications related to our initial business combination, which, as discussed in this prospectus, would be in the form of proxy solicitation materials or tender offer documents that we would file with the SEC.

Initial Business Combination

We will either (1) seek stockholder approval of our initial business combination at a meeting called for such purpose at which stockholders may seek to redeem their shares without voting and, if they do vote, regardless of whether they vote for or against the proposed business combination, into their pro rata share of the aggregate amount then on deposit in the trust account (net of taxes payable as of two business days prior to the consummation of the initial business combination), or (2) provide our stockholders with the opportunity to sell their shares to us by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount equal to their pro rata share of the aggregate amount then on deposit in the trust account (net of taxes payable as of two business days prior to the consummation of the initial business combination), in each case subject to the limitations described herein. The decision as to whether we will seek stockholder approval of our proposed business combination or allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek stockholder approval. Unlike other blank check companies which require stockholder votes and conduct proxy solicitations in conjunction with their initial business combinations and related redemptions of securities even when a vote is not required by law, we will have the flexibility to avoid such stockholder votes. In that case, we will file tender offer documents with the SEC that will contain substantially the same financial and other information about the initial business combination as is required under the SEC's proxy rules. We will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and, if we seek stockholder approval, the affirmative vote of the holders of a majority of the shares of the common stock that are voted at a stockholder meeting held to consider such initial business combination.

We will have until 21 months from the closing of this offering to consummate an initial business combination. However, if we anticipate that we may not be able to consummate our initial business combination within 21 months, we may, but are not obligated to, extend the period of time to consummate a business combination by an additional three months (for a total of up to 24 months to complete a business combination). Pursuant to the terms of our amended and restated certificate of incorporation and the trust agreement to be entered into between us and Continental Stock Transfer & Trust Company on the date of this prospectus, in order to extend the time available for us to consummate our initial business combination, our sponsor or its affiliates or designees, upon five days advance notice prior to the deadline, must deposit into the trust account \$1,500,000, or up to \$1,725,000 depending on the extent to which the underwriters' over-allotment option is exercised, if at all (\$0.10 per share in any case), on or prior to the date of the deadline. Our sponsor will receive a non-interest bearing, unsecured promissory note equal to the amount of any such deposit that will not be repaid in the event that we are unable to close a business combination unless there are funds available outside the trust account to do so. Such note would either be paid upon consummation of our initial business combination, or, at the lender's discretion, converted in whole or in part upon consummation of our business combination into additional private units at a price of \$10.00 per unit. In the event that we receive notice from our sponsor five days prior to the deadline of its intent to effect an extension, we intend to issue a press release announcing such intention at least three days prior to the deadline. In addition, we intend to issue a press release the day after the deadline announcing whether or not the funds had been timely deposited. Our sponsor and its affiliates or designees are not obligated to fund the trust account to extend the time for us to complete our initial business combination. If we are unable to consummate an initial business combination within such time period, we will, as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the outstanding public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including any interest earned on the funds held in the trust account, less up to \$100,000 of

interest to pay dissolution expenses and net of interest that may be used by us to pay our franchise and income taxes payable, divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law and as further described herein, and then seek to dissolve and liquidate. We expect the pro rata redemption price to be approximately \$10.00 per share of common stock (regardless of whether or not the underwriters exercise their over-allotment option), without taking into account any interest earned on such funds. However, we cannot assure you that we will in fact be able to distribute such amounts as a result of claims of creditors which may take priority over the claims of our public stockholders.

Nasdaq listing rules require that our initial business combination occur with one or more target businesses that together have a fair market value of at least 80% of the assets held in the trust account (excluding taxes payable on interest earned) at the time of the agreement to enter into the initial business combination. The fair market value of the target or targets will be determined by our Board of Directors based upon one or more standards generally accepted by the financial community (such as actual and potential sales, earnings, cash flow, and/or book value). Even though our Board of Directors will rely on generally accepted standards, our Board of Directors will have discretion to select the standards employed. In addition, the application of the standards generally involves a substantial degree of judgment. Accordingly, investors will be relying on the business judgment of the Board of Directors in evaluating the fair market value of the target or targets. The proxy solicitation materials or tender offer documents used by us in connection with any proposed transaction will provide stockholders with our analysis of the fair market value of the target business, as well as the basis for our determinations. If our board is not able independently to determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm, or another independent entity that commonly renders valuation opinions on the type of target business we are seeking to acquire, with respect to the satisfaction of such criteria. We do not currently intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination.

We currently anticipate structuring our initial business combination to acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination so that we merge directly with the target business or businesses or acquire less than 100% of their interests or assets in order to meet certain objectives of the target management team or stockholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or targets, or otherwise acquires a controlling interest in the target business or businesses sufficient for the post-transaction company not to be required to register as an investment company under the Investment Company Act of 1940, as amended (the "Investment Company Act"). Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us, respectively, in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we could acquire a 100% controlling interest in the target; however, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of Nasdaq's 80% fair market value test.

As more fully discussed in "*Management — Conflicts of Interest*", if any of our officers or directors becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has fiduciary or contractual obligations, he or she may be required to present such business combination opportunity to such entity prior to presenting such business combination opportunity to us. Certain of our directors currently have, and any of our officers or directors may in the future have, certain relevant fiduciary duties or contractual obligations. Our executive officers and directors have agreed not to participate in the formation of, or become an officer or director of, any other special purpose acquisition

company with a class of securities registered under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within the required time period.

Emerging Growth Company Status and Other Information

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended (the “Securities Act”), as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”). As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002 (the “Sarbanes-Oxley Act”), reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means that the market value of our common stock held by non-affiliates exceeds \$700 million as of the end of the prior fiscal year’s second fiscal quarter, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period. References herein to emerging growth company shall have the meaning associated with it in the JOBS Act.

Corporate Information

Our executive offices are located at 750 Lexington Avenue, Suite 1501, New York, NY 10022, and our telephone number is (212) 446-6981.

The Offering

In making your decision on whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section below entitled “*Risk Factors*” beginning on page [33](#) of this prospectus.

Securities offered

15,000,000 units (or 17,250,000 units if the underwriters’ over-allotment option is exercised in full), at \$10.00 per unit, each unit consisting of:

- one share of common stock; and
- one redeemable warrant to purchase one share of common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus.

Listing of our securities and proposed symbols

We anticipate that the units, as well as the shares of common stock and warrants underlying the units (once they begin separate trading), will be listed on Nasdaq under the symbols “MNCLU,” “MNCL” and “MNCLW,” respectively.

Trading commencement and separation of common stock and warrants

Each of the units, shares of common stock and warrants may trade separately on the 52nd day after the date of this prospectus unless Cowen and Company, LLC (“Cowen”) determines that an earlier date is acceptable, subject to us filing a Current Report on Form 8-K with the SEC with an audited balance sheet reflecting our receipt of the gross proceeds at the closing of this offering and issuing a press release announcing when separate trading will begin. Once our common stock and warrants commence separate trading, the holders thereof will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into shares of common stock and warrants.

We will file a Current Report on Form 8-K with the SEC, including an audited balance sheet reflecting our receipt of the gross proceeds at the closing of this offering, promptly upon the closing of this offering, which closing is anticipated to take place two business days from the date the units commence trading. If the underwriters’ over-allotment option is exercised after the date of this prospectus, we will file a subsequent Form 8-K to provide updated financial information to reflect the exercise of the over-allotment option. We will also include in this Form 8-K, an amendment thereto, or in a subsequent Form 8-K, information indicating if Cowen has allowed separate trading of the shares of common stock and warrants prior to the 52nd day after the date of this prospectus.

Issued and outstanding before this offering	4,312,500 shares ⁽²⁾
Issued and outstanding after this offering	19,250,000 shares ⁽³⁾
Warrants:	
Outstanding before this offering	0 warrants
Outstanding after this offering	15,500,000 warrants ⁽⁴⁾
Exercisability	Each warrant is exercisable for one share of common stock.
Exercise price	<p>\$11.50 per share of common stock, subject to adjustment as described in this prospectus. On the exercise of any warrant, the exercise price will be paid directly to us and not placed in the trust account.</p> <p>We are not registering the shares of common stock issuable upon exercise of the warrants (the “warrant shares”) at this time. However, we will use our best efforts to file with the SEC and have an effective and current registration statement covering the issuance of the warrant shares and a current prospectus relating to such shares in effect promptly following consummation of an initial business combination. Holders of our public warrants cannot pay cash to exercise of their public warrants unless we have an effective and current registration statement covering the issuance of the shares underlying such warrants and a current prospectus relating thereto.</p> <p>If a registration statement covering the issuance of the warrant shares is not effective within 90 days following the consummation of our initial business combination, warrant holders may nevertheless, until such time as there is such an effective registration statement and during any period when we shall have failed to maintain such an effective registration statement or current prospectus, exercise warrants on a cashless basis in accordance with Section 3(a)(9) of the Securities Act. In this circumstance, each holder would pay the exercise price by</p>
<hr/> <p>(1) Assumes no exercise of the underwriters’ over-allotment option and includes, accordingly, an aggregate of 500,000 private units sold concurrently with the closing of this offering.</p> <p>(2) Consists solely of founder shares, 562,500 of which will be subject to forfeiture by our founders depending on the extent to which the underwriters’ over-allotment option is exercised.</p> <p>(3) Assumes no exercise of the underwriters’ over-allotment option, and (i) includes, accordingly, an aggregate of 500,000 private shares and (ii) assumes, accordingly, that an aggregate of 562,500 founder shares have been forfeited.</p> <p>(4) Assumes no exercise of the underwriters’ over-allotment option and includes, accordingly, private warrants to purchase 500,000 shares of common stock sold concurrently with the closing of this offering, as part of the sale of 500,000 private units sold concurrently with the closing of this offering.</p>	

Exercise period

surrendering warrants exercisable for the number of shares of common stock equal to the quotient obtained by dividing (x) the product of the number of shares of common stock underlying such warrants and the difference between the exercise price of such warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” means the volume weighted average price of the shares of common stock for the ten trading days ending on the third trading day prior to the date of exercise.

The warrants will become exercisable, subject to the above limitations, on the later of:

- 30 days after the completion of our initial business combination; and
- 12 months from the closing of this offering.

The warrants will expire at 5:00 p.m., New York City time, on the fifth anniversary of our completion of an initial business combination, or earlier upon redemption or liquidation; provided, however, that the private warrants issued to Cowen Investments II LLC (“Cowen Investments”) will not be exercisable more than five years after the effective date of the registration statement of which this prospectus forms a part in accordance with FINRA Rule 5110(f)(2)(G)(i).

Redemption of Warrants

Once the warrants become exercisable, we may redeem the outstanding warrants (excluding the private warrants as described below):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days’ prior written notice of redemption, which we refer to as the 30-day redemption period; and
- if, and only if, the last reported sale price of our common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30 trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

We will not redeem the warrants unless a registration statement under the Securities Act covering the issuance of the warrant shares underlying the warrants to be so redeemed is then effective and a current prospectus relating to those warrant shares is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

If the foregoing conditions are satisfied and we issue a notice of redemption, each warrant holder may exercise his, her or its warrants prior to the scheduled redemption date. However, the price of the shares of common stock may fall below the \$18.00 trigger price (as adjusted) as well as the \$11.50 exercise price (as adjusted) after the redemption notice is issued.

The redemption criteria for our warrants have been established at a price which is intended to provide warrant holders a reasonable premium to the initial exercise price and provide a sufficient differential between the then-prevailing share price and the exercise price so that if the share price declines as a result of our redemption call, the redemption will not cause the share price to drop below the exercise price of the warrants.

If we call the warrants for redemption as described above, our management will have the option to require all holders that wish to exercise warrants to do so on a "cashless basis." In making such determination, our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of warrant shares issuable upon exercise of outstanding warrants. In such event, the holder would pay the exercise price by surrendering the warrants for that number of shares of common stock equal to the quotient obtained by dividing (x) the product of the number of warrant shares underlying the warrants to be so exercised, and the difference between the exercise price of the warrants and the fair market value by (y) the fair market value.

None of the private warrants will be redeemable by us so long as they are held by our founders or their permitted transferees.

**Securities purchased, or being
purchased, by our founders and
Other Insiders**

Founder Shares

In September 2018, our founders purchased an aggregate of 5,750,000 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.004 per share. Our sponsor and Cowen Investments purchased 5,390,625 and 359,375 of the founder shares, respectively. In November 2018, our sponsor transferred 15,000 founder shares to each of our initial director nominees.

On November 19, 2018, our founders forfeited an aggregate of 1,437,500 founder shares such that our initial stockholders own an aggregate of 4,312,500 founder shares. Up to an aggregate of 562,500 founder shares are subject to forfeiture depending on the extent to which the underwriters' over-allotment option is exercised during this offering. If the over-allotment option is not fully exercised, our sponsor may forfeit up to 527,344 founder shares and Cowen Investments may forfeit up to 35,156 founder shares. The function of the terms of forfeiture shall be to maintain the representation by the founder shares of 20% of the outstanding shares of our common stock upon completion of this offering (excluding the private shares) and, if any, of the

underwriter's over-allotment option. Prior to the investment in the Company of an aggregate of \$25,000 by our founders, we had no assets, tangible or intangible.

The founder shares are identical to the public shares, except that:

- the founder shares are subject to certain transfer restrictions, as described in more detail below; and
- our founders, executive officers, directors and director nominees have each entered into a letter agreement with us, pursuant to which they have agreed: (1) to waive their redemption rights with respect to any shares of common stock held by them, insofar as such rights would enable them to receive funds from the trust account, in connection with the completion of our initial business combination or any amendment to the provisions of our amended and restated certificate of incorporation relating to our pre-initial business combination activity and related stockholders' rights; and (2) to waive their rights to liquidating distributions from the trust account with respect to any founder shares they hold, or any shares of common stock included in the private units they purchase, if we fail to complete our initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame).

The founder shares purchased by Cowen Investments are deemed underwriters' compensation by FINRA pursuant to Rule 5110 of the FINRA Manual.

Private Units

Our founders have committed, pursuant to a written agreement, to purchase an aggregate of 500,000 private units (or 545,000 private units if the over-allotment option is exercised in full), at \$10.00 per unit in a private placement that will close simultaneously with this offering. Among the private units, 416,667 units (or 449,167 units if the over-allotment option is exercised in full) will be purchased by our sponsor and/or its designees and 83,333 units (or 95,833 units if the over-allotment option is exercised in full) will be purchased by Cowen Investments and/or its designees. The purchase price of the private units will be added to the proceeds of this offering to be held in the trust account described below. If we do not complete our initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering, the proceeds from the sale of the private units held in the trust account will be used to fund the redemption of our public shares (subject to the requirements of applicable law) and the warrants included in the private units will expire worthless. The private units are identical to the public units, except that the underlying warrants: (1) will not be redeemable by us; (2) may be exercised for cash or on a cashless basis, as described in this

prospectus, so long as they are held by the founders or any of their permitted transferees; and (3) with respect to private warrants held by Cowen Investments, will not be exercisable more than five years from the effective date of the registration statement of which this prospectus forms a part in accordance with FINRA Rule 5110(f)(2)(G)(i). If the warrants included in the private units are held by holders other than the founders or any of their permitted transferees, then the warrants included in the private units will be redeemable by us and exercisable by the holders on the same basis as the public warrants. In the event of a liquidation prior to our initial business combination, the warrants included in the private units will expire worthless.

The private units purchased by Cowen Investments or its affiliates are deemed underwriters' compensation by FINRA pursuant to Rule 5110 of the FINRA Manual.

Transfer restrictions applicable to founders' shares and private units

Our founders, executive officers, directors and director nominees have agreed not to transfer, assign or sell any of their founder shares, private units, or the securities underlying the private units, until one year after the completion of the Company's initial business combination (except with respect to permitted transferees as described herein under "*Principal Stockholders*"). Notwithstanding the foregoing, (1) if the reported last sale price of our common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (2) if we consummate a liquidation, merger, stock exchange or other similar transaction after our initial business combination which results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property, then such securities will be released from these restrictions. Any permitted transferees would be subject to the same restrictions and other agreements of our founders with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the "lock-up".

Voting arrangements with our founders and other insiders

Our founders, executive officers, directors and director nominees have each entered into a letter agreement with us, pursuant to which they have agreed (and any of their permitted transferees will agree): (1) to waive their redemption rights with respect to any shares of common stock held by them, insofar as such rights would enable them to receive funds from the trust account, in connection with the completion of our initial business combination or any amendment to the provisions of our amended and restated certificate of incorporation relating to our pre-initial business combination activity and related stockholders' rights; and (2) to waive their rights to liquidating distributions from the trust account with respect to any founder shares they hold, or any shares of common stock included in the private units they purchase, if we fail to complete our initial

business combination within 21 months from the closing of this offering (or 24 months, as applicable) (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame). If we submit an initial business combination to our stockholders for a vote, our founders, executive officers, directors and director nominees have agreed, pursuant to such letter agreement, to vote any shares of common stock held by them in favor of such initial business combination. As a result, in addition to the founder shares held by our founders, executive officers, directors and director nominees, and shares of common stock included in the private units that our founders have committed to purchase (as described above), we would need 5,375,001 public shares, or approximately 35.8% of the 15,000,000 public shares sold in this offering, to be voted in favor of a transaction (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised) in order to have such initial business combination approved.

Offering proceeds to be held in the trust account

Nasdaq rules provide that at least 90% of the gross proceeds from this offering and the sale of the private units be deposited in a trust account. Of the \$155,000,000 of gross proceeds we will receive from this offering and the sale of the private units (or, \$177,950,000 if the over-allotment option is exercised in full), an aggregate of \$150,000,000 (or \$10.00 per unit), or \$172,500,000 (or \$10.00 per unit) if the over-allotment option is exercised in full, will be placed in a trust account in the United States in New York, New York, maintained by Continental Stock Transfer & Trust Company acting as trustee pursuant to an agreement to be signed on the date of this prospectus. The funds in the trust account will be invested only in specified U.S. government treasury bills or in specified money market funds.

Except as set forth below with respect to taxes, the funds held in the trust account will not be released until the earlier of: (1) the completion of our initial business combination within the required time period; (2) our redemption of 100% of the outstanding public shares if we have not completed an initial business combination in the required time period; or (3) our redemption of our public shares in connection with the approval of any amendment to the provisions of our amended and restated certificate of incorporation relating to our pre-initial business combination activity and related stockholders' rights, including the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within the required time period. Therefore, unless and until our initial business combination is consummated, the proceeds held in the trust account will not be available for our use for any expenses related to this offering or expenses which we may incur related to the investigation and selection of a target business and the negotiation of an

agreement to acquire a target business. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public stockholders.

Unless and until we complete our initial business combination, no funds held in the trust account will be available for our use, except the withdrawal of interest earned to pay taxes. Based upon current interest rates, we expect the trust account to generate approximately \$2,100,000 of interest annually (assuming an interest rate of 1.4% per year). Unless and until we complete our initial business combination, we may pay our expenses only from:

- the net proceeds of this offering and the sale of the private units not held in the trust account, which will be approximately \$1,300,000 in working capital after the payment of approximately \$700,000 (excluding the underwriters' discounts and commissions) in offering expenses relating to this offering; and
- any loans or additional investments from our sponsor, members of our management team or any of their affiliates or other third parties, although they are under no obligation to loan funds or invest in us; and provided that any such loans will not have any claim on the proceeds held in the trust account unless such proceeds are released to us upon completion of our initial business combination.

Limited payments to insiders

There will be no fees, reimbursements or other cash payments paid to our sponsor, officers, directors, director nominees or their affiliates prior to, or for any services they render in order to effectuate, the consummation of our initial business combination (regardless of the type of transaction that it is) other than the following payments, none of which will be made from the proceeds of this offering and the sale of the private units held in the trust account prior to the consummation of our initial business combination:

- payment to an affiliate of our sponsor of a total of \$10,000 per month for office space and general and administrative services;
- payment to our sponsor of up to \$300,000, which amount our sponsor has made available to us as a general working capital loan evidenced by a promissory note from which we may draw from time to time prior to the consummation of this offering;
- reimbursement of out-of-pocket expenses incurred by them in connection with certain activities on our behalf, such as identifying and investigating possible business targets and business combinations; and
- repayment upon consummation of our initial business combination of any loans which may be made by our founders or their affiliates, or our executive officers,

directors, and director nominees or their affiliates, to finance transaction costs in connection with an intended initial business combination. The terms of any such loans have not been determined nor have any written agreements been executed with respect thereto. Up to \$1,500,000 of such loans may be convertible into additional units of the post-business combination entity at a price of \$10.00 per unit at the option of the lender. The units would be identical to the private units.

These payments may be funded using the net proceeds of this offering and the sale of the private units not held in the trust account or, upon completion of the initial business combination, from any amounts remaining from the proceeds of the trust account released to us in connection therewith.

Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or any of their affiliates.

Audit Committee

We have established and will maintain an audit committee (which will be composed entirely of independent directors) to, among other things, monitor compliance with the terms described above and the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to immediately take all action necessary to rectify such noncompliance or otherwise to cause compliance with the terms of this offering. For more information, see “*Management — Committees of the Board of Directors — Audit Committee.*”

Conditions to completing our initial business combination

There is no limitation on our ability to raise funds privately or through loans in connection with our initial business combination. Nasdaq listing rules require that our initial business combination occur with one or more target businesses that together have a fair market value of at least 80% of the assets held in the trust account (excluding taxes payable on interest earned) at the time of the agreement to enter into the initial business combination. We do not currently intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination.

If our Board of Directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm. We will complete our initial business combination only if the post-transaction company in which our public stockholders own shares will own or acquire 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for the post-transaction company not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to our initial business combination may collectively own a minority

interest in the post-transaction company, depending on valuations ascribed to the target and us in our initial business combination transaction. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test; provided that in the event that our initial business combination involves more than one target business, Nasdaq's 80% of net assets test will be based on the aggregate value of all of the target businesses.

Permitted purchases of public shares and public warrants by our affiliates

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our founders, directors, director nominees, executive officers, advisors or any of their affiliates may purchase public shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination although they are under no obligation to do so. None of the funds held in the trust account will be used to purchase public shares or public warrants in such transactions. Please see "*Proposed Business — Permitted purchases of our securities*" for a description of how such persons will determine from which stockholders to seek to acquire securities. There is no limit on the number of shares or warrants such persons may purchase, or any restriction on the price that they may pay. Any such price per share may be different than the amount per share a public stockholder would receive if it elected to redeem its shares in connection with our initial business combination. However, such persons have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions.

In the event our founders, directors, director nominees, executive officers, advisors or any of their affiliates determine to make any such purchases of public shares at the time of a stockholder vote relating to our initial business combination, such purchases could have the effect of influencing the vote necessary to approve such transaction. None of the funds in the trust account will be used to purchase public shares or public warrants in such transactions. If any or our founders, directors, director nominees, executive officers, advisors or any of their affiliates engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We cannot currently determine whether any of our insiders will make such purchases pursuant to a Rule 10b5-1 plan, as that would be dependent upon several factors, including but not limited to the timing and size of any such purchase. Depending on the circumstances, any of our insiders may decide to make purchases of our securities pursuant to a Rule 10b5-1 plan or may determine that acting pursuant to such a plan is not required under the Exchange Act.

Redemption rights for public stockholders upon completion of our initial business combination

We do not currently anticipate that purchases of our public shares or public warrants by any of our founders, directors, director nominees, executive officers, advisors or any of their affiliates, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. None of our founders, directors, director nominees, officers, advisors or any of their affiliates will purchase shares of our common stock if such purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act.

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, subject to the limitations described herein; provided, that we shall not redeem public shares to the extent that the redemption would result in our failure to have net tangible assets of at least \$5,000,001 (so that we do not then become subject to the SEC's "penny stock" rules), or any greater net tangible asset or cash requirement that may be contained in the agreement relating to our initial business combination.

The amount in the trust account is initially anticipated to be \$10.00 per public share. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our founders, directors, director nominees and executive officers have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any common stock held by them in connection with the completion of our initial business combination.

Manner of conducting redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination either (1) in connection with a stockholder meeting called to approve the business combination or (2) by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under applicable law or stock exchange listing requirement. Asset acquisitions and share purchases

would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our issued and outstanding shares of common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. We intend to conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by applicable law or stock exchange listing requirement or we choose to seek stockholder approval for business or other reasons.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers; and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, if we elect to conduct redemptions pursuant to the tender offer rules, we and our founders, directors, director nominees and executive officers will terminate any plan established in accordance with Rule 10b5-1 under the Exchange Act to purchase shares of our common stock in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of public shares, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we do not then become subject to the SEC's "penny stock" rules), or any greater net tangible asset or cash requirement that may be contained in the agreement relating to our initial business combination. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete such initial business combination.

If, however, stockholder approval of the transaction is required by applicable law or stock exchange listing requirement, or we decide to obtain stockholder approval for business or other reasons, we will:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules; and
- file proxy materials with the SEC.

We expect that a final proxy statement would be mailed to public stockholders at least ten days prior to the stockholder vote. However, we expect that a draft proxy statement would be made available to such stockholders well in advance of such time, providing additional notice of redemption if we conduct redemptions in conjunction with a proxy solicitation. Although we are not required to do so, we currently intend to comply with the substantive and procedural requirements of Regulation 14A in connection with any stockholder vote even if we are not able to maintain our Nasdaq listings or Exchange Act registration.

If we seek stockholder approval, we will complete our initial business combination only if we receive the affirmative vote of a majority of shares of our common stock that are voted at a stockholder meeting relating to the initial business combination. In such case, pursuant to the terms of a letter agreement entered into with us, our founders, directors, director nominees and executive officers have agreed (and any of their permitted transferees will agree) to vote their founder shares, private shares and any public shares held by them in favor of our initial business combination. We expect that at the time of any stockholder vote relating to our initial business combination, our founders, directors, director nominees, executive officers and any of their permitted transferees will own at least approximately 20% of our issued and outstanding shares of common stock entitled to vote thereon. These voting thresholds, and the voting agreements of our founders, directors, director nominees and executive officers may make it more likely that we will consummate our initial business combination. Each public stockholder may elect to redeem their public shares without voting, and if they do vote, irrespective of whether they vote for or against the proposed transaction.

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we do not then become subject to the SEC's "penny stock" rules). Redemptions of our public shares may also be subject to a higher net tangible asset test or cash requirement pursuant to an agreement relating to our initial business combination. For example, the proposed business combination may require: (1) cash consideration to be paid to the target or its owners; (2) cash to be transferred to the target for working capital or other general corporate purposes; or (3) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all shares of common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the

terms of the proposed business combination exceed the aggregate amount of cash available to us, we would not complete the business combination or redeem any shares of common stock, and all shares of common stock submitted for redemption would be returned to the holders thereof.

Tendering share certificates in connection with a tender offer or redemption rights

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve our initial business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) System, at the holder’s option, rather than simply voting against the initial business combination. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements.

Limitation on redemption rights of stockholders holding more than 15% of the shares sold in this offering if we hold a stockholder vote

Notwithstanding the foregoing redemption rights, if we seek stockholder approval of our initial business combination in conjunction with a stockholder vote pursuant to a proxy solicitation (meaning that we would not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules), our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares of common stock with respect to an aggregate of more than 15% of the shares of common stock sold in this offering without our prior consent. We believe this restriction will discourage stockholders from accumulating large blocks of shares of common stock, and subsequent attempts by such holders to use their ability to redeem their shares of common stock as a means to force us or our founders, directors, director nominees, executive officers or any of their affiliates to purchase their shares of common stock at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder (together with its “group”) holding an aggregate of more than 15% of the shares of common stock sold in this offering could threaten to exercise its redemption rights against a business combination if such holder’s shares of common stock were not purchased by us or our founders, directors, director nominees, executive officers or any of their affiliates at a premium to the then-current market

price or on other undesirable terms. By limiting our public stockholders' redemption rights as herein described, we believe we will limit the potential for a small group of stockholders to unreasonably attempt to block the completion of our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not restrict our stockholders' ability to vote all of their shares of common stock (including all shares held by those stockholders that hold more than 15% of the shares sold in this offering) for or against our initial business combination.

**Redemption rights in connection
with proposed amendments to our
charter documents**

Some other blank check companies have a provision in their charter documents which prohibits the amendment of certain charter provisions. Our amended and restated certificate of incorporation will provide that amendments to any of its provisions relating to our pre-initial business combination activity and related stockholders' rights, including the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within the required time period, may be amended if approved by holders of at least 65% of our common stock. If any such amendments to our amended and restated certificate of incorporation are approved by the requisite stockholder vote, we may amend the corresponding provisions of the trust agreement governing the release of funds from our trust account. In all other instances, our amended and restated certificate of incorporation may be amended by the holders of a majority of our outstanding common stock, subject to applicable provisions of the Delaware General Corporation Law, or DGCL, or applicable stock exchange rules.

After the completion of this offering, and prior to the consummation of our initial business combination, we may not issue any additional shares of capital stock that would entitle the holders thereof to receive funds from the trust account or vote as a class with our public shares on an initial business combination, on any pre-business combination activity or on any amendment to the provisions of our amended and restated certificate of incorporation relating to our pre-initial business combination activity and related stockholders' rights.

Our founders, executive officers, directors, and director nominees, who will beneficially own approximately 20% of our shares of common stock upon the closing of this offering (assuming they do not purchase public units in this offering), may participate in any vote to amend our amended and restated certificate of incorporation and will have the discretion to vote in any manner they choose; *provided, that*, each of them has agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 21 months (or

24 months, as applicable) from the closing of this offering, unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares. We may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we do not then become subject to the SEC's "penny stock" rules).

Our founders, executive officers, directors and director nominees have entered into a letter agreement with us pursuant to which they have agreed to waive their redemption rights with respect to their founder shares, private shares and any public shares held by them in connection with any amendment to the provisions of our amended and restated certificate of incorporation relating to our pre-initial business combination activity and related stockholders' rights.

Release of funds in trust account on closing of our initial business combination

Upon the completion of our initial business combination, all amounts held in the trust account will be released to us. We will use these funds to pay amounts due to any public stockholders who exercise their redemption rights as described above under "*Redemption rights for public stockholders upon completion of our initial business combination*," to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination. If our initial business combination is paid for using equity or debt, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination or used for redemption of our public shares, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

Redemption of public shares and distribution and liquidation if no initial business combination

We will have only 21 months from the closing of this offering to complete our initial business combination. However, if we anticipate that we may not be able to consummate our initial business combination within 21 months, we may, but are not obligated to, extend the period of time to consummate a business combination by an additional three months (for a total of up to 24 months to complete a business combination). Pursuant to the terms of our amended and restated certificate of incorporation and the trust agreement to be entered into between us and Continental Stock Transfer & Trust Company on the date of this prospectus, in order to extend the time available for us to

consummate our initial business combination, our sponsor or its affiliates or designees, upon five days advance notice prior to the deadline, must deposit into the trust account \$1,500,000, or up to \$1,725,000 depending on the extent to which the underwriters' over-allotment option is exercised (\$0.10 per share in any case), on or prior to the date of the deadline. Our sponsor will receive a non-interest bearing, unsecured promissory note equal to the amount of any such deposit that will not be repaid in the event that we are unable to close a business combination unless there are funds available outside the trust account to do so. Such note would either be paid upon consummation of our initial business combination, or, at the lender's discretion, converted in whole or in part upon consummation of our business combination into additional private units at a price of \$10.00 per unit. In the event that we receive notice from our sponsor five days prior to the deadline of its intent to effect an extension, we intend to issue a press release announcing such intention at least three days prior to the deadline. In addition, we intend to issue a press release the day after the deadline announcing whether or not the funds had been timely deposited. Our sponsor and its affiliates or designees are not obligated to fund the trust account to extend the time for us to complete our initial business combination. If we are unable to complete our initial business combination within such period, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than 10 business days thereafter, redeem the outstanding public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law; and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our Board of Directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the prescribed time period.

Our founders, executive officers, directors and director nominees have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares and private shares if we fail to complete our initial business combination within 21 months from the closing of this offering (or 24 months, as applicable). However, if our founders, executive officers, directors, or director nominees acquire public shares after this offering they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the prescribed time frame.

Indemnity

Our sponsor has agreed that it will be liable to us, if and to the extent any claims by a third party (other than our independent auditors) for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amounts in the trust account to below (1) \$10.00 per public share or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third party claims. We have not independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company and, therefore, our sponsor may not be able to satisfy those obligations, and we have not asked our sponsor to reserve for such obligations. We believe the likelihood of our sponsor having to indemnify the trust account is limited because we will endeavor to have all vendors and prospective target businesses as well as other entities execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account.

Risks

We are a newly incorporated company that has conducted no operations and has generated no revenues. Until we complete our initial business combination, we will have no operations and will generate no operating revenues. In making your decision on whether to invest in our securities, you should take into account the special risks we face as a blank check company, as well as the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act and, therefore, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. For additional information concerning how Rule 419 blank check offerings differ from this offering, please see “*Proposed Business — Comparison to offerings of blank check companies subject to Rule 419.*” You should carefully consider these and the other risks set forth in the section entitled “*Risk Factors*” beginning on page [33](#) of this prospectus.

SUMMARY FINANCIAL DATA

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

	December 31, 2018	
	Actual	As Adjusted
Balance Sheet Data:		
Working capital (deficit) ⁽¹⁾	\$(351,858)	\$ 151,324,549
Total assets ⁽²⁾	\$ 417,500	\$ 151,324,549
Total liabilities	\$ 392,951	—
Value of shares of common stock which may be redeemed for cash ⁽³⁾	—	\$ 146,324,540
Stockholders' equity	\$ 24,549	\$ 5,000,009

- (1) The “as adjusted” calculation includes the \$150,000,000 cash held in trust from the proceeds of this offering and the sale of the private units, plus the \$1,300,000 held outside the trust account, plus \$24,549 of actual stockholders’ equity at December 31, 2018.
- (2) The “as adjusted” calculation includes the \$150,000,000 cash held in trust from the proceeds of this offering and the sale of the private units, plus the \$1,300,000 held outside the trust account, plus \$24,549 of actual stockholders’ equity at December 31, 2018.
- (3) The “as adjusted” value of shares of common stock which may be redeemed for cash is derived by taking 14,632,454 shares which may be redeemed, representing the maximum number of shares that may be redeemed while maintaining at least \$5,000,001 in net tangible assets after the offering, multiplied by a redemption price of \$10.00.

The “as adjusted” information gives effect to the sale of the public units and the private units, including the application of the related gross proceeds and the payment of the estimated remaining costs from such sale and the repayment of the accrued and other liabilities required to be repaid such that we have at least \$5,000,001 of net tangible assets upon consummation of this offering and upon consummation of our initial business combination.

The “as adjusted” total assets amount includes the \$150,000,000 held in the trust account (or \$172,500,000 if the underwriters’ over-allotment option is exercised in full) for the benefit of our public stockholders, which amount will be available to us only upon the completion of our initial business combination within the time period described in this prospectus.

We will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and a majority of the outstanding shares of common stock voted are voted in favor of the business combination (if a vote is required or being obtained).

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

We are a blank check company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a blank check company with no operating results, and we will not commence operations until obtaining funding through this offering. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination with one or more target businesses. We have no plans, arrangements or understandings with any prospective target business concerning our initial business combination and may be unable to complete our initial business combination. If we fail to complete our initial business combination, we will never generate any operating revenues.

Past performance by our management team may not be indicative of future performance of an investment in our company.

Information regarding performance by, or businesses associated with, our management team and their affiliates is presented for informational purposes only. Past performance by our management team is not a guarantee either (i) that we will be able to identify a suitable candidate for our initial business combination or (ii) of success with respect to any business combination we may consummate. You should not rely on the historical record of our management team's or their affiliates' performance as indicative of our future performance of an investment in the company or the returns the company will, or is likely to, generate going forward. None of our officers or directors has had experience with any blank check companies in the past.

The requirement that the target business or businesses that we acquire must collectively have a fair market value equal to at least 80% of the balance of the funds in the trust account (less any taxes payable on interest earned and less any interest earned thereon that is released to us for taxes) at the time of the execution of a definitive agreement for our initial business combination may limit the type and number of companies that we may complete such a business combination with.

Pursuant to the Nasdaq listing rules, the target business or businesses that we acquire must collectively have an aggregate fair market value of at least 80% of the assets held in the trust account (excluding any taxes payable on interest earned) at the time of the agreement to enter into the initial business combination. This restriction may limit the type and number of companies that we may complete an initial business combination with. If we are unable to locate a target business or businesses that satisfy this fair market value test, we may be forced to liquidate and you will only be entitled to receive your pro rata portion of the funds in the trust account.

Our public stockholders may not be afforded an opportunity to vote on our proposed initial business combination, which means we may consummate our initial business combination even though a majority of our public stockholders do not support such a combination.

We may not hold a stockholder vote to approve our initial business combination unless the business combination would require stockholder approval under applicable law or stock exchange rules or if we decide to hold a stockholder vote for business or other reasons. For instance, Nasdaq rules currently allow us to engage in a tender offer in lieu of a stockholder meeting, but would still require us to obtain stockholder approval if we were seeking to issue more than 20% of our issued and outstanding shares to a target business as consideration in any business combination. Therefore, if we were structuring a business combination that required us to issue more than 20% of our issued and outstanding shares, we would seek stockholder approval of such business combination. However, except as required by applicable law or stock exchange rules, the decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and

whether the terms of the transaction would otherwise require us to seek stockholder approval. Accordingly, we may consummate our initial business combination even if holders of a majority of the issued and outstanding shares of common stock do not approve of the business combination we consummate. Please see “*Proposed Business — Effecting Our Initial Business Combination — Stockholders may not have the ability to approve our initial business combination*” for additional information. Our founders control a substantial interest in us and thus may exert substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.

If we seek stockholder approval of our initial business combination, our founders, executive officers and directors have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote.

Unlike many other blank check companies in which the founders, executive officers, directors and director nominees agree to vote their founder shares in accordance with the majority of the votes cast by the public stockholders in connection with an initial business combination, our founders, executive officers, directors and director nominees have agreed (and their permitted transferees will agree), pursuant to the terms of a letter agreement entered into with us, to vote any common stock held by them in favor of our initial business combination. As a result, in addition to the founder shares held by our founders, executive officers, directors and director nominees, and shares of common stock included in the private units that our founders have committed to purchase, we would need 5,375,001, or approximately 35.8%, of the 15,000,000 public shares sold in this offering to be voted in favor of a transaction (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised) in order to have such initial business combination approved. We expect that our founders, executive officers, directors and director nominees, and their permitted transferees will own at least approximately 22.1% of the issued and outstanding shares of our common stock at the time of any such stockholder vote. Accordingly, if we seek stockholder approval of our initial business combination, it is more likely that the necessary stockholder approval will be received than would be the case if such persons agreed to vote their founder shares in accordance with the majority of the votes cast by our public stockholders.

Your only opportunity to affect the investment decision regarding a potential business combination may be limited to the exercise of your right to redeem your shares from us for cash.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of one or more target businesses. Because our Board of Directors may consummate our initial business combination without seeking stockholder approval, public stockholders may not have the right or opportunity to vote on the business combination. Accordingly, your only opportunity to affect the investment decision regarding a potential business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our initial business combination.

The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into our initial business combination with a target.

We may enter into a transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights, we may not be able to meet such closing condition, and as a result, would not be able to proceed with such business combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon the consummation of our initial business combination or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. Our amended and restated certificate of incorporation will require us to provide all of our public stockholders with an opportunity to redeem all of their shares in connection with the consummation of any initial business combination. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 upon the consummation of our initial business combination, or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets would be aware of these risks and, thus, may be reluctant to enter into our initial business combination transaction with us.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to consummate the most desirable business combination or optimize our capital structure.

In connection with the successful consummation of our initial business combination, we may redeem up to that number of shares of common stock that would permit us to maintain net tangible assets of \$5,000,001 upon the consummation of our initial business combination. If our initial business combination requires us to use substantially all of our cash to pay the purchase price, the redemption threshold may be further limited. Alternatively, we may need to arrange third party financing to help fund our business combination in case a larger percentage of stockholders exercise their redemption rights than we expect. If the acquisition involves the issuance of our shares as consideration, we may be required to issue a higher percentage of our shares to the target or its stockholders to make up for the failure to satisfy a minimum cash requirement. Raising additional funds to cover any shortfall may involve dilutive equity financing or incurring indebtedness at higher than desirable levels. This may limit our ability to effectuate the most attractive business combination available to us.

The requirement that we maintain a minimum net worth or retain a certain amount of cash could increase the probability that our business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your shares.

If, pursuant to the terms of our proposed business combination, we are required to maintain a minimum net worth or retain a certain amount of cash in trust in order to consummate the business combination and regardless of whether we proceed with redemptions under the tender or proxy rules, the probability that our business combination would be unsuccessful is increased. If our business combination is unsuccessful, you would not receive your pro rata portion of the trust account until we liquidate. If you are in need of immediate liquidity, you could attempt to sell your shares in the open market; however, at such time our shares may trade at a discount to the pro rata amount per share in our trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your shares in the open market.

The requirement that we complete our initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering may give potential target businesses leverage over us in negotiating our initial business combination and may limit the amount of time we have to conduct due diligence on potential business combination targets, in particular as we approach our dissolution deadline, which could undermine our ability to consummate our initial business combination on terms that would produce value for our stockholders.

Any potential target business with which we enter into negotiations concerning our initial business combination will be aware that we must consummate our initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering. Consequently, such target businesses may obtain leverage over us in negotiating our initial business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

We may not be able to consummate our initial business combination within the required time period, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate.

Our founders, executive officers, directors and director nominees, have agreed that we must complete our initial business combination within 21 months (or 24 months if we have extended the period of time as described in this prospectus) from the closing of this offering. We may not be able to find a suitable target business and consummate our initial business combination within such time period. Our ability to complete our initial business combination may be negatively impacted by general market conditions, volatility in the capital and debt markets and the other risks described herein.

If we are unable to consummate our initial business combination within the require time period, we will, as promptly as reasonably possible but not more than five business days thereafter, distribute the aggregate amount then on deposit in the trust account (net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), pro rata to our public stockholders by way of redemption and cease all operations except for the purposes of winding up of our affairs, as further described herein. This redemption of public stockholders from the trust account shall be effected as required by function of our amended and restated certificate of incorporation and prior to any voluntary winding up.

If we seek stockholder approval of our initial business combination pursuant to a proxy solicitation, our founders, directors, director nominees, executive officers, advisors and their affiliates may elect to purchase shares from stockholders, in which case they may influence a vote in favor of a proposed business combination that you do not support.

If we seek stockholder approval of our initial business combination pursuant to a proxy solicitation (meaning we would not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules), our founders, directors, director nominees, executive officers, advisors or any of their affiliates are permitted to purchase shares of our common stock in privately negotiated transactions or in the open market either prior to or following the consummation of our initial business combination. Any such purchase would be required to include a contractual acknowledgement that the selling stockholder, although he may still be the record holder of the shares being sold, would, upon consummation of such sale, no longer be the beneficial owner of such shares and would agree not to exercise the redemption rights applicable to such shares. In the event that our founders, directors, executive officers, advisors or any of their affiliates purchase shares of common stock in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, any such selling stockholders would be required to revoke their prior elections to redeem their shares of common stock prior to the consummation of the transaction.

The purpose of such purchases could be to (1) increase the likelihood of obtaining stockholder approval of the initial business combination or (2) satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of the business combination, where it appears that such requirement would otherwise not be met. This may result in the consummation of an initial business combination that may not otherwise have been possible.

Purchases of shares of our common stock in the open market or in privately negotiated transactions by our founders, directors, director nominees, executive officers, advisors or their affiliates may make it difficult for us to maintain the listing of our common stock on Nasdaq following the consummation of an initial business combination.

If our founders, directors, director nominees, executive officers, advisors or their affiliates purchase shares of our common stock in the open market or in privately negotiated transactions, the public “float” of our common stock and the number of beneficial holders of our securities would both be reduced, possibly making it difficult to maintain the listing or trading of our securities on Nasdaq following consummation of the initial business combination.

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. To liquidate your investment, therefore, you may be forced to sell your securities, potentially at a loss.

Our public stockholders shall be entitled to receive funds from the trust account only (i) in the event of a redemption to public stockholders prior to any winding up in the event we do not consummate our initial business combination or our liquidation, (ii) if they redeem their shares in connection with an initial business combination that we consummate or, (iii) if they redeem their shares in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering or (B) with respect to any other provision relating to our pre-business combination activity and related stockholders’ rights. In no other circumstances will a stockholder have any right or interest of any kind to the funds in the trust account. Accordingly, to liquidate your investment, you may be forced to sell your securities, potentially at a loss.

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Since the net proceeds of this offering are intended to be used to complete our initial business combination with a target business that has not been identified, we may be deemed to be a “blank check” company under the United States securities laws. However, since we will have net tangible assets in excess of \$5,000,000 upon the successful consummation of this offering and will file a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we may have a longer period of time to complete our initial business combination than do companies subject to Rule 419. Moreover, offerings subject to Rule 419 would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us in connection with our consummation of an initial business combination. For a more detailed comparison of our offering to offerings that comply with Rule 419, please see “Proposed Business — Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.”

If we seek stockholder approval of our initial business combination pursuant to a proxy solicitation (meaning we would not conduct redemptions pursuant to the tender offer rules), and if you or a “group” of stockholders are deemed to hold in excess of 15% of the issued and outstanding shares of our common stock, you will lose the ability to redeem all such shares in excess of 15% of the issued and outstanding shares of our common stock.

If we seek stockholder approval of our initial business combination pursuant to a proxy solicitation (meaning we would not conduct redemptions pursuant to the tender offer rules), our amended and restated certificate of incorporation will provide that a public stockholder, individually or together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), would be restricted from seeking redemption rights with respect to an aggregate of more than 15% of the shares of common stock sold in this offering without our prior written consent. Your inability to redeem an aggregate of more than 15% of the shares of common stock sold in this offering will reduce your influence over our ability to consummate our initial business combination and you could suffer a material loss on your investment in us if you sell such excess shares in open market transactions. As a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, you would be required to sell your shares in open market transaction, potentially at a loss.

If the funds not being held in the trust account are insufficient to allow us to operate for at least 21 months (or 24 months, if we extend our time to complete a business combination as described in this prospectus) following the closing of this offering, we may be unable to complete our initial business combination.

The funds available to us outside of the trust account, plus the interest earned on the funds held in the trust account that may be available to us, may not be sufficient to allow us to operate for at least 21 months (or 24 months if we extend our time to complete a business combination as described in this prospectus) following the closing of this offering, assuming that our initial business combination is not consummated during that time. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a “no-shop” provision (a provision in letters of intent designed to keep target businesses from “shopping” around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we are unable to fund such down payments or “no shop” provisions, our ability to close a contemplated transaction could be impaired. Furthermore, if we entered into a letter of intent where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business. If we are required to seek additional capital, we would need to borrow funds from our sponsor, management team or other third parties to operate or may be forced to liquidate. Neither our sponsor, members of our management team nor any of their affiliates is under any obligation to advance funds to us in such circumstances. Any such advances would be repaid only from funds held outside the trust account or from

funds released to us upon completion of our initial business combination. Up to \$1,500,000 of such loans may be convertible into additional units of the post-business combination entity at a price of \$10.00 per unit at the option of the lender. The units would be identical to the private units. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share or potentially less than \$10.00 per share on our redemption, and our warrants will expire worthless.

Subsequent to the consummation of our initial business combination, we may be required to take write-downs or write-offs, or we may be subject to restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and the price of our common stock, which could cause you to lose some or all of your investment.

Even if we conduct thorough due diligence on a target business with which we combine, this diligence may not surface all material issues that may be present with a particular target business. Factors outside of the target business and outside of our control may, at any time, arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-combination debt financing.

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per share redemption amount received by stockholders may be less than \$10.00 per share.

Our placing of funds in the trust account may not protect those funds from third-party claims against us. Although we will seek to have all vendors, service providers (other than our independent registered public accounting firm), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, such parties may not execute such agreements, or even if they execute such agreements they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Our independent registered public accounting firm and the underwriters of this offering will not execute agreements with us waiving such claims to the monies held in the trust account.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where we are unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we are unable to complete our initial business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our initial business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Accordingly, the per share redemption amount received by public stockholders could be less than the \$10.00 per share initially held in the trust account, due to claims of such creditors.

Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than our independent registered public accounting firm) for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below (1) \$10.00 per public share or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third party claims. We have not independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company and, therefore, our sponsor may not be able to satisfy those obligations. We have not asked our sponsor to reserve for such obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Our directors may decide not to enforce indemnification obligations against our sponsor, resulting in a reduction in the amount of funds in the trust account available for distribution to our public stockholders.

In the event that the proceeds in the trust account are reduced below (1) \$10.00 per public share or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses) and our sponsor asserts that it is unable to satisfy obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine on our behalf whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. If our independent directors choose not to enforce these indemnification obligations on our behalf, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.00 per share.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including restrictions on the nature of our investments and restrictions on the issuance of securities, each of which may make it difficult for us to complete our initial business combination. In addition, we may have imposed upon us burdensome requirements, including registration as an investment company with the SEC, adoption of a specific form of corporate structure and reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to consummate our initial business combination.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, investments and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws

and regulations and their interpretation and application also may change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to complete our initial business combination, and results of operations.

We may not be able to complete our initial business combination within the prescribed time frame, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate.

We must complete our initial business combination within 21 months (or 24 months if we extend our time to complete a business combination as described in this prospectus) from the closing of this offering. We may not be able to find a suitable target business and complete our initial business combination within such time period or we may be unable to consummate a business combination due to a downturn in industry or economic conditions or due to other factors that may occur. If we have not completed our initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the outstanding public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including any interest earned on the funds held in the trust account, less up to \$100,000 of interest to pay dissolution expenses and net of interest that may be used by us to pay our franchise and income taxes payable, divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our Board of Directors, dissolve and liquidate, subject (in the case of (ii) and (iii) above) to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

Our stockholders may be held liable for claims by third parties against us to the extent of distributions received by them.

Our amended and restated certificate of incorporation provides that we will continue in existence only until 21 months (or 24 months if we extend our time to complete a business combination as described in this prospectus) from the closing of this offering. As promptly as reasonably possible following the redemptions we are required to make to our public stockholders in such event, subject to the approval of our remaining stockholders and our Board of Directors, we would dissolve and liquidate, subject to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. We cannot assure you that we will properly assess all claims that may be potentially brought against us. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend well beyond the third anniversary of the date of distribution. Accordingly, we cannot assure you that third parties will not seek to recover from our stockholders amounts owed to them by us.

If we are forced to file a bankruptcy case or an involuntary bankruptcy case is filed against us which is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a "preferential transfer" or a "fraudulent conveyance." As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. Furthermore, because we intend to distribute the proceeds held in the trust account to our public stockholders promptly after expiration of the time we have to complete an initial business combination, this may be viewed or interpreted as giving preference to our public stockholders over any potential creditors with respect to access to or distributions from our assets. Furthermore, our board may be viewed as having breached their fiduciary duties to our creditors and/or may have acted in bad faith, and thereby exposing itself and our company to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

The grant of registration rights to our founders, executive officers, directors and director nominees may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our common stock.

Pursuant to an agreement to be entered into on the date of this prospectus, our founders, executive officers, directors and director nominees, and their respective permitted transferees, can demand that we register for resale an aggregate of 4,312,500 founder shares (562,500 founder shares are subject to forfeiture depending upon the degree to which the over-allotment option is exercised in full) and 500,000 private units (or 545,000 private units if the over-allotment option is exercised in full) and underlying securities.

We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our securities. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the stockholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our securities that is expected when the securities owned by our founders, executive officers, directors and director nominees, or their respective permitted transferees, are registered for resale.

Because we are not limited to any specific geographic location or any specific target business, industry or sector with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business' operations.

Although we intend to focus on the aerospace and defense, industrial, and technology and telecommunications sectors, we may pursue acquisition opportunities in any geographic region and in any business industry or sector. Except for the limitations that a target business have a fair market value of at least 80% of the value of the trust account (excluding any taxes payable on interest earned) and that we are not permitted to effectuate our initial business combination with another blank check company or similar company with nominal operations, we will have virtually unrestricted flexibility in identifying and selecting a prospective acquisition candidate. Because we have not yet identified or approached any specific target business with respect to our initial business combination, there is no basis to evaluate the possible merits or risks of any particular target business' operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we consummate our initial business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. An investment in our units may not ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in an acquisition target.

We may seek acquisition opportunities outside the aerospace and defense, industrial, and technology and telecommunications sectors, which may be outside of our management's areas of expertise.

We will consider a business combination outside the aerospace and defense, industrial, and technology and telecommunications sectors, which may be outside of our management's areas of expertise, if a business combination candidate is presented to us and we determine that such candidate offers an attractive acquisition opportunity for our company. In the event we elect to pursue an acquisition outside of the areas of our management's expertise, our management's expertise may not be directly applicable to its evaluation or operation, and the information contained in this prospectus regarding the areas of our management's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management may not be able to adequately ascertain or assess all of the significant risk factors relevant to such acquisition. Accordingly, any stockholder who chooses to remain a stockholder following our initial business combination could suffer a reduction in the value of their securities. Such stockholders are unlikely to have a remedy for such reduction in value.

Although we identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we consummate our initial business combination with a target that does not meet some or all of these criteria or guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce our initial business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by law or the rules of Nasdaq, or we decide to obtain stockholder approval for business or other reasons, it may be more difficult for us to attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share or potentially less than \$10.00 per share on our redemption, and our warrants will expire worthless.

Management's flexibility in identifying and selecting a prospective acquisition candidate, along with our management's financial interest in consummating our initial business combination, may lead management to enter into an acquisition agreement that is not in the best interest of our stockholders.

Subject to the Nasdaq listing rules requirement that our initial business combination occur with one or more target businesses or assets that together have an aggregate fair market value of at least 80% of the value of the trust account (excluding any taxes payable on interest earned) at the time of the agreement to enter into such initial business combination, we will have virtually unrestricted flexibility in identifying and selecting a prospective acquisition candidate. Investors will be relying on management's ability to identify business combinations, evaluate their merits, conduct or monitor diligence and conduct negotiations. Management's flexibility in identifying and selecting a prospective acquisition candidate, along with management's financial interest in consummating our initial business combination, may lead management to enter into an acquisition agreement that is not in the best interest of our stockholders.

We may seek acquisition opportunities with an early stage company, a financially unstable business or an entity lacking an established record of revenue or earnings.

To the extent we complete our initial business combination with an early stage company, a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by numerous risks inherent in the operations of the business with which we combine. These risks include investing in a business without a proven business model and with limited historical financial data, volatile revenues or earnings, intense competition and difficulties in obtaining and retaining key personnel. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not be able to properly ascertain or assess all of the significant risk factors and we may not have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business.

We are not required to obtain an opinion from an independent investment banking firm or an independent accounting firm, and consequently, an independent source may not confirm that the price we are paying for the business is fair to our stockholders from a financial point of view.

Unless we consummate our initial business combination with an affiliated entity, we are not required to obtain an opinion from an independent investment banking firm or an independent accounting firm that the price we are paying is fair to our stockholders from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our Board of Directors, who will determine fair market value based on standards generally accepted by the financial community. Our Board of Directors will have

significant discretion in choosing the standard used to establish the fair market value of the target acquisition. Such standards used will be disclosed in our tender offer documents or proxy solicitation materials, as applicable, related to our initial business combination.

We may issue additional shares of common stock or preferred shares to complete our initial business combination or under an employee incentive plan upon or after consummation of our initial business combination, which would dilute the interest of our stockholders and likely present other risks.

Our amended and restated certificate of incorporation will authorize the issuance of 200,000,000 shares of common stock, and 5,000,000 shares of preferred stock, par value \$0.0001 per share. We may issue a substantial number of additional shares of common stock or shares of preferred stock, par value \$0.0001 per share, to complete our initial business combination or under an employee incentive plan upon or after consummation of our initial business combination. However, our amended and restated certificate of incorporation provides that we may not issue any additional shares of capital stock that would entitle the holders thereof to receive funds from the trust account or vote as a class with our public shares on an initial business combination. Although no such issuance will affect the per share amount available for redemption from the trust account, the issuance of additional common stock or preferred shares:

- may significantly dilute the equity interest of investors in this offering, who will not have pre-emption rights in respect of such an issuance;
- may subordinate the rights of holders of shares of common stock if one or more classes of preferred stock are created, and such preferred shares are issued, with rights senior to those afforded to our common stock;
- could cause a change in control if a substantial number of shares of common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors; and
- may adversely affect prevailing market prices for our units, common stock and/or warrants.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete our initial business combination, which may adversely affect our financial condition and thus negatively impact the value of our stockholders' investment in us.

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt following this offering, we may choose to incur substantial debt to complete the initial business combination. Furthermore, we may issue a substantial number of additional common or preferred shares to complete our initial business combination or under an employee incentive plan upon or after consummation of our initial business combination. We and our officers and directors have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to any monies held in the trust account. As such, no issuance of debt will affect the per share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after our initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if the debt contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our common stock;

- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

Resources could be wasted in researching acquisitions that are not consummated, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business.

We anticipate that the investigation of each specific target business and the negotiation, drafting, and execution of relevant agreements, disclosure documents, and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to consummate our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share or potentially less than \$10.00 per share on our redemption, and our warrants will expire worthless.

Provisions in our amended and restated certificate of incorporation and Delaware law may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our common stock and could entrench management.

Our amended and restated certificate of incorporation will contain provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. These provisions include a staggered Board of Directors and the ability of our Board of Directors to designate the terms of, and issue new series of, preferred stock, which may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities. We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

Our amended and restated certificate of incorporation will provide, subject to limited exceptions, that the Court of Chancery of the State of Delaware will be the sole and exclusive forum for certain stockholder litigation matters, which could limit our stockholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers, employees or stockholders.

Our amended and restated certificate of incorporation will require, to the fullest extent permitted by law, that derivative actions brought in our name, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel; provided that the exclusive forum provision will not apply to (i) suits brought to enforce any liability or duty created by the Exchange Act, (ii) any other claim for which the federal courts have exclusive jurisdiction, (iii) any claim as to which the Court of Chancery determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (iv) any claim which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, or (v) any claim for which the Court of

Chancery does not have subject matter jurisdiction. Furthermore, our amended and restated certificate of incorporation will also provide that unless we consent in writing to the selection of an alternative forum, the federal district courts of the United States shall be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and consented to the forum provisions in our amended and restated certificate of incorporation.

This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, other employees or stockholders, which may discourage lawsuits with respect to such claims, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder. Alternatively, if a court were to find the choice of forum provision contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results and financial condition.

We do not currently intend to hold an annual meeting of stockholders until after our consummation of a business combination and you will not be entitled to any of the corporate protections provided by such a meeting.

We do not currently intend to hold an annual meeting of stockholders until after we consummate a business combination (unless required by Nasdaq), and thus may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting of stockholders be held for the purposes of electing directors, in accordance with a company's certificate of incorporation and bylaws, unless such election is made by written consent in lieu of such a meeting. If our stockholders want us to hold an annual meeting prior to our consummation of a business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

We may reincorporate in another jurisdiction in connection with our initial business combination and such reincorporation may result in taxes imposed on stockholders.

We may, in connection with our initial business combination, reincorporate in the jurisdiction in which the target company or business is located or in another jurisdiction. The transaction may require a stockholder to recognize taxable income in the jurisdiction in which the stockholder is a tax resident or in which its members are resident if it is a tax transparent entity. We do not intend to make any cash distributions to stockholders to pay such taxes. Stockholders may be subject to withholding taxes or other taxes with respect to their ownership of us after the reincorporation.

Our ability to successfully effect our initial business combination and to be successful thereafter will be largely dependent upon the efforts of our executive officers, directors and key personnel, some of whom may join us following our initial business combination. The loss of our executive officers, directors, or key personnel could negatively impact the operations and profitability of our business.

Our operations are dependent upon a relatively small group of individuals and, in particular, our executive officers and directors. We believe that our success depends on the continued service of our executive officers and directors, at least until we have consummated our initial business combination. In addition, our executive officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating management time among various business activities, including identifying potential business combinations and monitoring the related due diligence. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or executive officers. The unexpected loss of the services of one or more of our directors or executive officers could have a detrimental effect on us. Additionally, we do not intend to have any full time employees prior to the consummation of our initial business combination.

The role of such key persons in the target business, however, cannot presently be ascertained. Although some of such persons may remain with the target business in senior management or advisory positions following our initial business combination, it is likely that some or all of the management of the target

business will remain in place. While we intend to closely scrutinize any individuals we engage after our initial business combination, our assessment of these individuals may not prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.

Our key personnel may be able to remain with the company after the consummation of our initial business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the consummation of the business combination. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business. However, we believe the ability of such individuals to remain with us after the consummation of our initial business combination will not be the determining factor in our decision as to whether or not we will proceed with any potential business combination. There is no certainty, however, that any of our key personnel will remain with us after the consummation of our initial business combination. Our key personnel may not remain in senior management or advisory positions with us. The determination as to whether any of our key personnel will remain with us will be made at the time of our initial business combination.

We may have a limited ability to assess the management of a prospective target business and, as a result, may effect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business' management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted.

The officers and directors of an acquisition candidate may resign upon consummation of our initial business combination. The loss of an acquisition target's key personnel could negatively impact the operations and profitability of our post-combination business.

The role of an acquisition candidate's key personnel upon the consummation of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that some members of the management team of an acquisition candidate will not wish to remain in place.

None of Cowen, any of its affiliates or our advisors has an obligation to provide us with potential investment opportunities or to devote any specified amount of time or support to our company's business.

Although we expect to benefit from Cowen's and its affiliates' network of relationships and processes for sourcing, executing and evaluating potential acquisition targets, neither Cowen nor any of its affiliates has any legal or contractual obligation to seek on our behalf or to present to us investment opportunities that might be suitable for our business, and may allocate any such opportunities at its discretion to us or other parties. We have no investment management, advisory, consulting or other agreement in place with Cowen or any of its affiliates that obligates them to undertake efforts on our behalf or that govern the manner in which they will allocate investment opportunities. Additionally, while we anticipate that certain of the advisors listed under "Management — Other Advisors" may provide us referrals to potential target businesses, and be available from time to time to consult with us regarding potential business combination

opportunities, none of these advisors are required to commit any specified amount of time to our affairs. Even if Cowen, one of its affiliates or one of our advisors refers an opportunity to us, no assurance can be given that such opportunity will result in an acquisition agreement or our initial business combination.

Certain of our officers and directors are now, and all of them may in the future become, affiliated with entities engaged in business activities similar to those intended to be conducted by us and, accordingly, may have conflicts of interest in allocating their time and determining to which entity a particular business opportunity should be presented.

Following the completion of this offering and until we consummate our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses. Our officers and directors are, or may in the future become, affiliated with entities that are engaged in a similar business.

Our officers also may become aware of business opportunities, which may be appropriate for presentation to us and the other entities to which they owe certain fiduciary duties or contractual obligations. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor or that a potential target business would not be presented to another entity prior to its presentation to us.

We may engage in our initial business combination with one or more target businesses that have relationships with entities that may be affiliated with our founders, executive officers, directors or director nominees, which may raise potential conflicts of interest.

We have not adopted a policy that expressly prohibits our directors, director nominees, executive officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. Additionally, in light of the involvement of our founders, executive officers, directors and director nominees, and each of their affiliates, with other entities, we may decide to acquire one or more businesses affiliated with our founders, executive officers or directors, or any of their affiliates. Our directors also serve as executive officers and board members for other entities. Our founders, executive officers, directors and director nominees are not currently aware of any specific opportunities for us to consummate our initial business combination with any entities with which they are affiliated, and there have been no discussions concerning a business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for our initial business combination as set forth in “Proposed Business — Effecting our initial business combination — Selection of a target business and structuring of our initial business combination” and such transaction was approved by a majority of our disinterested directors. Despite our agreement to obtain an opinion from an independent investment banking firm or an independent account firm regarding the fairness to our stockholders from a financial point of view of a business combination with one or more domestic or international businesses affiliated with our founders, executive officers, directors, or director nominees, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest. Our directors have a fiduciary duty to act in the best interests of our stockholders, whether or not a conflict of interest may exist.

Since each of our founders, executive officers, directors and director nominees will lose any investment in us if our initial business combination is not consummated, and our officers and directors have significant financial interests in us, a conflict of interest may arise in determining whether a particular acquisition target is appropriate for our initial business combination.

In September 2018, our founders purchased an aggregate of 5,750,000 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.004 per share. Certain members of our management team also have a financial interest in our sponsor. In November 2018, our sponsor transferred 15,000 founder shares to each of our independent director nominees. On November 19, 2018, our founders forfeited for no consideration, an aggregate of 1,437,500 founder shares, such that the initial stockholders hold an aggregate of 4,312,500 founder shares (up to 562,500 founder shares are subject to forfeiture, depending on the extent to which the underwriter’s over-allotment option is exercised). The founder shares will be worthless if we do not consummate an initial business combination. In addition, our sponsor and/or its designees has

committed to purchase 416,667 private units (or 449,167 private units if the over-allotment option is exercised in full), for an aggregate purchase price of \$4,166,670 (or \$4,491,670 if the over-allotment option is exercised in full) and Cowen Investments and/or its designees has committed to purchase 83,333 private units (or 95,833 private units if the over-allotment option is exercised in full), for an aggregate purchase price of \$833,330 (or \$958,330 if the over-allotment option is exercised in full). All of the foregoing private units will also be worthless if we do not consummate our initial business combination. The personal and financial interests of our founders, executive officers, directors and director nominees may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination.

We may only be able to complete one business combination with the proceeds of this offering, and the sale of the private units, which will cause us to be solely dependent on a single business, which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability.

The net proceeds from this offering and the sale of the private units will provide us with approximately \$150,000,000 (or approximately \$172,500,000 if the underwriters' over-allotment option is exercised in full) that we may use to complete our initial business combination. We may effectuate our initial business combination with a single target business or multiple target businesses simultaneously. However, we may not be able to effectuate our initial business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By consummating our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory risks. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities, which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset, or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

We may attempt to simultaneously consummate business combinations with multiple prospective targets, which may hinder our ability to consummate our initial business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete the initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to consummate our initial business combination with a private company about which little information is available, which may result in our initial business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our acquisition strategy, we may seek to effectuate our initial business combination with a privately held company. Very little public information typically exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the

basis of limited information, which may result in our initial business combination with a company that is not as profitable as we suspected, if at all.

Our management team and our stockholders may not be able to maintain control of a target business after our initial business combination.

We currently anticipate structuring our initial business combination to acquire 100% of the outstanding equity interests or assets of the target business or businesses. We may, however, structure our initial business combination so that we merge directly with the target business or businesses or acquire less than 100% of their interests or assets in order to meet certain objectives of the target management team or stockholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or targets, or otherwise acquires a controlling interest in the target business or businesses sufficient for the post-transaction company not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us, respectively, in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we could acquire a 100% controlling interest in the target; however, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. In addition, other minority stockholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's stock than we initially acquired. Accordingly, this may make it more likely that we will not be able to maintain our control of the target business.

Unlike many blank check companies, we do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it easier for us to consummate our initial business combination with which a substantial majority of our stockholders do not agree.

Since we have no specified percentage threshold for redemption contained in our amended and restated certificate of incorporation, our structure is different in this respect from the structure that has been used by many blank check companies. Historically, blank check companies would not be able to consummate an initial business combination if the holders of such company's public shares voted against a proposed business combination and elected to redeem more than a specified maximum percentage of the shares sold in such company's initial public offering, which percentage threshold was typically between 19.99% and 39.99%. As a result, many blank check companies were unable to complete a business combination because the amount of shares voted by their public stockholders electing redemption exceeded the maximum redemption threshold pursuant to which such company could proceed with its initial business combination. As a result, we may be able to consummate our initial business combination even though a substantial majority of our public stockholders do not agree with the transaction and have redeemed their shares or, if we seek stockholder approval of our initial business combination and do not conduct redemptions in connection with our initial business combination pursuant to a tender offer, have entered into privately negotiated agreements to sell their shares to us or our founders, executive officers, directors, advisors or their affiliates. However, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon the consummation of our initial business combination. Furthermore, the redemption threshold may be further limited by the terms and conditions of our initial business combination. If too many public stockholders exercise their redemption rights so that we cannot satisfy the net tangible asset requirement or any net worth or cash requirements, we would not proceed with the redemption of our public shares and the related business combination, and instead may search for an alternate business combination, we would not proceed with the redemption of our public shares and the related business combination, and instead may search for an alternate business combination.

Holders of warrants will not participate in liquidating distributions if we are unable to complete an initial business combination within the required time period.

If we are unable to complete an initial business combination within the required time period and we liquidate the funds held in the trust account, the warrants will expire and holders will not receive any of

such proceeds with respect to the warrants. Nevertheless, the foregoing may provide a financial incentive to public stockholders to vote in favor of any proposed initial business combination as each of their warrants would entitle the holder to purchase one share of common stock, resulting in an increase in their overall economic stake in our company. If a business combination is not approved, the warrants will expire and will be worthless.

If we do not maintain a current and effective prospectus relating to the warrant shares issuable upon exercise of the warrants, public holders will only be able to exercise such warrants on a “cashless basis” which would result in a fewer number of shares being issued to the holder had such holder exercised the warrants for cash.

If we do not maintain a current and effective prospectus relating to the warrant shares issuable upon exercise of the public warrants at the time that holders wish to exercise such warrants, they will only be able to exercise them on a “cashless basis” provided that an exemption from registration is available. As a result, the number of warrant shares that a holder will receive upon exercise of its public warrants will be fewer than it would have been had such holder exercised its warrant for cash. Further, if an exemption from registration is not available, holders would not be able to exercise their warrants on a cashless basis and would only be able to exercise their warrants for cash if a current and effective prospectus relating to the issuance of the warrant shares is available. Under the terms of the warrant agreement, we have agreed to use our best efforts to meet these conditions and to maintain a current and effective prospectus relating to the warrant shares until the expiration of the warrants. However, we cannot assure you that we will be able to do so. If we are unable to do so, the potential “upside” of the holder’s investment in our Company may be reduced or the warrants may expire worthless. In no event will we be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under the Securities Act or applicable state securities laws. If the issuance of the warrant shares upon exercise of the warrants is not so registered or qualified or exempt from registration or qualification, the holder of such warrants shall not be entitled to exercise such warrants and such warrants may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the shares of common stock included in the units. Notwithstanding the foregoing, holders of the private warrants may pay cash in connection with the exercise of their warrants for unregistered warrant shares even if the prospectus relating to the warrant shares issuable upon exercise of the warrants is not current and effective.

Our management’s ability to require holders of our warrants to exercise such warrants on a cashless basis will cause holders to receive fewer shares of common stock upon their exercise of the warrants than they would have received had they been able to exercise their warrants for cash.

If we call our public warrants for redemption after the redemption criteria described elsewhere in this prospectus have been satisfied, our management will have the option to require any holder that wishes to exercise his, her or its warrants (including any warrants held by our founders or any of their permitted transferees) to do so on a “cashless basis.” If our management chooses to require holders to exercise their warrants on a cashless basis, the number of warrant shares received by a holder upon exercise will be fewer than it would have been had such holder exercised his warrants for cash. This will have the effect of reducing the potential “upside” of the holder’s investment in our company.

We may amend the terms of the warrants in a manner that may be adverse to holders with the approval by the holders of at least 65% of the then outstanding public warrants.

Our warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement will provide that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 65% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders. Accordingly, we may amend the terms of the warrants in a manner adverse to a holder if holders of at least 65% of the then outstanding public warrants approve of such amendment. Although our ability to amend the terms of the warrants with the consent of at least 65% of the then outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into stock or cash, shorten the exercise period or decrease the number of warrant shares issuable upon exercise of a warrant.

Our warrants may have an adverse effect on the market price of our common stock and make it more difficult to effectuate our initial business combination.

We will be issuing warrants to purchase 15,000,000 shares of our common stock (or up to 17,250,000 shares if the underwriters' over-allotment option is exercised in full), as part of the units offered by this prospectus, and warrants to purchase 500,000 shares of our common stock (or up to 545,000 shares if the underwriters' over-allotment option is exercised in full), as part of a private placement. In each case, the warrants are exercisable at a price of \$11.50 per share of common stock. To the extent we issue shares of common stock to effectuate a business transaction, the potential for the issuance of a substantial number of additional shares of common stock upon exercise of these warrants could make us a less attractive acquisition vehicle to a target business. Any such issuance will increase the number of issued and outstanding shares of common stock and reduce the value of the shares of common stock issued to complete the business transaction. Therefore, our warrants may make it more difficult to effectuate a business combination or increase the cost of acquiring the target business.

The ability of our public stockholders to exercise their redemption rights may not allow us to effectuate the most desirable business combination or optimize our capital structure.

If our initial business combination requires us to use substantially all of our cash to pay the purchase price, because we will not know how many public stockholders may exercise redemption rights, we may either need to reserve part of the trust account for possible payment upon such redemption, or we may need to arrange third party financing to help fund our initial business combination. In the event that the acquisition involves the issuance of our stock as consideration, we may be required to issue a higher percentage of our stock to make up for a shortfall in funds. Raising additional funds to cover any shortfall may involve dilutive equity financing or incurring indebtedness at higher than desirable levels. This may limit our ability to effectuate the most attractive business combination available to us.

We may be unable to consummate an initial business combination if a target business requires that we have a certain amount of cash at closing, in which case public stockholders may have to remain stockholders of our company and wait until our redemption of the public shares to receive a pro rata share of the trust account or attempt to sell their shares in the open market.

A potential target may make it a closing condition to our initial business combination that we have a certain amount of cash in excess of the \$5,000,001 of net tangible assets we are required to have pursuant to our organizational documents available at the time of closing. If the number of our public stockholders electing to exercise their redemption rights has the effect of reducing the amount of money available to us to consummate an initial business combination below such minimum amount required by the target business and we are not able to locate an alternative source of funding, we will not be able to consummate such initial business combination and we may not be able to locate another suitable target within the applicable time period, if at all. In that case, public stockholders may have to remain stockholders of our company and wait the full 21 months (or 24 months, as applicable) from the closing of this offering, in order to be able to receive a portion of the trust account, or attempt to sell their shares in the open market prior to such time, in which case they may receive less than they would have in a liquidation of the trust account.

If we seek stockholder approval of our initial business combination, we intend to offer each public stockholder the option to vote in favor of the proposed business combination and still seek redemption of such stockholders' shares.

In connection with any meeting held to approve an initial business combination, we will offer each public stockholder (but not our founders, officers or directors) the right to have his, her or its shares of common stock redeemed for cash (subject to the limitations described elsewhere in this prospectus) without voting and, if they do vote, regardless of whether such stockholder votes for or against such proposed business combination. We will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and a majority of the outstanding shares of common stock voted are voted in favor of the business combination. This is different than other similarly structured blank check companies where stockholders are offered the right to redeem their shares only when they vote against a proposed business combination. This threshold and the ability to seek redemption while voting in favor of a proposed business combination may make it more likely that we will consummate our initial business combination.

We will require public stockholders who wish to redeem their shares of common stock in connection with a proposed business combination to comply with specific requirements for redemption that may make it more difficult for them to exercise their redemption rights prior to the deadline for exercising their rights.

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the expiration date set forth in the tender offer documents mailed to such holders, or in the event we distribute proxy materials, up to two business days prior to the vote on the proposal to approve the business combination, or to deliver their shares to the transfer agent electronically using The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) System, at the holder’s option. In order to obtain a physical stock certificate, a stockholder’s broker and/or clearing broker, DTC and our transfer agent will need to act to facilitate this request. It is our understanding that stockholders should generally allot at least two weeks to obtain physical certificates from the transfer agent. However, because we do not have any control over this process or over the brokers or DTC, it may take significantly longer than two weeks to obtain a physical stock certificate. While we have been advised that it takes a short time to deliver shares through the DWAC System, this may not be the case. Under our bylaws, we are required to provide at least 10 days advance notice of any stockholder meeting, which would be the minimum amount of time a stockholder would have to determine whether to exercise redemption rights. Accordingly, if it takes longer than we anticipate for stockholders to deliver their shares, stockholders who wish to redeem may be unable to meet the deadline for exercising their redemption rights and thus may be unable to redeem their shares. In the event that a stockholder fails to comply with the various procedures that must be complied with in order to validly tender or redeem public shares, its shares may not be redeemed.

Additionally, despite our compliance with the proxy rules or tender offer rules, as applicable, stockholders may not become aware of the opportunity to redeem their shares.

Stockholders who attempt to redeem their shares may be unable to sell their securities when they wish to in the event that the proposed business combination is not approved.

We will require public stockholders who wish to redeem their shares of common stock in connection with any proposed business combination to comply with the delivery requirements discussed above for redemption. If such proposed business combination is not consummated, we will promptly return such certificates to the tendering public stockholders. Accordingly, investors who attempted to redeem their shares in such a circumstance will be unable to sell their securities after the failed acquisition until we have returned their securities to them. The market price for our common stock may decline during this time and you may not be able to sell your securities when you wish to, even while other stockholders that did not seek redemption may be able to sell their securities.

Because of our structure, other companies may have a competitive advantage and we may not be able to consummate an attractive business combination.

We expect to encounter intense competition from other entities having a business objective similar to ours, including private equity groups, venture capital funds, leveraged buyout funds, operating businesses and other blank check companies competing for acquisitions. Many of these entities are well established and have extensive experience in identifying and effecting business combinations directly or through affiliates. Many of these competitors possess greater technical, human and other resources than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. Therefore, our ability to compete in acquiring certain sizable target businesses may be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, seeking stockholder approval of our initial business combination may delay the consummation of a transaction. Any of the foregoing may place us at a competitive disadvantage in successfully negotiating our initial business combination.

Certain provisions of our amended and restated certificate of incorporation that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account) may be amended with the approval of holders of at least 65% of our issued and outstanding common stock, which is a lower amendment threshold than that of some other blank check companies. It may be easier for us, therefore, to amend our amended and restated certificate of incorporation and the trust agreement to facilitate the completion of an initial business combination that some of our stockholders may not support.

Some other blank check companies have a provision in their charter which prohibits the amendment of certain of its provisions, including those which relate to a company's pre-business combination activity, without approval by holders of a certain percentage of the company's shares. In those companies, amendment of these provisions typically requires approval by holders holding between 90% and 100% of the company's public shares. Our amended and restated certificate of incorporation will provide that amendments to any its provisions relating to our pre-initial business combination activity and related stockholder rights, including the substance and timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within the required time period, may be amended if approved by holders of at least 65% of our outstanding common stock. If an amendment to any such provision is approved by the requisite stockholder vote, then the corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended. In all other instances, our amended and restated certificate of incorporation may be amended by holders of a majority of our common stock, subject to applicable provisions of the DGCL or applicable stock exchange rules. Subsequent to this offering and prior to the consummation of our initial business combination, we may not issue additional securities that can vote as a class with our public shares on amendments to our amended and restated certificate of incorporation. Our founders, executive officers and directors will collectively beneficially own approximately 21.9% of our outstanding common stock upon the closing of this offering (assuming they do not purchase any public units in this offering), and they may participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated certificate of incorporation which govern our pre-business combination behavior more easily than some other blank check companies, and this may increase our ability to complete our initial business combination with which you do not agree. In certain circumstances, our stockholders may pursue remedies against us for any breach of our amended and restated certificate of incorporation.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share or potentially less than \$10.00 per share on our redemption, and the warrants will expire worthless.

Although we believe that the net proceeds of this offering and the sale of the private units and founder shares, including the interest earned on the proceeds held in the trust account that may be available to us for our initial business combination, will be sufficient to consummate our initial business combination, because we have not yet identified any prospective target business we cannot ascertain the capital requirements for any particular transaction. If the net proceeds of this offering and the sale of the private units, including the interest earned on the proceeds held in the trust account that may be available to us for our initial business combination, prove to be insufficient, either because of the size of our initial business combination, the depletion of the available net proceeds in search of a target business, the obligation to repurchase for cash a significant number of shares from stockholders who elect redemption in connection with our initial business combination or the terms of negotiated transactions to purchase shares in connection with our initial business combination, we may be required to seek additional financing or to abandon the proposed business combination. Financing may not be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable when needed to consummate our initial business combination, we would be compelled to either restructure the transaction or abandon that particular initial business combination and seek an alternative target business candidate. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share or potentially less than \$10.00 per share on our redemption, and the warrants will expire worthless. In addition, even if we do not need additional financing to consummate our initial business combination, we may require such financing

to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or stockholders is required to provide any financing to us in connection with or after our initial business combination.

Our founders, executive officers, directors and director nominees will have a substantial interest in us and thus may influence certain actions requiring a stockholder vote.

Upon consummation of our offering, our founders, executive officers, directors and director nominees will own approximately 21.9% of the issued and outstanding shares of our common stock (assuming they do not purchase any public units in this offering). None of our founders, executive officers, directors, director nominees or any of their affiliates has indicated any intention to purchase public units in this offering or any public units or shares of common stock from persons in the open market or in private transactions. However, our founders, executive officers, directors or any of their affiliates could determine in the future to make such purchases in the open market or in private transactions, to the extent permitted by law, in order to influence the vote or magnitude of the number of stockholders seeking to tender their shares to us. In connection with any vote for a proposed business combination our founders, as well as all of our executive officers and directors, have agreed to vote the shares of common stock owned by them immediately before this offering, the shares of common stock underlying the private units, as well as any shares of common stock acquired in this offering or in the aftermarket in favor of such proposed business combination.

In addition, our Board of Directors will be divided into two classes, each of which will generally serve for a term of two years with only one class of directors being elected in each year. We may not hold an annual meeting of stockholders to elect new directors prior to the completion of our business combination, in which case all of the current directors will continue in office until at least the completion of our initial business combination. If there is an annual meeting, as a consequence of our “staggered” Board of Directors, only a portion of the Board of Directors will be considered for election and our initial stockholders, because of their ownership position, will have considerable influence regarding the outcome. Accordingly, our initial stockholders will continue to exert control at least until the completion of our business combination.

Our founders paid an aggregate of \$25,000, or approximately \$0.004 per founder share; accordingly, you will experience immediate and substantial dilution from the purchase of our public shares.

The difference between the public offering price per share (allocating all of the unit purchase price to the public shares and none to the warrants included in the public units) and the pro forma net tangible book value per share of common stock after this offering constitutes the dilution to you and the other investors in this offering. Our founders acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon closing of this offering, you and the other public stockholders will incur an immediate and substantial dilution of approximately 89.2% or \$8.92 per share of common stock (the difference between the pro forma net tangible book value per share of \$1.08 and the initial offering price of \$10.00 per share of common stock).

The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry.

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with representatives of the underwriters, both prior to our inception and thereafter, with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the shares of common stock and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;

- prior offerings of those companies;
- our prospects for acquiring an operating business at attractive values;
- a review of debt to equity ratios in leveraged transactions;
- our capital structure;
- an assessment of our management and their experience in identifying operating companies;
- general conditions of the securities markets at the time of this offering; and
- other factors as were deemed relevant.

Although these factors were considered, the determination of our offering price is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

There is currently no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

Although we have applied to list our securities on Nasdaq, as of the date of this prospectus there is currently no market for our securities. Prospective stockholders therefore have no access to information about prior market history on which to base their investment decision. Following this offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Once listed on Nasdaq, an active trading market for our securities may never develop or, if developed, it may not be sustained. Additionally, if our securities become delisted from Nasdaq for any reason, and are quoted on the OTC Pink Sheets, an inter-dealer automated quotation system for equity securities not listed on a national exchange, the liquidity and price of our securities may be more limited than if we were listed on Nasdaq or another national exchange. You may be unable to sell your securities unless a market can be established and sustained.

Nasdaq may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

We intend to apply to have our units listed on Nasdaq on or promptly after the date of this prospectus and our common stock and warrants listed on or promptly after their date of separation. Although after giving effect to this offering we expect to meet the minimum initial listing requirements set forth in the rules of Nasdaq, we cannot assure you that our securities will be, or will continue to be, listed on Nasdaq in the future. In order to continue listing our securities on Nasdaq prior to our initial business combination, we must maintain certain financial, distribution and stock price levels. Generally, we must maintain a minimum number of holders of our securities. Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with Nasdaq's initial listing requirements, which are more rigorous than Nasdaq's continued listing requirements, in order to continue to maintain the listing of our securities on Nasdaq. For instance, our stock price would generally be required to be at least \$4 per share. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If Nasdaq delists any of our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect such securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our common stock is a "penny stock" which will require brokers trading in our common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as “covered securities.” Because we expect that our units and eventually our common stock and warrants will be listed on Nasdaq, our units, common stock and warrants will qualify as covered securities under such statute. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the state of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on Nasdaq, our securities would not qualify as covered securities under such statute and we would be subject to regulation in each state in which we offer our securities.

Certain agreements related to this offering may be amended without stockholder approval.

Certain agreements, including the underwriting agreement relating to this offering, the trust agreement between us and Continental Stock Transfer & Trust Company, the letter agreements among us and our founders, executive officers, directors and director nominees, and the registration rights agreement among us and our founders, executive officers, directors and director nominees, may be amended without stockholder approval. These agreements contain various provisions that our public stockholders might deem to be material. For example, the underwriting agreement related to this offering contains a covenant that the target company that we acquire must have a fair market value equal to at least 80% of the balance in the trust account at the time of signing the definitive agreement for the transaction with such target business (excluding any taxes payable on interest earned) so long as we obtain and maintain a listing for our securities on Nasdaq. While we do not expect our board to approve any amendment to any of these agreements prior to our initial business combination, it may be possible that our board, in exercising its business judgment and subject to its fiduciary duties, chooses to approve one or more amendments to any such agreement in connection with the consummation of our initial business combination. Any such amendment may have an adverse effect on the value of an investment in our securities.

Because we must furnish our stockholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The United States federal proxy rules require that a proxy statement with respect to a vote on a business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or GAAP, or International Financial Reporting Standard as issued by the International Accounting Standards Board, or IFRS, and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and consummate our initial business combination within our 21 month (or 24 month, as applicable) time frame.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate our initial business combination, require substantial financial and management resources, and increase the time and costs of completing a business combination.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2019. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required

to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target company with which we seek to complete our business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such business combination.

We are an “emerging growth company” and we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies will make our securities less attractive to investors.

We are an “emerging growth company” within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. As a result, our stockholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our common stock held by non-affiliates exceeds \$700 million as of the end of any second quarter of a fiscal year before that time, in which case we would no longer be an emerging growth company as of the end of such fiscal year. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accountant standards used.

We may face risks related to businesses in the aerospace and defense, industrial, and technology and telecommunications industries.

Business combinations with businesses in the aerospace and defense, industrial, and technology and telecommunications industries entail special considerations and risks. If we are successful in completing a business combination with such a target business, we may be subject to, and possibly adversely affected by, the following risks:

- an inability to compete effectively in a highly competitive environment with many incumbents having substantially greater resources;
- an inability to manage rapid change, increasing consumer expectations and growth;
- an inability to build strong brand identity and improve customer satisfaction and loyalty;
- a reliance on proprietary technology to provide services and to manage our operations, and the failure of this technology to operate effectively, or our failure to use such technology effectively;

- an inability to deal with our customers' privacy concerns;
- an inability to attract and retain customers;
- an inability to license or enforce intellectual property rights on which our business may depend;
- any significant disruption in our computer systems or those of third parties that we would utilize in our operations;
- an inability by us, or a refusal by third parties, to license content to us upon acceptable terms;
- potential liability for negligence, copyright, or trademark infringement or other claims based on the nature and content of materials that we may distribute;
- competition for the discretionary spending of customers, which may intensify in part due to advances in technology and changes in consumer expectations and behavior;
- disruption or failure of our networks, systems or technology as a result of computer viruses, "cyber-attacks," misappropriation of data or other malfeasance, as well as outages, natural disasters, terrorist attacks, accidental releases of information or similar events;
- an inability to obtain necessary hardware, software and operational support;
- reliance on third-party vendors or service providers;
- our business may be subject to extensive government regulations which may be difficult and expensive to comply with, including extensive procurement regulations applicable to sales to the U.S Government, and changes to those regulations could increase our costs;
- if we contract with the U.S. Government, the U.S. Government may modify, curtail or terminate one or more of our contracts; and
- U.S. Government agencies, including the Defense Contract Audit Agency, the Defense Contract Management Agency and various agency Inspectors General, routinely audit and investigate government contractors.

Any of the foregoing could have an adverse impact on our operations following a business combination. However, our efforts in identifying prospective target businesses will not be limited to the aerospace and defense, industrial, and technology and telecommunications industries. Accordingly, if we acquire a target business in another industry, these risks we will be subject to risks attendant with the specific industry in which we operate or target business which we acquire, which may or may not be different than those risks listed above.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this prospectus, which reflect our current views with respect to future events and financial performance, and any other statements of a future or forward-looking nature, constitute “forward-looking statements” for the purpose of the federal securities laws. Our forward-looking statements include, but are not limited to, statements regarding our or our management’s expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intends,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this prospectus may include, for example, statements about:

- our ability to complete our initial business combination;
- our expectations around the performance of a prospective target business or businesses;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses, including their industry and geographic location;
- the ability of our officers and directors to generate a number of potential business combination opportunities;
- the trust account not being subject to claims of third parties;
- failure to list or delisting of our securities from Nasdaq or an inability to have our securities listed on Nasdaq following a business combination;
- our public securities’ potential liquidity and trading;
- the lack of a market for our securities; or
- our financial performance following this offering.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. Future developments affecting us may not be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading “*Risk Factors*”. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

USE OF PROCEEDS

We are offering 15,000,000 units at an offering price of \$10.00 per unit. We estimate that the net proceeds of this offering together with the funds we will receive from the sale of the private units will be used as set forth in the following table.

	Without Over-Allotment Option	Over-Allotment Option Exercised
<i>Gross proceeds</i>		
Offering ⁽¹⁾	\$ 150,000,000	\$ 172,500,000
Private Placement	5,000,000	5,450,000
Total gross proceeds	155,000,000	177,950,000
<i>Offering expenses⁽²⁾</i>		
Underwriting discount	3,000,000	3,450,000
Legal fees and expenses	300,000	300,000
Nasdaq listing fees	75,000	75,000
Printing and engraving expenses	40,000	40,000
Accounting fees and expenses	40,000	40,000
FINRA filing fee	35,000	35,000
D&O insurance	125,000	125,000
SEC registration fee	20,907	20,907
Miscellaneous expenses	64,093	64,093
Total offering expenses	3,700,000	4,150,000
<i>Net proceeds</i>		
Held in the trust account ⁽²⁾	150,000,000	172,500,000
Not held in the trust account	1,300,000	1,300,000
Total net proceeds	\$ 151,300,000	\$ 173,800,000
<i>Use of net proceeds not held in the trust account⁽³⁾</i>		
Legal, accounting and other third party expenses attendant to the search for target businesses and to the structuring of our initial business combination	\$ 350,000	350,000
Due diligence of target by founders, officers, directors	350,000	350,000
Legal and accounting fees relating to SEC reporting obligations	150,000	150,000
Administrative fee (\$10,000 per month for 21 months)	210,000	210,000
Nasdaq continued listing fees	75,000	75,000
Working capital to cover miscellaneous expenses, general corporate purposes, liquidation obligations and reserves	165,000	165,000
Total	\$ 1,300,000	1,300,000

- (1) Includes amounts payable to public stockholders who properly redeem their shares in connection with the successful completion of our initial business combination.
- (2) In addition, a portion of the offering expenses have been paid from the proceeds of a loan from our sponsor of up to \$300,000 as described in this prospectus. As of December 31, 2018, \$150,000 was outstanding under this loan arrangement. This loan will be repaid upon completion of this offering out of the \$700,000 of offering proceeds that has been allocated for the payment of offering expenses other than underwriting discounts, or will be cancelled in exchange for a portion of the purchase price payable by our sponsor for its private units.
- (3) These expenses are estimates only. Our actual expenditures for some or all of these items may differ from the estimates set forth in this prospectus. For example, we may incur greater legal and accounting

expenses than our current estimates in connection with negotiating and structuring a business combination based upon the level of complexity of such business combination. In the event we identify an acquisition target in a specific industry subject to specific regulations, we may incur additional expenses associated with legal due diligence and the engagement of special legal counsel. In addition, our staffing needs may vary and as a result, we may engage a number of consultants to assist with legal and financial due diligence. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would not be available for our expenses. The amount in the table above does not include interest available to us from the trust account.

Nasdaq rules provide that at least 90% of the gross proceeds from this offering and the sale of the private units be deposited in a trust account. Of the gross proceeds of this offering and the sale of the private units, a total of \$150,000,000 (or \$172,500,000 if the underwriters' over-allotment option is exercised in full), will be placed in a trust account in the United States in New York, New York, maintained by Continental Stock Transfer & Trust Company acting as trustee, and will be invested only in U.S. government treasury bills, notes and bonds with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act and which invest solely in U.S. Treasuries. Except for all interest income that may be released to us to pay taxes, none of the funds held in the trust account will be released from the trust account until the earlier of: (1) the completion of our initial business combination within the required time period; (2) our redemption of 100% of the outstanding public shares if we have not completed an initial business combination in the required time period; and (3) our redemption of our public shares in connection with the approval of any amendment to the provisions of our amended and restated certificate of incorporation our pre-initial business combination activity and related stockholders' rights, including the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within the required time period.

The net proceeds held in the trust account may be used as consideration to pay the sellers of a target business with which we ultimately complete our initial business combination. If our initial business combination is paid for using shares or debt securities, or not all of the funds released from the trust account are used for payment of the purchase price in connection with our business combination or used for redemption of our public shares, we may apply the balance of the cash released from the trust account for general corporate purposes, including for maintenance or expansion of operations of acquired businesses, the payment of principal or interest due on indebtedness incurred in consummating the initial business combination, to fund the purchase of other companies or for working capital.

We believe that amounts not held in trust will be sufficient to pay the costs and expenses to which such proceeds are allocated. This belief is based on the fact that while we may begin preliminary due diligence of a target business in connection with an indication of interest, we intend to undertake in-depth due diligence, depending on the circumstances of the relevant prospective acquisition, only after we have negotiated and signed a letter of intent or other preliminary agreement that addresses the terms of our initial business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating our initial business combination is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. In this event, we could seek such additional capital through loans or additional investments from members of our sponsor or an affiliate of our sponsor or our officers and directors, but such members of our management team are not under any obligation to advance funds to, or invest in, us.

Commencing on the date that our securities are first listed on Nasdaq, we have agreed to pay an affiliate of our sponsor a total of \$10,000 per month for office space and general and administrative services. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or our officers and directors may, but are not obligated to, loan us funds as may be required. If we consummate our initial business combination, we

would repay such loaned amounts. In the event that the initial business combination does not close, we may use a portion of the offering proceeds held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into additional units of the post-business combination entity at a price of \$10.00 per unit at the option of the lender. The units would be identical to the private units. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans.

In no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon the consummation of our initial business combination. Furthermore, the redemption threshold may be further limited by the terms and conditions of our initial business combination. If too many public stockholders exercise their redemption rights so that we cannot satisfy the net tangible asset requirement or any net worth or cash requirements, we would not proceed with the redemption of our public shares or the business combination, and instead may search for an alternate business combination.

A public stockholder will be entitled to receive funds from the trust account only upon the earlier to occur of: (i) our consummation of our initial business combination, and then only in connection with those shares of common stock that such stockholder properly elected to redeem, subject to the limitations described herein, (ii) the redemption of our public shares if we are unable to consummate our initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering, or, if our charter documents are amended to so provide, (iii) the redemption of our public shares in connection with a stockholder vote to amend and restated certificate of incorporation (A) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-business combination activity, subject to applicable law. In no other circumstances will a public stockholder have any right or interest of any kind to or in the trust account.

Our founders, directors, director nominees and executive officers have entered into a letter agreement with us, pursuant to which they have agreed to (1) waive their redemption rights with respect to any common stock held by them in connection with the completion of our initial business combination or any amendment to the provisions of our amended and restated certificate of incorporation relating to our pre-initial business combination activity and related stockholders' rights and (2) waive their rights to liquidating distributions from the trust account with respect to their founder shares and private shares if we fail to complete our initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering. However, if our founders, executive officers, directors, or director nominees acquire public shares after this offering they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the prescribed time frame.

DIVIDEND POLICY

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our Board of Directors at such time. In addition, our Board of Directors is not currently contemplating and does not anticipate declaring any stock dividends in the foreseeable future. Further, if we incur any indebtedness in connection with our initial business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

DILUTION

The difference between the public offering price per share, assuming no value is attributed to the public warrants or the private warrants, and the pro forma net tangible book value per share after this offering constitutes the dilution to investors in this offering. Such calculation does not reflect any dilution associated with sale and exercise of warrants, including the private warrants, which would cause the actual dilution to the public stockholders to be higher, particularly where a cashless exercise is utilized. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of shares of common stock which may be redeemed for cash), by the number of issued and outstanding shares of common stock.

At December 31, 2018, our net tangible book value deficit was \$(351,858), or approximately \$(0.08) per share. After giving effect to the sale of 15,000,000 shares of common stock included in the units we are offering by this prospectus (assuming the over-allotment option has not been exercised), and the deduction of underwriting discounts and estimated expenses of this offering, and the sale of the private units, our pro forma net tangible book value at December 31, 2018 would have been \$5,000,009, or approximately \$1.08 per share, representing an immediate increase in net tangible book value of approximately \$1.16 per share to the founders and an immediate dilution of \$10.00 per share, or 100%, to new investors not exercising their redemption rights. Total dilution to public stockholders from this offering will be \$8.92 per share. For purposes of presentation, our pro forma net tangible book value after this offering is \$146,324,540 less than it otherwise would have been because if we effect our initial business combination, the redemption rights of the public stockholders (but not our founders) may result in the redemption of up to 14,632,454 shares sold in this offering (assuming the over-allotment option has not been exercised).

The following table illustrates the dilution to our public stockholders on a per-share basis, assuming no value is attributed to the warrants included in the public units and the private units.

Public offering price		\$ 10.00
Net tangible book value before this offering	\$(0.08)	
Net increase attributable to public stockholders and private sales	1.16	
Pro forma net tangible book value after this offering and the sale of the private units		1.08
Dilution to public stockholders		\$ 8.92
Percentage of dilution to new investors		89.2%

The following table sets forth information with respect to our initial stockholders and the new investors assuming the over-allotment option has not been exercised:

	Shares Purchased		Total Consideration		Average Price per Share
	Number	Percentage	Amount	Percentage	
Founders (with respect to founder shares)	3,750,000	19.5%	\$ 25,000	0.0%	\$ 0.007
Founders (with respect to private shares)	500,000	2.6%	5,000,000	3.2%	\$ 10.00
Public stockholders	15,000,000	77.9%	150,000,000	96.8%	\$ 10.00
Total	<u>19,250,000</u>	<u>100.0%</u>	<u>\$155,025,000</u>	<u>100.00%</u>	

The pro forma net tangible book value per share after the offering is calculated as follows:

Numerator:	
Net tangible book value before the offering	\$ (351,858)
Addback offering costs incurred	376,407
Subtotal	24,549
Proceeds from this offering and private placements of private units, net of expenses	151,300,000
Less: Shares subject to redemption to maintain net tangible assets of \$5,000,001	(146,324,540)
	<u>\$ 5,000,009</u>
Denominator:	
Shares of common stock outstanding prior to this offering	4,312,500
Less: Shares forfeited if over-allotment option is not exercised	(562,500)
Shares of common stock to be sold as part of the public units	15,000,000
Shares of common stock to be sold as part of the private units	500,000
Less: Shares subject to redemption to maintain net tangible assets of \$5,000,001	(14,632,454)
	<u>4,617,546</u>

CAPITALIZATION

The following table sets forth our capitalization at December 31, 2018, and as adjusted to give effect to the sale of our units offered by this prospectus and the private units, and the application of the estimated net proceeds derived from the sale of such securities:

	December 31, 2018	
	Actual	As Adjusted ⁽¹⁾
Promissory note – related party ⁽²⁾	\$ 150,000	\$ —
Shares of common stock, par value \$0.0001 per share, subject to redemption ⁽³⁾	\$ —	\$ 146,324,540
Stockholders' equity:		
Preferred shares, par value \$0.0001, 5,000,000 authorized; none issued or outstanding	—	—
Shares of common stock, par value \$0.0001 per share, 200,000,000 shares authorized, actual and as adjusted; 4,312,500 shares issued and outstanding, actual; 4,617,546 issued and outstanding (excluding 14,632,454 shares subject to possible redemption), as adjusted	431	462
Additional paid-in capital ⁽⁴⁾	24,569	4,999,998
Accumulated deficit	(451)	(451)
Total stockholders' equity:	\$ 24,549	\$ 5,000,009
Total capitalization	<u>\$ 174,549</u>	<u>\$ 151,324,549</u>

- (1) Includes \$5,000,000 we will receive from the sale of the private units. Assumes the over-allotment option has not been exercised.
- (2) Our sponsor has agreed to loan us up to \$300,000 under an unsecured promissory note to be used for a portion of the expenses of this offering. As of December 31, 2018, \$150,000 was outstanding under such promissory note. These loans are non-interest bearing, unsecured and are due at the earlier of March 31, 2019 and the closing of this offering.
- (3) Upon the completion of our initial business combination, we will provide our public stockholders with the opportunity to redeem their public shares for cash equal to their pro rata portion of the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination, including interest (which interest shall be net of taxes payable), subject to the limitations described herein whereby our net tangible assets will be maintained at a minimum of \$5,000,001 and any limitations (including, but not limited to, cash requirements) created by the terms of the proposed business combination. The "as adjusted" number of share of common stock, subject to redemption equals the "as adjusted" total assets of \$151,324,549, less the "as adjusted" total stockholders' equity. The value of the shares of common stock that may be redeemed is equal to \$10.00 per share (which is the assumed redemption price), multiplied by 14,632,454 shares of common stock, which is the maximum number of shares of common stock that may be redeemed for a \$10.00 purchase price per share and still maintain at least \$5,000,001 of net tangible assets.
- (4) The "as adjusted" additional paid-in capital calculation is equal to the "as adjusted" total stockholders' equity of \$5,000,009, minus shares of common stock (par value) of \$462, plus the accumulated deficit of \$451.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a blank check company newly formed for the purpose of effecting a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our "initial business combination." We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive business discussions, directly or indirectly, with any business combination target. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the sale of the private units, our common equity or any preferred equity that we may create in accordance with the terms of our charter documents, debt, or a combination of cash, common or preferred equity and debt.

The issuance of additional shares of common stock or the creation of one or more classes of preferred stock during our initial business combination:

- may significantly dilute the equity interest of investors in this offering who would not have pre-emption rights in respect of any such issue;
- may subordinate the rights of holders of common stock if the rights, preferences, designations and limitations attaching to the preferred shares are senior to those afforded our shares of common stock and/or our other securities;
- could cause a change in control if a substantial number of shares of common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the share ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our shares of common stock.

Similarly, if we issue debt securities or otherwise incur significant indebtedness, it could result in:

- default and foreclosure on our assets if our operating revenues after our initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if any document governing such debt contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our shares of common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;

- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

As indicated in the accompanying financial statements, at December 31, 2018 we had \$41,093 in cash, a working capital deficit of \$(351,858), and deferred offering costs of \$376,407. Further, we expect to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful.

Results of Operations and Known Trends or Future Events

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents after this offering. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses. We expect our expenses to increase substantially after the closing of this offering.

Liquidity and Capital Resources

Our liquidity needs have been satisfied to date through receipt of \$25,000 from the sale of the founder shares and borrowings from our sponsor. Our sponsor has agreed to loan us up to \$300,000 under an unsecured promissory note to be used for a portion of the expenses of this offering. As of December 31, 2018, \$150,000 was outstanding under such promissory note. These loans are non-interest bearing, unsecured and are due at the earlier of March 31, 2019 and the closing of this offering. We estimate that the net proceeds from (1) the sale of the units in this offering, after deducting offering expenses of approximately \$700,000, and underwriting discounts and commissions of \$3,000,000 (or \$3,450,000 if the over-allotment option is exercised in full) and (2) the sale of the private units for a purchase price of \$5,000,000 (or \$5,450,000 if the over-allotment option is exercised in full), will be \$151,300,000 (or \$173,800,000 if the over-allotment option is exercised in full), of which amount \$150,000,000 (or \$172,500,000 if the over-allotment option is exercised in full) will be held in the trust account. The remaining estimated \$1,300,000 will not be held in the trust account. In the event that our offering expenses exceed our estimate of \$700,000 we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$700,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (which interest shall be net of taxes payable by us), to acquire a target business or businesses and to pay our expenses relating thereto. We may withdraw interest to pay taxes. We estimate our annual franchise tax obligations, based on the number of shares of our common stock authorized and outstanding after the completion of this offering, to be \$200,000. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account. We expect the interest earned on the amount in the trust account will be sufficient to pay our taxes. To the extent that our capital stock is used in whole or in part as consideration to effect our initial business combination, the remaining proceeds held in the trust account as well as any other net proceeds not expended will be used as working capital to finance the operations of the target business or businesses. Such working capital funds could be used in a variety of ways including continuing or expanding the target business' operations, for strategic acquisitions and for marketing, research and development of existing or new products. Such funds could also be used to repay any operating expenses or finders' fees which we had incurred prior to the completion of our initial business combination if the funds available to us outside of the trust account were insufficient to cover such expenses.

We believe that, upon consummation of this offering, the estimated \$1,300,000 of net proceeds not held in the trust account will be sufficient to allow us to operate for at least the next 21, or 24 months, as applicable, assuming that a business combination is not consummated during that time. Over this time period, we will be using these funds for identifying and evaluating prospective acquisition candidates, performing business due diligence on prospective target businesses, traveling to and from the offices, plants or similar locations of prospective target businesses, reviewing corporate documents and material agreements of prospective target businesses, selecting the target business to acquire and structuring, negotiating and consummating the business combination. We anticipate that we will incur approximately:

- \$350,000 of expenses for the search for target businesses and for the legal, accounting and other third-party expenses attendant to the structuring and negotiating of our initial business combination;
- \$350,000 of expenses for the due diligence investigation of the target by our founders, officers and directors;
- \$150,000 of expenses for legal and accounting fees related to SEC reporting obligations;
- \$210,000 of expenses (equal to \$10,000 per month) for administrative fees payable to an affiliate of our sponsor;
- \$75,000 of Nasdaq continued listing fees; and
- \$165,000 for general working capital that will be used for miscellaneous expenses, liquidation obligations and reserves.

If our estimates of the costs of undertaking in-depth due diligence and negotiating our initial business combination is less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. Moreover, we may need to obtain additional financing either to consummate our initial business combination or because we become obligated to redeem a significant number of our public shares upon consummation of our initial business combination, in which case we may issue additional securities or incur debt in connection with such business combination. Subject to compliance with applicable securities laws, we would only consummate such financing simultaneously with the consummation of our initial business combination. Following our initial business combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

As of December 31, 2018 we had \$41,093 in cash and a working capital deficit of \$(351,858). We expect to continue to incur significant costs in pursuit of our acquisition plans. Our plans to raise capital and to consummate our initial business combination may not be successful.

Controls and Procedures

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act for the fiscal year ending December 31, 2019. As of the date of this prospectus, we have not completed an assessment of internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and, if necessary, to implement and test additional controls as we may determine are necessary in order to state that we maintain an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Many small and mid-sized target businesses we may consider for our initial business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
- reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
- evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and

- documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expense in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing, or remediating internal and disclosure controls. Doing so effectively also may take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Related Party Transactions

In September 2018, our founders purchased an aggregate of 5,750,000 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.004 per share. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20% of the outstanding shares upon completion of this offering (excluding the private shares). Prior to the initial investment of \$25,000 by our founders, the Company had no assets, tangible or intangible. The purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the number of founder shares issued. In November 2018, our sponsor transferred to our independent directors an aggregate of 45,000 founder shares. On November 19, 2018, our founders forfeited for no consideration, an aggregate of 1,437,500 founder shares. Up to 562,500 founder shares will be subject to forfeiture, depending on the extent to which the underwriter's over-allotment option is exercised.

We are obligated, commencing on the date of this prospectus, to pay an affiliate of our sponsor a monthly fee of an aggregate of \$10,000 for office space and general and administrative services. Additionally, we have issued to our sponsor a promissory note in the principal amount of up to \$300,000, dated as of September 26, 2018. The note contains a drawdown feature such that at any time prior to the consummation of this offering we may draw up to an aggregate of \$300,000 for general working capital expenses. The note is non-interest bearing and will mature on such date as is the earlier of the date on which we close this offering and March 31, 2019. As of December 31, 2018, \$150,000 was outstanding under such promissory note.

Our sponsor, officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or any of their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business. However, in order to finance transaction costs in connection with an intended initial business combination, our founders, officers, directors or their affiliates may, but are not obligated to, loan us funds as may be required. In the event that the initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts, but no proceeds from our trust account would be used for such repayment. Such loans would be evidenced by promissory notes. Up to \$1,500,000 of such loans may be convertible into additional units of the post-business combination entity at a price of \$10.00 per unit at the option of the lender. The units would be identical to the private units. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans.

Our founders have committed, pursuant to a written agreement, to purchase an aggregate of 500,000 private units (or 545,000 private units if the over-allotment option is exercised in full), at \$10.00 per unit in a private placement that will close simultaneously with this offering. Among the private units, 416,667 units (or 449,167 units if the over-allotment option is exercised in full) will be purchased by our sponsor and/or its designees and 83,333 units (or 95,833 units if the over-allotment option is exercised in full) will be purchased by Cowen Investments and/or its designees. These purchases will take place on a private placement basis simultaneously with the consummation of this offering and the over-allotment option, as applicable. Of the gross proceeds of this offering and the sale of the private units, a total of \$150,000,000 (or \$172,500,000 if the underwriters' over-allotment option is exercised in full) will be placed in the trust account as described above.

Pursuant to a registration rights agreement we will enter into with each of our founders, executive officers, directors and director nominees on or prior to the closing of this offering, we may be required to register certain securities for sale under the Securities Act. These holders, and the holders of warrants issued upon conversion of working capital loans, if any, are entitled under the registration rights agreement to make up to three demands that we register certain of our securities held by them under the Securities Act and to have the securities covered thereby registered for resale pursuant to Rule 415 under the Securities Act. In addition, the holders have certain “piggyback” registration rights applicable to registration statements filed after our consummation of an initial business combination. Notwithstanding the foregoing, Cowen Investments may not exercise its demand or “piggyback” registration rights after five and seven years, respectively, after the effective date of the registration statement of which this prospectus forms a part and may not exercise its demand rights on more than one occasion. However, the registration rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until the securities covered thereby are released from their lockup restrictions, as described herein. We will bear the costs and expenses of filing any such registration statements. Please see “*Certain Relationships and Related Party Transactions*” for additional information.

Quantitative and Qualitative Disclosures about Market Risk

The amounts in the trust account, will be invested in United States government treasury bills, bonds or notes having a maturity of 180 days or less, or in money market funds meeting the applicable conditions under Rule 2a-7 promulgated under the Investment Company Act of 1940 and that invest solely in U.S. treasuries. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results

As of the date of this prospectus, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus as we have conducted no operations to date.

JOBS Act

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an “emerging growth company” and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company”, we choose to rely on such exemptions we may not be required to, among other things, (i) provide an independent registered public accounting firm’s attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (auditor discussion and analysis), and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of this offering or until we are no longer an “emerging growth company,” whichever is earlier.

PROPOSED BUSINESS

General

We are a Delaware corporation formed for the purpose of effecting a merger, share exchange, asset acquisition, stock purchase, reorganization, recapitalization or other similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not identified any potential initial business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any potential initial business combination target.

We will seek to capitalize on the significant experience and contacts of our management team to complete our initial business combination. Although we may pursue our initial business combination in any business, industry or geographic location, we currently intend to focus on opportunities to capitalize on the abilities of our management team, particularly our executive officers, to identify, acquire and operate a business in the aerospace and defense, industrial, or technology and telecommunications industries, which we believe have many potential target businesses. Following our initial business combination, our objective will be to implement or support the acquired business' growth and operating strategies. We intend to target businesses with growth potential in excess of forecasted market rates at a reasonable price as a platform for further consolidation opportunities and asset build-ups as well as those that are at an inflection point in the evolution of their business models. Our management team intends to focus on that that are prudently implementing advanced information technology and data analytics capabilities in their operations so as to drive growth, realize cost advantages, enhance predictive modelling and result in better corporate decision making.

We believe there are secular trends that will continue to drive opportunities for companies operating in the industrial, technology and telecommunications sectors. We also believe that industrial automation, additive manufacturing, mobility, and transformational demographic dynamics will lead to structural changes, productivity improvements, and growth across a multitude of industries, including our target markets and our target industries. Given our extensive background, experience and network of relationships in the A&D sectors we are confident in our ability to find an attractive target within A&D or adjoining sectors such as satellite communications and infrastructure. We believe that the complexities of today's geopolitical environment are growing, and will lead to increasing opportunities. We further believe that the aerospace and defense industry will continue to benefit from sector tailwinds, including the increase in U.S. and global defense spending, demand driven by continued air traffic growth, record production rates and backlog levels of narrow-body commercial aircraft programs and the proliferation of technology within industrial processes. These criteria are not intended to be exhaustive, and we may pursue business combinations based on other considerations, factors and criteria that our management team may deem relevant.

In August 2018, President Trump signed into law the John S. McCain National Defense Authorization Act, approving \$717 billion for the FY2019 national defense budget, including a base budget for the Pentagon and other national defense agencies of \$639 billion, an additional \$69 billion for overseas contingency operations, and approximately \$9 billion for mandatory defense spending. The U.S. government's defense and national security spending, incorporating multiple federal agencies and departments, is driven by a complex range of persistent and evolving threats to the U.S. homeland and to U.S. interests overseas. Over the last decade, the U.S. government has realigned the strategic priorities of the U.S. national security community, its capabilities and posture to in an effort to achieve a sustainable balance between the ability to face down conventional threats from opposing states, the ability to combat non-state actors and asymmetric threats, and the ability to defeat threats from new technologies. The 2018 National Defense Strategy of the United States of America states: "To address the scope and pace of our competitors' and adversaries' ambitions and capabilities, we must invest in modernization of key capabilities through sustained, predictable budgets. Our backlog of deferred readiness, procurement, and modernization requirements has grown in the last decade and a half and can no longer be ignored." We expect to see continued robust funding levels as the U.S. seeks to restore warfighter readiness and improve lethal force to combat growing inter-state strategic competition.

The aerospace sector has experienced significant growth in the past decade, partly driven by a substantial increase in commercial aircraft deliveries and backlog levels for major OEMs. Additionally, the aerospace sector has benefited from considerable growth in passenger demand, demonstrated by the increase in global RPKs, a measure which has grown 54.6% from 2010 to 2017, representing a compound annual growth rate of 6.4%. The growth in RPKs has resulted in increased demand for additional capacity. Current commercial aircraft backlogs for Airbus and Boeing are at decade-high levels. They have a combined 13,309 aircraft in current backlog, which provides significant visibility into approximately eight years of aircraft production. Boeing and Airbus have announced initiatives to increase the production rates of their largest narrow-body programs, the Boeing 737 and the Airbus A320. Deliveries of next-generation engines including General Electric's LEAP engine and Pratt and Whitney's GTF engine are benefiting from the strong aerospace cycle as the two engine types are rolled out on the largest OEM programs. GE delivered 459 LEAP engines in 2017 and is expected to deliver between 1,100 and 1,200 engines in 2018, an increase of over 130%. Pratt and Whitney has received approximately 2,000 orders for the GTF engine in the last twelve months and expects more than 10,000 GTF engines to be in service by 2025. Increased production rates, continued RPK growth and technological advancements alongside strong replacement demand will likely have beneficial effects across the aerospace supply chain, including avionics and communications, interiors, componentry, structures and composites; logistics; and aftermarket parts and services. Boeing has forecast that the aerospace sector will deliver 42,000 commercial aircraft with a market value of \$6.3 trillion over the next 20 years.

Our objective is to consummate our initial business combination with such a business and enhance stockholder value by helping it to identify and recruit management, identify and complete additional acquisitions, implement operational improvements, and expand its product offerings and geographic footprint. We intend to utilize our management team's experience and contacts in our target industries to achieve this objective. We believe many businesses in the aerospace and defense, industrial, or technology and telecommunications sectors could benefit from access to the public markets but have been unable to do so due to a number of reasons, including the time it takes to conduct a traditional initial public offering, market volatility and pricing uncertainty. We intend to focus on evaluating companies with leading competitive positions, high barriers to entry, enhanced business visibility, resilience and durability across economic cycles, strong management teams, and strong long-term potential for growth and profitability.

We believe that our management team is very well positioned to source, evaluate and execute a transaction in the aerospace and defense, industrial, or technology and telecommunications sectors that would benefit from access to the public markets and the skills of our management team. We further believe that our management team is well positioned to identify acquisition opportunities in the marketplace and that our contacts and transaction sources, ranging from owners and directors of private and public companies, family office networks, private equity funds, investment bankers, lenders, attorneys, accountants, and other trusted advisors across various sectors, will allow us to generate attractive acquisition opportunities. Our management team has a cumulative 99 years of relevant business and financial experience, a history and record of value creation initiatives, including the execution of mergers, acquisitions and dispositions of companies and assets, and extensive experience involving financial, investment, capital markets, negotiating, restructuring, and governance matters. The multi-disciplinary approach of our management team, whose continuity and working relationship spans 20 years, renders us as exceptionally capable of executing on our objectives and generating an attractive risk-adjusted return to our stockholders.

Eric J. Zahler, our President, Chief Executive Officer and Director, has 35 years of senior leadership, strategy, operations, management, and governance experience related to our target markets and target industries. Mr. Zahler was a co-founder and Managing Director of Sagamore Capital, a private equity firm pursuing investments in the aerospace and defense, industrial electronics and selected business service markets. Prior to founding Sagamore Capital in July 2008, Mr. Zahler was President and Chief Operating Officer of Loral for eight years and also served on Loral's Board of Directors. As COO, Mr. Zahler was responsible for overseeing all aspects of Loral's business strategy and operations, with company-wide profit and loss responsibility. As a senior member of the management of Loral since 1992, he was integrally involved in identifying, evaluating, negotiating, and integrating Loral's acquisition growth strategy in the aerospace and defense and satellite services industries, actively leading over \$16 billion of acquisitions and divestitures. While at Loral, Mr. Zahler was responsible for the development and implementation of annual

operating budgets, including revenue attainment, operating expenses, capital expenditures, and research and development. He was also responsible for business development activities, including mergers and acquisitions, divestitures, joint ventures, and third-party investments, and for supervising all commercial and legal activities. He also initiated and implemented a major operational reorganization of Loral's satellite manufacturing operations and was actively involved in substantial capital raising and restructuring activities, and the development, operations and management of several international joint ventures with global telecommunications service providers. Mr. Zahler is a member of the Board of Directors and Chairman of the Human Resources and Executive Compensation Committee of Maxar Technologies Ltd. (NYSE: MAXR; TSX: MAXR), a leading global provider of advanced space technology solutions for commercial and government markets, including satellites, Earth imagery, and geospatial data and analytics. He is also Chairman of the Board of exactEarth Ltd. (TSX: XCT), a leading provider of global vessel tracking data for maritime situational awareness, and a member of the Board of Directors of Sequa Corporation, a portfolio company of The Carlyle Group, which provides the global airline industry with a broad range of aftermarket services and ranks as the leading independent supplier of advanced repairs for jet engine parts, and is the largest independent metal coil coater in North America. Previously, Mr. Zahler served on the Board of Directors and Audit Committee of Actel Corporation (NASDAQ: ACTL), a leader in low-power FPGAs and mixed-signal FPGAs for aerospace, military, satellite, medical, and industrial applications, and on the Board of Directors and Audit Committee of EasyLink Services Corporation, (NASDAQ: EASY), a global provider of outsourced business process automation services; and served as the Chairman of the Board of Directors of USN, a subsidiary of the SSC, an entity owned by the Government of Sweden. SSC/USN is a global provider of mission critical systems and services to the space and aerospace markets. As Chairman of USN, Mr. Zahler's appointment was approved by the U.S. Department of Defense to ensure compliance with a Special Security Agreement (SSA), FOCI requirements and other national security policies. From 1975 to 1992, Mr. Zahler was an attorney at Fried, Frank, Harris, Shriver & Jacobson, where he was elected Partner in 1983. At Fried, Frank, he represented numerous aerospace and defense companies in all aspects of their interactions with the U.S. government. Mr. Zahler graduated, cum laude, from Harvard Law School in 1975, where he was editor of the Harvard Journal on Legislation. He earned a Bachelor's of Science degree, cum laude, in mathematics from Yale University in 1972.

Sai S. Devabhaktuni, the Chairman of our Board of Directors, has over 25 years of experience analyzing and investing in a broad range of sectors with specific focus in our target markets and target industries. Investing across several economic cycles, Mr. Devabhaktuni has served on numerous creditors' committees and boards of directors and employs an active approach to investing. Mr. Devabhaktuni has written numerous thought pieces and has participated as a subject matter expert in industry conferences. From January 2012 to March 2018, Mr. Devabhaktuni was an Executive Vice President and Head of Corporate Distressed Portfolio Management at PIMCO. While at PIMCO, Mr. Devabhaktuni was Co-Chair of the Investment Committee of the PIMCO Corporate Opportunities Fund II. Mr. Devabhaktuni was also instrumental in business growth initiatives which led to the increase in assets under management by 6.8x for portfolios dedicated to corporate stressed and distressed investing. Prior to joining PIMCO, Mr. Devabhaktuni founded TMG, an investment firm investing in inefficient markets with an emphasis on debt, equity and other obligations of financially stressed businesses. Prior to TMG, Mr. Devabhaktuni was one of three Managing Principals at MHR, which he joined in 1998. During his tenure at MHR, Mr. Devabhaktuni was involved in all aspects of the investment process, including identifying, structuring and conducting due diligence on investment opportunities, including acquisitions and dispositions. Mr. Devabhaktuni worked collaboratively with senior management teams of MHR portfolio companies on operational improvements and growth initiatives, as well as on mergers, acquisitions, divestitures and financing activities. Prior to MHR, Mr. Devabhaktuni was a member of the event driven strategies group at Highbridge, and a member of the corporate finance, capital markets, and emerging markets groups of Nomura. Mr. Devabhaktuni holds a Bachelor of Science in Economics, with concentrations in Finance, Economics and Legal Studies from the Wharton School of the University of Pennsylvania. Mr. Devabhaktuni has served on the Board of Directors of Loral and Applied Natural Gas Fuels Inc., and currently serves on the Board of Directors of Sequa Corporation.

Richard J. Townsend, our Executive Vice President and Chief Financial Officer, has 39 years of finance, strategy and operations experience related to our target markets and target industries. Mr. Townsend has served as an Advisory Partner at Rangeley Capital, a private investment partnership focused on investments in the event space, since January 2017. Mr. Townsend served as a Managing Partner of Rangeley Capital, with responsibilities as a Portfolio Manager and as the Chief Operating Officer, from January 2008 through January 2017. During this period, Rangeley Capital grew its NAV (net asset value) by a factor of 9.5x. Mr. Townsend focused his experience in evaluating operating management teams' capabilities and identifying undervalued event opportunities in the public market. Prior to joining Rangeley Capital, Mr. Townsend was the Executive Vice President and Chief Financial Officer of Loral from 1998 to 2007, where he was responsible for all financial aspects of the business, including financial assessment and implementation of corporate strategy; performance measurement and assessment of all operating management teams, focusing on capturing profit improvement as well as internal and external growth opportunities; SEC reporting requirements; treasury operations; external communications to shareholders, business analysts, and rating agencies; business controls, and corporate governance. As part of the small senior management team, Mr. Townsend led the financial team's participation in the company's key strategic business development activities, including mergers, acquisitions, and joint ventures. From 1996 to 1998, Mr. Townsend served as the Corporate Controller and Director of Strategy of ITT Industries, which was the remaining public company after ITT spun off Sheraton Hotels and Hartford Insurance. As the Corporate Controller and Director of Strategy of an effectively new public company, Mr. Townsend was responsible for developing and implementing key financial processes, including, a strategy development and implementation process; budgeting and measurement for the operating business units; and the public reporting process, including communications to shareholders, analysts, and rating agencies. In this early period of ITT Industries, the initial corporate strategy was to sell the automotive supplier business while investing in the water pump and defense and electronics businesses through acquisitions. Mr. Townsend spent the prior 17 years gaining experience in financial management and assessment of businesses while working at IBM. Starting at IBM after earning his MBA from Stanford University in 1979, he gathered experience in all aspect of financial management of a large international public company through holding positions of increasing responsibility in all areas of finance, planning, and accounting. His final two assignments at IBM were as Controller of Europe, Mideast and Africa located in Paris, France, which managed a third of IBM's total business, and as Assistant Corporate Controller for Financial Planning, during which assignment, Mr. Townsend was responsible for all aspects of financial planning and measurement for IBM. Mr. Townsend started his career as a mechanical engineer at GE's Nuclear Energy Division after earning his Bachelor of Science degree from the University of Michigan in 1972. While at GE, Mr. Townsend earned a Master of Science degree in Engineering from the University of California at Berkeley in 1977 and became a Professional Engineer in the state of California.

The past performance of the members of our management team or their affiliates or employers is not a guarantee that we will be able to identify a suitable candidate for our initial business combination or of success with respect to any business combination we may consummate. You should not rely on the historical record of the performance of our management team's members, or any of their affiliates or employers, as indicative of our future performance. None of our officers or directors has had any experience with any blank check companies in the past.

Business Strategy

Our business strategy is to identify and complete our initial business combination with a company that complements the experience of our management team and can benefit from our management team's expertise. Our selection process is expected to leverage our management team's contacts in the aerospace and defense, industrial, and technology and telecommunications sectors globally, which we believe will provide us with access to attractive business combination opportunities in these industries. We believe that the extensive networks of our management team members will deliver access to a broad spectrum of opportunities across our target industries. We intend to target businesses that provide a platform for add-on acquisitions or that are at an inflection point in their growth. Our management team has experience:

- managing, operating and investing in businesses in the aerospace and defense, industrial, and technology and telecommunications sectors;

- developing and growing companies, both organically and through acquisitions and investments;
- evaluating and managing the growth of new products and technologies;
- implementing operational improvements, including process enhancements;
- identifying, recruiting, and mentoring management personnel;
- sourcing, structuring, acquiring, and selling businesses;
- executing complex transactions and operating businesses within complex regulatory environments;
- fostering relationships with sellers, capital providers, and target management teams;
- optimizing capital structures; and
- accessing the capital markets across various business cycles.

Following the completion of this offering, we intend to begin the process of communicating with the network of relationships of our management team and their affiliates to articulate the parameters for our search for a potential target initial business combination and begin the process of pursuing and reviewing potential opportunities.

Competitive Strengths

We expect to adhere to a disciplined investment process, which may include (i) utilizing our management team's relationships to identify businesses in our target industries, (ii) performing rigorous due diligence, and (iii) actively participating post-acquisition through the implementation of operational improvements and growth initiatives. Members of our management team have a history of constructive engagement with management teams and will proactively seek to continuously improve a company's competitiveness, strategic position, productivity, and profitability in an effort to increase stockholder value.

We believe we have the following competitive strengths:

Continuity and Working Relationship of our Management Team. Our management team has a 20 year working relationship and a history of driving change and adding value. We have a multi-disciplinary approach combining operations, strategy, finance, and investing and have a history of direct engagement with management teams across businesses. We believe the history and experience of our management team will be viewed favorably by target businesses in their implementation of operational, financial, managerial, and strategic initiatives.

Proprietary and Differentiated Sourcing Pipeline. Our management team (including members of our Board of Directors) has cultivated strong relationships across industries. These relationships include personal networks from prior investment experience and operating knowledge, relationships with industry executives, corporate management teams and family office networks, and relationships with financial institutions, investment banks, private equity sponsors, business brokers, management consultants and advisors, industry trade organizations, accountants, attorneys, academics and restructuring firms. We expect that the diverse networks of our management team will provide us with a pipeline of acquisition opportunities that would be difficult for others to replicate.

Investing Experience and Rigorous Exploration/Diligence Experience. We believe that our management's track record of identifying and sourcing transactions in the aerospace and defense, industrial, and technology and telecommunications industries positions us well to appropriately evaluate potential business combinations and select a target business that will be well received by the public markets. Although the complexities of the business models and regulatory environments of companies in our target industries may be a barrier for other market participants, our management team has decades of experience in operating within such frameworks. Our management team's investigative, highly analytical due diligence process is typically supported by third party external advisors. Inherent in our process are coherent risk aggregation and mitigation techniques, which we believe will be well received by the management teams of targets.

Business Selection, Execution and Structuring Capabilities. Our management team has a disciplined investment culture and due diligence process that we will utilize in selecting a business for potential acquisition. Some factors and business characteristics of target companies that we intend to evaluate include resilience and durability across business cycles, a focus on cash flows, the union of business philosophy and principles with the management of the target, and attractive acquisition entry points, intrinsic valuation and long-term intrinsic value growth. The execution of a business combination requires a rigorous approach to due diligence and experience in negotiating and executing complex transactions. We believe that by focusing on such activities, we will be able to generate investment opportunities that have attractive risk/reward profiles based on their business, valuation, and structural elements.

Active Management. We intend to pursue an active management strategy, employing rigorous diligence of all aspects of a target's business, formulating specific growth strategies and related compensation policies that ensure alignment with target management, and working with management to identify best practices to improve the financial performance and resilience of our business combination. Our active approach includes the implementation of post-acquisition strategic initiatives, which may include the development of new market growth strategies, including product/service and/or geographic enhancement, further acquisitions, operational improvements, review of capital allocations policies, and optimization of capital structures. Our management team has a history of active engagement in implementing such measures.

Status as a Public Company. We believe our structure will make us an attractive business combination partner. As an existing public company, we offer a target business an alternative to the traditional initial public offering. In this situation, the owners of the target business would exchange their shares of stock in the target business for shares of our stock or for a combination of shares of our stock and other consideration, allowing us to tailor the consideration to the specific needs of the sellers. We believe target businesses would find this method a more certain and cost-effective method for becoming a public company than the typical initial public offering. In a typical initial public offering, there are additional expenses incurred in marketing, roadshow and public reporting efforts that will likely not be present to the same extent in connection with a business combination with us. Furthermore, once the business combination is consummated, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could prevent the offering from occurring. Once public, we believe the target business would then have greater access to capital and more attractive opportunities to provide additional management incentives consistent with stockholders' interests. As a public company the target company could enhance its business prospects by augmenting its profile among potential new customers and vendors and increasing its visibility to talented new employees. However, there is currently no market for our securities and a market for our securities may not develop. As a result, these purported benefits may not be realized.

While we believe that our status as a public company will make us an attractive business partner, some potential target businesses may view the inherent limitations in our status as a blank check company as a deterrent and may prefer to effect a business combination with a more established operating entity or with a private company. These inherent limitations include limitations on our available financial resources, which may be inferior to those of other entities pursuing the acquisition of similar target businesses; the requirement that we seek stockholder approval of a business combination or conduct a tender offer in relation thereto, which may delay the consummation of a transaction; and the existence of our outstanding warrants, which may represent a source of future dilution.

Financial Position and Flexibility. With funds available for a business combination initially in the amount of \$150,000,000 (or \$172,500,000 if the over-allotment option is exercised in full) assuming no redemptions, we can offer a target business a variety of options to facilitate a business combination and fund future expansion and growth. Because we are able to consummate a business combination using the cash proceeds from this offering, our share capital, debt or a combination of the foregoing, we have the flexibility to use an efficient structure allowing us to tailor the consideration to be paid to address the needs of the parties. However, if a business combination requires us to use substantially all of our cash to pay for the purchase price, we may need to arrange third party financing to help fund our business combination. Since we have no specific business combination under consideration, we have not taken any steps to secure third party financing. Accordingly, our flexibility in structuring a business combination may be subject to constraints.

Business Combination Criteria

Consistent with our strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating prospective target businesses and in conducting a thorough due diligence review that will encompass, among other activities, meetings with incumbent management and employees, document reviews, and inspection of facilities, as applicable, as well as a review of proprietary and -public financial and other information that we will require be made available to us. We intend to develop detailed financial models of our target companies, identifying critical assumptions, and evaluating forecasted business prospects under varying financial scenarios. We intend to use these criteria and guidelines in evaluating acquisition opportunities, but we may decide to enter into our initial business combination with a target business that does not meet some or all of these criteria or guidelines.

- Focus on aerospace and defense, industrial, and technology and telecommunications businesses in North America that are prudently implementing advanced Information Technology and Data Analytics capabilities in their operations and are positioned to benefit from our management team's extensive experience and contacts in these sectors. We believe our strategy leverages our management team's distinctive background and extensive network of industry leaders in the target industries.
- We will target businesses that are market leaders, have high barriers to entry and defensible market positions within their industries, have the ability to endure economic downturns, and have attractive financial metrics and/or prospects, where we believe that our industry expertise and relationships can be used to create opportunities for value creation, whether for acquisitions, capital investments in organic growth opportunities, or the generation of greater operating efficiencies.
- We intend to seek target businesses that have established management teams, but which we believe could benefit from the industry experience and contacts of our management.
- We will seek to acquire a company that we believe could provide a platform for add-on acquisitions or businesses that are at an inflection point and where additional management depth can improve financial performance. We believe this will be an opportunity to deliver incremental stockholder value post-acquisition.
- We will seek a target that we believe will benefit from being publicly traded and will be able to effectively utilize the broader access to capital and the public profile that are associated with being a publicly traded company.
- We expect to focus on target businesses with EBITDA of \$50 million or more per year and an enterprise value of approximately \$500 million to \$1.5 billion, determined according to reasonably accepted valuation standards and methodologies. We believe that targeting businesses in the middle market will provide the greatest number of opportunities for investment and will maximize the collective network of our management team. Our management team believes that greater information asymmetries exist in the middle market, an area where we can create value through active implementation of performance improvement mechanisms and an acceleration of strategic initiatives.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management team may deem relevant. In the event that we decide to enter into our initial business combination with a target business that does not meet the above criteria, we will disclose that the target business does not meet the above criteria in our stockholder communications related to our initial business combination, which, as discussed in this prospectus, would be in the form of proxy solicitation materials or tender offer documents that we would file with the SEC.

Our Acquisition Process and Post-Acquisition Active Management

Our management team encompasses a combination of senior leadership capabilities within multiple disciplines, in-depth diligence and deal flow. Our primary area of focus will be in industries where our management team (including members of our Board of Directors) has a history of investment experience, strong networks, and operational knowledge. The foundation of our approach is to acquire an attractive business and enhance the long-term value of the enterprise.

Sourcing

Our management team has developed deep and longstanding relationships across industries. These relationships include personal networks from prior investment experience and operating knowledge, relationships with industry executives, corporate management teams, and family office networks, and relationships with financial institutions, investment banks, private equity sponsors, business brokers, management consultants and advisors, industry trade organizations, accountants, attorneys, academics and restructuring firms. We believe that these relationships will drive substantial proprietary deal flow and insight on acquisition opportunities. Our management team will seek opportunities where it will be a value-added partner to target companies, their owners and their respective managements in connection with their unique situations.

Due Diligence

Once an acquisition target is identified, we intend to undertake a rigorous due diligence process. The diligence process includes a thorough review of industry dynamics, competitive landscape, company visits, and review of business models, operating performance, and working capital, customer and supplier dialogues, industry trade show attendance, off balance sheet assets and liabilities, the depth of the target's management team, and their incentives, review of capital structure and lending arrangements, and a thorough examination of legal, regulatory, tax and environmental matters. As part of our diligence process, consultants, third party experts, and legal and financial advisors may be utilized. The results and findings of this investment analysis are compiled for review in the determination of business selection.

Business Selection

Some of factors and business characteristics of companies that we intend to evaluate include resilience and durability across business cycles, a focus on cash flows, the union of business philosophy and principles with the management of the target, a determination of attractive acquisition entry points, intrinsic valuation, and long-term intrinsic value growth.

Execution

Once due diligence of an acquisition opportunity is complete and a target has been selected for acquisition, our management team expects to utilize creative, yet careful, deal structuring and negotiation. Our management team will hire third-party professionals, including financial and legal advisors and consultants to assist in the negotiation and execution of purchase agreements and credit agreements and legal and regulatory filings.

Post-Acquisition Active Management

We intend to engage in an active approach to implement initiatives to continue to unlock value and increase stockholder value following the consummation of a business combination. Our management team has a track record of engagement and continual dialogue with the management teams of acquired businesses, including a continual assessment of the industry and competitors, the evaluation of potential avenues for growth (both organic and inorganic), the implementation of cost and process improvements, the enhancement of management teams where there may be a gap, the alignment of interests of management teams through incentive plans, the assessment of potential changes to resources, and capital allocation policies, the continual assessment of the capital structure, and assistance in capital market transactions as well as any other elements that will enhance the long-term strategic intrinsic value of the enterprise.

Fair Market Value of Target Business

The target business or businesses that we acquire must collectively have an aggregate fair market value equal to at least 80% of the balance of the funds in the trust account (excluding any taxes payable on interest earned) at the time of the execution of a definitive agreement for our initial business combination, although we may acquire a target business whose fair market value significantly exceeds 80% of the trust account balance.

We currently anticipate structuring our initial business combination to acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination so that we merge directly with the target business or businesses or acquire less than 100% of their interests or assets in order to meet certain objectives of the target management team or stockholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or targets, or otherwise acquires a controlling interest in the target business or businesses sufficient for the post-transaction company not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us, respectively, in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we could acquire a 100% controlling interest in the target; however, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of Nasdaq's 80% fair market value test. In order to consummate such an acquisition, we may issue a significant amount of our debt or equity securities to the sellers of such businesses and/or seek to raise additional funds through a private offering of debt or equity securities. Since we have no specific business combination under consideration, we have not entered into any such fund raising arrangement and have no current intention of doing so. The fair market value of the target will be determined by our Board of Directors based upon one or more standards generally accepted by the financial community (such as actual and potential sales, earnings, cash flow and/or book value). The proxy solicitation materials or tender offer documents used by us in connection with any proposed transaction will provide public stockholders with our analysis of the fair market value of the target business, as well as the basis for our determinations. If our board is not able to independently determine that the target business has a sufficient fair market value, we will obtain an opinion from an unaffiliated, independent investment banking firm, or another independent entity that commonly renders valuation opinions on the type of target business we are seeking to acquire, with respect to the satisfaction of such criteria.

We will not be required to obtain an opinion from an investment banking firm as to the fair market value if our Board of Directors independently determines that the target business complies with the 80% threshold.

Lack of Business Diversification

For an indefinite period of time after consummation of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. By consummating our initial business combination with only a single entity, our lack of diversification may:

- subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination, and
- cause us to depend on the marketing and sale of a single product or limited number of products or services.

Limited Ability to Evaluate the Target's Management Team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our initial business combination with that business, our assessment of the target business' management may not prove to be correct. The future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. Consequently,

members of our management team may not become a part of the target's management team, and the future management may not have the necessary skills, qualifications or abilities to manage a public company. Further, it is also not certain whether one or more of our directors will remain associated in some capacity with us following our initial business combination. Moreover, members of our management team may not have significant experience or knowledge relating to the operations of the particular target business. Our key personnel may not remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

Following our initial business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We may not have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Stockholders May Not Have the Ability to Approve an Initial Business Combination

In connection with any proposed business combination, we will either (1) seek stockholder approval of our initial business combination at a meeting called for such purpose at which stockholders may seek to redeem their shares, without voting and, if they do vote, regardless of whether they vote for or against the proposed business combination, into their pro rata share of the aggregate amount then on deposit in the trust account (net of taxes payable as of two business days prior to the consummation of the initial business combination), or (2) provide our stockholders with the opportunity to sell their shares to us by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount equal to their pro rata share of the aggregate amount then on deposit in the trust account (net of taxes payable as of two business days prior to the consummation of the initial business combination), in each case subject to the limitations described herein. We will seek stockholder approval if it is required by applicable law or stock exchange listing requirement, provided, that we may also decide to seek stockholder approval for business or other reasons.

Under Nasdaq rules, stockholder approval would be required for our initial business combination if, for example:

- we issue (other than in a public offering for cash) a number of shares of common stock that would either (a) be equal to or in excess of 20% of the number of shares of common stock then outstanding or (b) have voting power equal to or in excess of 20% of the voting power then outstanding;
- any of our directors, officers or substantial security holders (as defined by Nasdaq rules) has a 5% or greater interest, directly or indirectly, in the target business or assets to be acquired and if the number of shares of common stock to be issued, or if the number of shares of common stock into which the securities may be convertible or exercisable, exceeds either (a) 1% of the number of shares of common stock or 1% of the voting power outstanding before the issuance in the case of any of our directors and officers or (b) 5% of the number of shares of common stock or 5% of the voting power outstanding before the issuance in the case of any substantial security holders; or
- the issuance or potential issuance of shares of our common stock will result in our undergoing a change of control.

If we determine to engage in a tender offer, such tender offer will be structured so that each stockholder may tender any or all of his, her or its shares rather than some pro rata portion of his, her or its shares. The decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek stockholder approval. Unlike other blank check companies which require stockholder votes and conduct proxy solicitations in conjunction with their initial business combinations and related redemptions of securities even when a vote is not required by law, we will have the flexibility to avoid such stockholder votes and allow our stockholders to sell their shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act which regulate issuer tender offers. In that case, we will file tender offer documents with the SEC that will contain substantially the same financial and other

information about the initial business combination as is required under the SEC's proxy rules. We will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and, if we seek stockholder approval, a majority of the shares of common stock voted at a stockholder meeting are voted in favor of the business combination.

We chose our net tangible asset threshold of \$5,000,001 to ensure that we would avoid being subject to Rule 419 promulgated under the Securities Act of 1933, as amended. However, if we seek to consummate an initial business combination with a target business that imposes any type of working capital closing condition or requires us to have a minimum amount of funds available from the trust account upon consummation of such initial business combination, we may need to have more than \$5,000,001 in net tangible assets upon consummation and this may force us to seek third party financing which may not be available on terms acceptable to us or at all. As a result, we may not be able to consummate such initial business combination and we may not be able to locate another suitable target within the applicable time period, if at all. Public stockholders may therefore have to wait 21 months (or 24 months, if we extend our time to complete a business combination as described in this prospectus) from the closing of this offering in order to be able to receive a pro rata share of the trust account.

Our founders and our executive officers and directors have agreed (1) to vote any shares of common stock owned by them in favor of any proposed business combination, including the founder shares and the shares of common stock underlying the private units, (2) not to redeem any shares of common stock in connection with a stockholder vote to approve a proposed initial business combination and (3) not sell any shares of common stock in any tender in connection with a proposed initial business combination. As a result, we would need only 5,375,001 or approximately 35.8%, of the 15,000,000 public shares sold in this offering to be voted in favor of a transaction in order to have our initial business combination approved (assuming the over-allotment option is not exercised and all shares were present and entitled to vote at the meeting).

Permitted Purchases of Our Securities

None of our founders, executive officers, directors, director nominees or their affiliates has indicated any intention to purchase units or shares of common stock in this offering or from persons in the open market or in private transactions. However, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our founders, directors, director nominees, executive officers, advisors or any of their affiliates may purchase public shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation to do so. None of the funds held in the trust account will be used to purchase public shares or public warrants in such transactions. There is no limit on the number of shares or warrants such persons may purchase, or any restriction on the price that they may pay. Any such price per share may be different than the amount per share a public stockholder would receive if it elected to redeem its shares in connection with our initial business combination. However, such persons have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions.

In the event our founders, directors, director nominees, executive officers, advisors or any of their affiliates determine to make any such purchases of public shares at the time of a stockholder vote relating to our initial business combination, such purchases could have the effect of influencing the vote necessary to approve such transaction. None of the funds in the trust account will be used to purchase public shares or public warrants in such transactions. If any of our founders, directors, director nominees, executive officers, advisors or any of their affiliates engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We cannot currently determine whether any of our insiders will make such purchases pursuant to a Rule 10b5-1 plan, as that would be dependent upon several factors, including but not limited to the timing and size of any such purchase. Depending on the circumstances, any of our insiders may decide to make purchases of our securities pursuant to a Rule 10b5-1 plan or may determine that acting pursuant to such a plan is not required under the Exchange Act.

Our founders, executive officers, directors, director nominees and their affiliates anticipate that they may identify the stockholders with whom they may pursue privately negotiated purchases by either the stockholders contacting us directly or by our receipt of redemption requests submitted by stockholders following our mailing of proxy materials in connection with our initial business combination. To the extent that our founders, executive officers, directors, director nominees or their affiliates enter into a private purchase, they would identify and contact only potential selling stockholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against the business combination.

We do not currently anticipate that purchases of our public shares or public warrants by any of our founders, directors, director nominees, executive officers, advisors or any of their affiliates, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. None of our founders, directors, director nominees, officers, advisors or any of their affiliates will purchase shares of our common stock if such purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act.

Redemption Rights

At any meeting called to approve an initial business combination, public stockholders may seek to redeem their shares of common stock without voting and, if they do vote, regardless of whether they vote for or against the proposed business combination, into their pro rata share of the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination, less any taxes then due but not yet paid (which taxes may be paid only from the interest earned on the funds in the trust account). Alternatively, we may provide our public stockholders with the opportunity to sell their shares of common stock to us through a tender offer (and thereby avoid the need for a stockholder vote) for an amount equal to their pro rata share of the aggregate amount on deposit in the trust account as of two business days prior to the consummation of the initial business combination, less any taxes then due but not yet paid.

We may also require public stockholders seeking redemption, whether they are a record holder or hold their shares in “street name,” to either (i) tender their certificates to our transfer agent or (ii) deliver their shares to the transfer agent electronically using The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) System, at the holder’s option, in each case prior to a date set forth in the proxy materials sent in connection with the proposal to approve the business combination.

There is a nominal cost associated with the above-referenced delivery process and the act of certifying the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker \$80.00 and it would be up to the broker whether or not to pass this cost on to the holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated. However, in the event we require stockholders seeking to exercise redemption rights to deliver their shares prior to the consummation of the proposed business combination and the proposed business combination is not consummated, this may result in an increased cost to stockholders.

Any proxy solicitation materials we furnish to stockholders in connection with a vote for any proposed business combination will indicate whether we are requiring stockholders to satisfy such certification and delivery requirements. Accordingly, a stockholder would have from the time the stockholder received our proxy statement up until the vote on the proposal to approve the business combination to deliver his shares if he wishes to seek to exercise his redemption rights. This time period varies depending on the specific facts of each transaction. However, as the delivery process can be accomplished by the stockholder, whether or not he is a record holder or his shares are held in “street name,” in a matter of hours by simply contacting the transfer agent or his broker and requesting delivery of his shares through the DWAC System, we believe this time period is sufficient for an average investor. However, we cannot assure you of this fact. Please see the risk factor titled “*We will require public stockholders who wish to redeem their shares of common stock in*

connection with a proposed business combination to comply with specific requirements for redemption that may make it more difficult for them to exercise their redemption rights prior to the deadline for exercising their rights” for further information on the risks of failing to comply with these requirements.

The foregoing is different from the procedures historically used by some blank check companies. Traditionally, in order to perfect redemption rights in connection with a blank check company’s business combination, the company would distribute proxy materials for the stockholders’ vote on an initial business combination, and a holder could simply vote against a proposed business combination and check a box on the proxy card indicating such holder was seeking to exercise his redemption rights. After the business combination was approved, the company would contact such stockholder to arrange for him to deliver his certificate to verify ownership. As a result, the stockholder then had an “option window” after the consummation of the business combination during which he could monitor the price of the company’s stock in the market. If the price rose above the redemption price, he could sell his shares in the open market before actually delivering his shares to the company for cancellation. As a result, the redemption rights, to which stockholders were aware they needed to commit before the stockholder meeting, would become a “continuing” right surviving past the consummation of the business combination until the holder delivered its certificate. The requirement for physical or electronic delivery prior to the meeting ensures that a holder’s election to redeem his shares is irrevocable once the business combination is approved.

Any request to redeem such shares once made, may be withdrawn at any time up to the vote on the proposed business combination. Furthermore, if a holder of a public share delivered his certificate in connection with an election of their redemption and subsequently decides prior to the vote on the proposed business combination not to elect to exercise such rights, he may simply request that the transfer agent return the certificate (physically or electronically).

If the initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account as of two business days prior to the consummation of the initial business combination. In such case, we will promptly return any shares delivered by public holders.

Ability to Extend Time to Complete Business Combination

We have until 21 months from the closing of this offering to consummate an initial business combination. However, if we anticipate that we may not be able to consummate our initial business combination within 21 months, we may, but are not obligated to, extend the period of time to consummate a business combination by an additional three months (for a total of up to 24 months to complete a business combination). Pursuant to the terms of our amended and restated certificate of incorporation and the trust agreement to be entered into between us and Continental Stock Transfer & Trust Company on the date of this prospectus, in order to extend the time available for us to consummate our initial business combination, our sponsor or its affiliates or designees, upon five days advance notice prior to the deadline, must deposit into the trust account \$1,500,000, or up to \$1,725,000 depending on the extent to which the underwriters’ over-allotment option is exercised (\$0.10 per share in any case), on or prior to the date of the deadline. Our sponsor will receive a non-interest bearing, unsecured promissory note equal to the amount of any such deposit that will not be repaid in the event that we are unable to close a business combination unless there are funds available outside the trust account to do so. Such note would either be paid upon consummation of our initial business combination, or, at the lender’s discretion, converted in whole or in part upon consummation of our business combination into additional private units at a price of \$10.00 per unit. In the event that we receive notice from our sponsor five days prior to the deadline of its intent to effect an extension, we intend to issue a press release announcing such intention at least three days prior to the deadline. In addition, we intend to issue a press release the day after the deadline announcing whether or not the funds had been timely deposited. Our sponsor and its affiliates or designees are not obligated to fund the trust account to extend the time for us to complete our initial business combination.

Liquidation if No Business Combination

Our amended and restated certificate of incorporation provides that we will have only 21 months (or 24 months if we extend our time to complete a business combination as described above) from the closing of this offering to complete an initial business combination. If we have not completed an initial business

combination by such date, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the outstanding public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest not previously released to the Corporation to pay taxes (less taxes payable and up to \$100,000 of such net interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our Board of Directors, dissolve and liquidate, subject (in the case of (ii) and (iii) above) to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the prescribed time period.

Our founders, executive officers, directors and director nominees have agreed (pursuant to a written letter agreement with us filed as an exhibit to the registration statement of which this prospectus forms a part) that they will not propose any amendment to our amended and restated certificate of incorporation that would stop our public stockholders from redeeming their shares of common stock in connection with a business combination or affect the substance or timing of our obligation to redeem 100% of our public shares if we do not complete a business combination within 21 months (or 24 months if we extend our time to complete a business combination as described above) from the closing of this unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon such approval at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, net of franchise and income taxes payable, divided by the number of then outstanding public shares. This redemption right shall apply in the event of the approval of any such amendment, whether proposed by our founders, any executive officer, director or director nominee, or any other person.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of 100% of our outstanding public shares in the event we do not complete our initial business combination within the required time period may be considered a liquidation distribution under Delaware law. If the corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution.

Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of 100% of our public shares in the event we do not complete our initial business combination within the required time period is not considered a liquidation distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidation distribution. If we are unable to complete a business combination within the prescribed time frame, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the outstanding public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our Board of Directors, dissolve and liquidate, subject (in the case of (ii) and (iii) above) to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Accordingly, it is our intention to redeem our public shares as soon as reasonably

possible following the 21-month (or 24-month, as applicable) anniversary of the closing of this offering, and, therefore, we do not intend to comply with those procedures. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend well beyond the third anniversary of such date.

Because we will not be complying with Section 280 of the DGCL, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the subsequent ten years. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses.

We are required to use our reasonable best efforts to have all third parties (including any vendors or other entities we engage after this offering) and any prospective target businesses enter into agreements with us waiving any right, title, interest or claim of any kind they may have in or to any monies held in the trust account. As a result, the claims that could be made against us will be limited, thereby lessening the likelihood that any claim would result in any liability extending to the trust. We therefore believe that any necessary provision for creditors will be reduced and should not have a significant impact on our ability to distribute the funds in the trust account to our public stockholders. Nevertheless, we cannot assure you of this fact as there is no guarantee that vendors, service providers and prospective target businesses will execute such agreements. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. Our underwriters and auditor are the only third parties we are currently aware of that may not execute a waiver. Nor is there any guarantee that, even if they execute such agreements with us, they will not seek recourse against the trust account.

In the event that the proceeds in the trust account are reduced below: (1) \$10.00 per public share or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in the value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay our franchise and income taxes, and our sponsor asserts that it is unable to satisfy its indemnification obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment and subject to their fiduciary duties may choose not to do so in certain instances. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per share redemption price will not be substantially less than \$10.00 per share.

We anticipate notifying the trustee of the trust account to begin liquidating such assets promptly after such date and anticipate it will take no more than ten business days to effectuate such distribution. Our founders have waived their rights to participate in any liquidation distribution with respect to the founder shares and private shares. There will be no distribution from the trust account with respect to our warrants, which will expire worthless. We will pay the costs of any subsequent liquidation from our remaining assets outside of the trust account and the interest earned on the funds held in the trust account that we are permitted to withdraw to pay such expenses.

If we are unable to complete an initial business combination and expend all of the net proceeds of this offering, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the initial per-share redemption price would be \$10.00. The proceeds deposited in the trust account could, however, become subject to claims of our creditors that are in preference to the claims of public stockholders.

Our public stockholders shall be entitled to receive funds from the trust account only in the event of our failure to complete a business combination within the required time period or if the stockholders seek to redeem their respective shares upon a business combination which is actually completed by us or upon certain amendments to our charter documents as described elsewhere herein. In no other circumstances shall a stockholder have any right or interest of any kind to or in the trust account.

Our founders will not participate in any redemption distribution from our trust account with respect to such founder shares. Additionally, any loans made by our officers, directors, sponsors or their affiliates for working capital needs will be forgiven and not repaid if we are unable to complete an initial business combination.

If we are forced to file a bankruptcy case or an involuntary bankruptcy case is filed against us which is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return to our public stockholders at least \$10.00 per share.

If we are forced to file a bankruptcy case or an involuntary bankruptcy case is filed against us which is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. Furthermore, because we intend to distribute the proceeds held in the trust account to our public stockholders promptly after twenty-four months from the date of this prospectus, this may be viewed or interpreted as giving preference to our public stockholders over any potential creditors with respect to access to or distributions from our assets. Furthermore, our board may be viewed as having breached their fiduciary duties to our creditors and/or may have acted in bad faith, and thereby exposing itself and our company to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Amended and Restated Certificate of Incorporation

Our amended and restated certificate of incorporation will contain certain requirements and restrictions relating to this offering that will apply to us until the consummation of our initial business combination. These provisions, including provisions regarding the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within the required time period, cannot be amended without the approval of holders of at least 65% of our common stock. If we seek to amend any provisions of our amended and restated certificate of incorporation that would stop our public stockholders from redeeming or selling their shares to us in connection with a business combination or affect the substance or timing of our obligation to redeem 100% of our public shares if we do not complete a business combination within 21 months (or 24 months if we extend our time to complete a business combination as described in this prospectus) from the closing of this offering, we will provide dissenting public stockholders with the opportunity to redeem their public shares in connection with any such vote. This redemption right shall apply in the event of the approval of any such amendment, whether proposed by our founders, any executive officer, director or director nominee, or any other person. Our founders, executive officers and directors have agreed to waive any redemption rights with respect to any common stock held by them, and any public shares they may hold in connection with any vote to amend our amended and restated certificate of incorporation. Specifically, our amended and restated certificate of incorporation provides, among other things, that:

- we shall either (1) seek stockholder approval of our initial business combination at a meeting called for such purpose at which stockholders may seek to redeem their shares, regardless of whether they vote for or against the proposed business combination, into their pro rata share of the aggregate amount then on deposit in the trust account (net of taxes payable), or (2) provide our stockholders with the opportunity to tender their shares to us by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount equal to their pro rata share of the aggregate amount then on deposit in the trust account (net of taxes payable), in each case subject to the limitations described herein;

- we will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and, if we seek stockholder approval, a majority of the shares of common stock voted at a stockholder meeting are voted in favor of the business combination;
- if our initial business combination is not consummated within 21 months (or 24 months if we extend our time to complete a business combination as described in this prospectus) from the closing of this offering, then we will redeem all of the outstanding public shares and thereafter liquidate and dissolve the Company;
- upon the consummation of this offering, \$150,000,000, or \$172,500,000 if the over-allotment option is exercised in full, shall be placed into the trust account;
- we may not consummate any other business combination, merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar transaction prior to our initial business combination; and
- prior to our initial business combination, we may not issue additional stock that participates in any manner in the proceeds of the trust account, or that votes as a class with the common stock sold in this offering on any matter.

Competition

In identifying, evaluating and selecting a target business, we may encounter intense competition from other entities having a business objective similar to ours. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Many of these competitors possess greater technical, human and other resources than us and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there may be numerous potential target businesses that we could acquire with the net proceeds of this offering, our ability to compete in acquiring certain sizable target businesses may be limited by our available financial resources.

The following also may not be viewed favorably by certain target businesses:

- our obligation to seek stockholder approval of a business combination or engage in a tender offer may delay the completion of a transaction;
- our obligation to redeem shares of common stock held by our public stockholders may reduce the resources available to us for a business combination;
- our outstanding warrants, and the potential future dilution they represent.

Any of these factors may place us at a competitive disadvantage in successfully negotiating a business combination. Our management believes, however, that our status as a public entity and potential access to the United States public equity markets may give us a competitive advantage over privately-held entities having a similar business objective as ours in acquiring a target business with significant growth potential on favorable terms.

If we succeed in effecting a business combination, there will be, in all likelihood, intense competition from competitors of the target business. We cannot assure you that, subsequent to a business combination, we will have the resources or ability to compete effectively.

Facilities

We currently maintain our principal executive offices at 750 Lexington Avenue, Suite 1501, New York, NY 10022. The cost for this space is included in the \$10,000 per-month aggregate fee an affiliate of our sponsor will charge us for general and administrative services commencing on the date of this prospectus pursuant to a letter agreement between us and an affiliate of our sponsor. We believe, based on rents and fees for similar services in the New York City area, that the fee charged by an affiliate of our sponsor is at least as favorable as we could have obtained from an unaffiliated person. We consider our current office space, combined with the other office space otherwise available to our executive officers, adequate for our current operations.

Employees

We have three executive officers. These individuals are not obligated to devote any specific number of hours to our matters and intend to devote only as much time as they deem necessary to our affairs. The amount of time they will devote in any time period will vary based on whether a target business has been selected for the business combination and the stage of the business combination process the company is in. Accordingly, once a suitable target business to acquire has been located, management will spend more time investigating such target business and negotiating and processing the business combination (and consequently spend more time on our affairs) than had been spent prior to locating a suitable target business. We presently expect our executive officers to devote such amount of time as they reasonably believe is necessary to our business. We do not intend to have any full time employees prior to the consummation of a business combination.

Periodic Reporting and Audited Financial Statements

We have registered our units, common stock and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual report will contain financial statements audited and reported on by our independent registered public accountants.

We will provide stockholders with audited financial statements of the prospective target business as part of any proxy solicitation materials or tender offer documents sent to stockholders to assist them in assessing the target business. These financial statements will need to be prepared in accordance with or reconciled to United States generally accepted accounting principles or international financial reporting standards. We cannot assure you that any particular target business identified by us as a potential acquisition candidate will have the necessary financial statements. To the extent that this requirement cannot be met, we may not be able to acquire the proposed target business.

We may be required to have our internal control procedures audited for the fiscal year ending December 31, 2019 as required by the Sarbanes-Oxley Act. A target company may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Legal Proceedings

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team.

Comparison of this Offering to those of Blank Check Companies Subject to Rule 419

The following table compares the terms of this offering to the terms of an offering by a blank check company subject to the provisions of Rule 419. This comparison assumes that the gross proceeds, underwriting commissions and underwriting expenses of our offering would be identical to those of an offering undertaken by a company subject to Rule 419, and that the underwriters will not exercise their over-allotment option. None of the provisions of Rule 419 apply to our offering.

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Escrow of offering proceeds	\$150,000,000 of the net offering proceeds (or \$172,500,000 if the over-allotment option is exercised), which includes the \$5,000,000 of the net proceeds from the sale of the private units (or \$5,450,000 if the over-allotment option is exercised), will be deposited into a trust account in the United States in New York, New York, maintained by Continental Stock Transfer & Trust Company acting as trustee.	\$132,300,000 of the net offering proceeds (or \$152,145,000 if the over-allotment option is exercised) would be required to be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker-dealer acts as trustee for persons having the beneficial interests in the account.
Investment of net proceeds	\$150,000,000 of the net offering proceeds (or \$172,500,000 if the over-allotment option is exercised), which includes the \$5,000,000 of the net proceeds from the sale of the private units (or \$5,450,000 if the over-allotment option is exercised), held in trust will be invested in United States "government securities" within the meaning of Section 2(a)(16) of the Investment Company Act with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations.	Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act or in securities that are direct obligations of, or obligations guaranteed as to principal or interest by, the United States.
Receipt of interest on escrowed funds	Interest on proceeds from the trust account to be paid to stockholders is reduced by any taxes paid or payable	Interest on funds in escrow account would be held for the sole benefit of investors, unless and only after the funds

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
	and up to \$100,000 payable for dissolution expenses.	held in escrow were released to us in connection with our consummation of a business combination.
Limitation on fair value or net assets of target business	Our initial business combination must be with one or more target businesses or assets that together have an aggregate fair market value of at least 80% of the value of the trust account (excluding any taxes payable on interest earned) at the time of the agreement to enter into such initial business combination.	The fair value or net assets of a target business must represent at least 80% of the maximum offering proceeds.
Trading of securities issued	The units may commence trading on or promptly after the date of this prospectus. The public shares and public warrants may begin trading separately on the 52 nd day after the date of this prospectus unless Cowen informs us of its decision to allow earlier separate trading, provided we have filed with the SEC a Current Report on Form 8-K, which includes an audited balance sheet reflecting our receipt of the proceeds of this offering, such Form 8-K to be amended or supplemented with updated financial information in the event the over-allotment option is exercised or if Cowen permits separate trading prior to the 52 nd day after the date of this prospectus and we have issued a press release announcing when separate trading will begin.	No trading of the units or the underlying public shares or warrants would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.
Exercise of the warrants	The warrants cannot be exercised until the later of 30 days after the completion of our initial business combination and 12 months from the closing of this offering and, accordingly, will be exercised only after the trust account has been terminated and distributed.	The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.
Election to remain an investor	We will either (1) give our stockholders the opportunity to vote on the business combination or (2) provide our public stockholders with the opportunity to redeem their shares of common stock in a tender offer for cash equal to their pro rata share of the aggregate amount	A prospectus containing information pertaining to the business combination required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the company in writing, within a period of no less than 20 business days and no

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
	<p>then on deposit in the trust account, less taxes. If we hold a meeting to approve a proposed business combination, we will send each stockholder a proxy statement containing information required by the SEC. Under Delaware law and our bylaws, we must provide at least 10 days advance notice of any meeting of stockholders. Accordingly, this is the minimum amount of time we would need to provide holders to determine whether to exercise their rights to redeem their shares for cash or to remain an investor in our company. Alternatively, if we do not hold a meeting and instead conduct a tender offer, we will conduct such tender offer in accordance with the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination as we would have included in a proxy statement. Under the tender offer rules, a tender offer must remain open for 20 business days. Accordingly, this is the minimum amount of time we would need to provide holders to determine whether to sell their shares to us in such a tender offer or to remain an investor in our company.</p>	<p>more than 45 business days from the effective date of a post-effective amendment to the company's registration statement, to decide if he, she or it elects to remain a stockholder of the company or require the return of his, her or its investment. If the company has not received the notification by the end of the 45th business day, funds and interest or dividends, if any, held in the trust or escrow account are automatically returned to the stockholder. Unless a sufficient number of investors elect to remain investors, all funds on deposit in the escrow account must be returned to all of the investors and none of the securities are issued.</p>
Business combination deadline	<p>Pursuant to our amended and restated certificate of incorporation, if we are unable to complete our initial business combination within 21 months (or 24 months if we extend our time to complete a business combination as described in this prospectus) from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the outstanding public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including any interest earned on the funds held in the trust account less up to \$100,000 of interest to pay dissolution expenses and</p>	<p>If an acquisition has not been consummated within 18 months after the effective date of the company's registration statement, funds held in the trust or escrow account are returned to investors.</p>

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
	<p>net of interest that may be used by us to pay our franchise and income taxes payable, divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our Board of Directors, dissolve and liquidate, subject (in the case of (ii) and (iii) above) to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.</p>	
Release of funds	<p>Except for interest earned on the funds in the trust account that may be released to us to pay our tax obligations, the proceeds held in the trust account will not be released until the earlier of (1) the completion of our initial business combination within the required time period; (2) our redemption of 100% of the outstanding public shares if we have not completed an initial business combination in the required time period; (3) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within the required time period or (B) with respect to any other provision relating to stockholders' rights or pre-business combination activity.</p>	<p>The proceeds held in the escrow account are not released until the earlier of the completion of a business combination and the failure to effect our initial business combination within the allotted time.</p>

MANAGEMENT

Our current directors, executive officers and director nominees are listed below.

Name	Age	Position
Eric J. Zahler	68	President, Chief Executive Officer and Director
Sai S. Devabhaktuni	47	Chairman of the Board*
Richard J. Townsend	68	Executive Vice President and Chief Financial Officer
C. Robert Kehler	66	Director Nominee*
Donald W. Manvel	68	Director Nominee*
John C. Pescatore	54	Director Nominee*

* This individual will occupy the position of director on the date of this prospectus.

Eric J. Zahler has served as our President, Chief Executive Officer and Director since our inception. He has 35 years of senior leadership, strategy, operations, management, and governance experience related to our target markets and target industries. Mr. Zahler was a co-founder and Managing Director of Sagamore Capital, a private equity firm pursuing investments in the aerospace and defense, industrial electronics and selected business service markets. Prior to founding Sagamore Capital in July 2008, Mr. Zahler was President and Chief Operating Officer of Loral for eight years and also served on Loral's Board of Directors. As COO, Mr. Zahler was responsible for overseeing all aspects of Loral's business strategy and operations, with company-wide profit and loss responsibility. As a senior member of the management of Loral since 1992, he was integrally involved in identifying, evaluating, negotiating, and integrating Loral's acquisition growth strategy in the aerospace and defense and satellite services industries, actively leading over \$16 billion of acquisitions and divestitures. While at Loral, Mr. Zahler was responsible for the development and implementation of annual operating budgets, including revenue attainment, operating expenses, capital expenditures, and research and development. He was also responsible for business development activities, including mergers and acquisitions, divestitures, joint ventures, and third-party investments, and for supervising all commercial and legal activities. He also initiated and implemented a major operational reorganization of Loral's satellite manufacturing operations and was actively involved in substantial capital raising and restructuring activities, and the development, operations and management of several international joint ventures with global telecommunications service providers. Mr. Zahler is a member of the Board of Directors and Chairman of the Human Resources and Executive Compensation Committee of Maxar Technologies Ltd. (NYSE: MAXR; TSX: MAXR), a leading global provider of advanced space technology solutions for commercial and government markets, including satellites, Earth imagery, and geospatial data and analytics. He is also Chairman of the Board of exactEarth Ltd. (TSX: XCT), a leading provider of global vessel tracking data for maritime situational awareness, and a member of the Board of Directors of Sequa Corporation, a portfolio company of The Carlyle Group, which provides the global airline industry with a broad range of aftermarket services and ranks as the leading independent supplier of advanced repairs for jet engine parts, and is the largest independent metal coil coater in North America. Previously, Mr. Zahler served on the Board of Directors and Audit Committee of Actel Corporation (NASDAQ: ACTL), a leader in low-power FPGAs and mixed-signal FPGAs for aerospace, military, satellite, medical, and industrial applications, and on the Board of Directors and Audit Committee of EasyLink Services Corporation, (NASDAQ: EASY), a global provider of outsourced business process automation services; and served as the Chairman of the Board of Directors of USN, a subsidiary of the SSC, an entity owned by the Government of Sweden. SSC/USN is a global provider of mission critical systems and services to the space and aerospace markets. As Chairman of USN, Mr. Zahler's appointment was approved by the U.S. Department of Defense to ensure compliance with a Special Security Agreement (SSA), FOCI requirements and other national security policies. From 1975 to 1992, Mr. Zahler was an attorney at Fried, Frank, Harris, Shriver & Jacobson, where he was elected Partner in 1983. At Fried, Frank, he represented numerous aerospace and defense companies in all aspects of their interactions with the U.S. government. Mr. Zahler graduated, cum laude, from Harvard Law School in 1975, where he was editor of the Harvard Journal on Legislation. He earned a Bachelor's of Science degree, cum laude, in mathematics from Yale University in 1972.

Sai S. Devabhaktuni will serve as the Chairman of our Board of Directors commencing on the date of this prospectus. He has over 25 years of experience analyzing and investing in a broad range of sectors with specific focus in our target markets and target industries. Investing across several economic cycles, Mr. Devabhaktuni has served on numerous creditors' committees and boards of directors and employs an active approach to investing. Mr. Devabhaktuni has written numerous thought pieces and has participated as a subject matter expert in industry conferences. From January 2012 to March 2018, Mr. Devabhaktuni was an Executive Vice President and Head of Corporate Distressed Portfolio Management at PIMCO. While at PIMCO, Mr. Devabhaktuni was Co-Chair of the Investment Committee of the PIMCO Corporate Opportunities Fund II. Mr. Devabhaktuni was also instrumental in business growth initiatives which led to the increase in assets under management by 6.8x for portfolios dedicated to corporate stressed and distressed investing. Prior to joining PIMCO, Mr. Devabhaktuni founded TMG, an investment firm investing in inefficient markets with an emphasis on debt, equity and other obligations of financially stressed businesses. Prior to TMG, Mr. Devabhaktuni was one of three Managing Principals at MHR, which he joined in 1998. During his tenure at MHR, Mr. Devabhaktuni was involved in all aspects of the investment process, including identifying, structuring and conducting due diligence on investment opportunities, including acquisitions and dispositions. Mr. Devabhaktuni worked collaboratively with senior management teams of MHR portfolio companies on operational improvements and growth initiatives, as well as on mergers, acquisitions, divestitures and financing activities. Prior to MHR, Mr. Devabhaktuni was a member of the event driven strategies group at Highbridge, and a member of the corporate finance, capital markets, and emerging markets groups of Nomura. Mr. Devabhaktuni holds a Bachelor of Science in Economics, with concentrations in Finance, Economics and Legal Studies from the Wharton School of the University of Pennsylvania. Mr. Devabhaktuni has served on the Board of Directors of Loral and Applied Natural Gas Fuels Inc., and currently serves on the Board of Directors of Sequa Corporation.

Richard J. Townsend has served as our Executive Vice President and Chief Financial Officer since our inception. He has 39 years of finance, strategy and operations experience related to our target markets and target industries. Mr. Townsend has served as an Advisory Partner at Rangeley Capital, a private investment partnership focused on investments in the event space, since January 2017. Mr. Townsend served as a Managing Partner of Rangeley Capital, with responsibilities as a Portfolio Manager and as the Chief Operating Officer, from January 2008 through January 2017. During this period, Rangeley Capital grew its NAV (net asset value) by a factor of 9.5x. Mr. Townsend focused his experience in evaluating operating management teams' capabilities and identifying undervalued event opportunities in the public market. Prior to joining Rangeley Capital, Mr. Townsend was the Executive Vice President and Chief Financial Officer of Loral from 1998 to 2007, where he was responsible for all financial aspects of the business, including financial assessment and implementation of corporate strategy; performance measurement and assessment of all operating management teams, focusing on capturing profit improvement as well as internal and external growth opportunities; SEC reporting requirements; treasury operations; external communications to shareholders, business analysts, and rating agencies; business controls, and corporate governance. As part of the small senior management team, Mr. Townsend led the financial team's participation in the company's key strategic business development activities, including mergers, acquisitions, and joint ventures. From 1996 to 1998, Mr. Townsend served as the Corporate Controller and Director of Strategy of ITT Industries, which was the remaining public company after ITT spun off Sheraton Hotels and Hartford Insurance. As the Corporate Controller and Director of Strategy of an effectively new public company, Mr. Townsend was responsible for developing and implementing key financial processes, including, a strategy development and implementation process; budgeting and measurement for the operating business units; and the public reporting process, including communications to shareholders, analysts, and rating agencies. In this early period of ITT Industries, the initial corporate strategy was to sell the automotive supplier business while investing in the water pump and defense and electronics businesses through acquisitions. Mr. Townsend spent the prior 17 years gaining experience in financial management and assessment of businesses while working at IBM. Starting at IBM after earning his MBA from Stanford University in 1979, he gathered experience in all aspect of financial management of a large international public company through holding positions of increasing responsibility in all areas of finance, planning, and accounting. His final two assignments at IBM were as Controller of Europe, Mideast and Africa located in Paris, France, which managed a third of IBM's total business, and as Assistant Corporate Controller for Financial Planning, during which assignment, Mr. Townsend was responsible for all aspects of financial planning and

measurement for IBM. Mr. Townsend started his career as a mechanical engineer at GE's Nuclear Energy Division after earning his Bachelor of Science degree from the University of Michigan in 1972. While at GE, Mr. Townsend earned a Master of Science degree in Engineering from the University of California at Berkeley in 1977 and became a Professional Engineer in the state of California.

General C. Robert Kehler, USAF (ret), will serve as a director commencing on the date of this prospectus. He has 43 years of leadership, strategy and governance experience related to our target markets and target industries, and service to the United States of America. General Kehler currently serves on the board of directors of Maxar Technologies Ltd. (Ticker: MAXR) and Inmarsat plc (Ticker: ISAT LN), and is a trustee of the Mitre Corporation, a senior advisor to McKinsey and Company and special advisor to EaglePicher Technologies, LLC. General Kehler retired from the United States Air Force in December 2013 after almost 39 years of distinguished service. From January 2011 until November 2013 he served as the Commander, United States Strategic Command (USSTRATCOM), where he was directly responsible to the Secretary of Defense and President for the plans and operations of all U. S. forces conducting strategic deterrence, nuclear alert, global strike, space, cyberspace and associated operations. While in command, he crafted and implemented policies and plans to deter strategic attacks against the U.S. and its key allies, and led a joint team of over 160,000 military and civilian members conducting global deterrence operations while supporting combat actions in the Middle East and North Africa. General Kehler's military career encompassed progressively important operational, command, staff, and joint assignments. Prior to commanding USSTRATCOM, General Kehler commanded United States Air Force Space Command and two operational space wings conducting space launch, missile warning, and space control missions. He also commanded an intercontinental ballistic missile (ICBM) squadron and group. At Air Force Space Command, he designed the Air Force's inaugural blueprint, operating concept, organizational structure, and personnel program to meet rapidly growing cyberspace challenges. General Kehler entered the Air Force in 1975 as a Distinguished Graduate of the Pennsylvania State University R.O.T.C. program, has master's degrees in Public Administration and National Security and Strategic Studies, and completed executive development programs at Carnegie-Mellon University, Syracuse University, and Harvard University. His military awards include the Defense Distinguished and Superior Service Medals, the Distinguished Service Medal (2 awards), Legion of Merit (3 awards), and the French Legion of Honor (Officer). General Kehler continues to offer his expertise as a consultant, adviser and corporate director. He speaks widely on matters of national security and is highly sought for panels, studies, Congressional testimony, and workshops addressing the most compelling issues of national security in the 21st Century. General Kehler was the S.T. Lee Distinguished Lecturer at Stanford University's Freeman Spogli Institute for International Studies for academic year 2014 – 2015, and remains an Affiliate of Stanford's Center for International Security and Cooperation. He is a Senior Fellow of the National Defense University. We believe General Kehler is well qualified to serve on our Board of Directors based on his extensive military leadership experience and management experience with public companies in our target industries.

Donald W. Manvel will serve as a director commencing on the date of this prospectus. He has 46 years of strategy, operations, manufacturing and turnaround experience related to our target markets and target industries. Mr. Manvel is currently Chairman and CEO of AVL Americas, and a member of the Executive Leadership Team of the parent company based in Austria ("AVL"). AVL is the world's largest independent company for the development of gasoline, diesel, and alternative fuel powertrain systems, as well as fuel cell and hybrid technologies. Mr. Manvel joined AVL in 2002 and is responsible for leading the development and execution of the company's long-term strategy for the Americas, with a view to creating shareholder value. From July 2012 to April 2015, Mr. Manvel served as the CEO of Unycom GmbH, an enterprise software company dedicated to the field of intellectual property management. Prior to AVL and from 1999, Mr. Manvel was Acting President and Senior Vice President of Operations at DEKA Research and Development ("DEKA"). At DEKA, Mr. Manvel oversaw the development and implementation of operations and supply chain systems and played a leading role in the development of the Segway Human Transporter, the first self-balancing, electric transportation device. Prior to DEKA, Mr. Manvel was President of the Manlift Division of Grove Worldwide ("Manlift"). While at Manlift, Mr. Manvel managed all aspects of its operations, leading to significant cost improvements, a reduction in design cycle times for the firm's products, and eventually the sale of the company. Mr. Manvel began his career with Chrysler Corporation in 1972, where he held a variety of senior executive positions including Corporate Manager of Systems and Scheduling for the entire corporation, General Manager and Platform Executive for the

company's Jeep operations, Managing Director of Chrysler Austria and Chrysler Eurostar, and President of DaimlerChrysler Venezuela. Mr. Manvel received his MBA from Wayne State University and earned a Bachelor's of Arts degree in Business Administration from Michigan State University. We believe Mr. Manvel is well qualified to serve on our Board of Directors based on his extensive management experience with public companies in our target industries.

John C. Pescatore will serve as a director commencing on the date of this prospectus. He has more than 30 years of strategy, operations, finance and accounting experience related to our target markets and target industries. From 2004 to September 2018, Mr. Pescatore served in various capacities as Vice Chairman, President, CEO and Member of the Board of Directors of pdvWireless (Ticker: PDVW, "PDV"). In October 2018, Mr. Pescatore began serving in a consulting role as an advisor to PDV. At PDV, Mr. Pescatore led its transformation from a private enterprise software company to a publicly traded wireless carrier, was instrumental in all aspects of fundraising including acquisition financing for the purchase of a nationwide spectrum position through a strategic transaction with a Tier One carrier, embarked on a process to modernize thirty year old Federal Communications Commission rules to allow for spectrum efficiency and for the deployment of more efficient technologies, and launched the company's wireless service in seven major market areas within the United States. Prior to PDV, Mr. Pescatore was EVP & COO of NeoWorld Communications, Inc. ("NeoWorld"), which was founded to develop a nationwide wireless network and held spectrum in major markets throughout the United States. At NeoWorld, Mr. Pescatore was a member of the core team which led the company's successful sale to Nextel Communications, Inc. ("Nextel"). Prior to NeoWorld, Mr. Pescatore was Executive Vice President of Operations of Expanets, Inc. ("Expanets"), one of the fastest growing voice and data communications solutions and services companies in the United States. As one of the key architects in building Expanets, Mr. Pescatore oversaw the business through a period of enormous growth by strategic acquisitions, building the company to over U.S.\$1 billion in sales and over 3,000 employees. Prior to Expanets and from 1989 to 1998, Mr. Pescatore was a key member of the team that grew Nextel from a start-up to a national wireless service provider. During his tenure at Nextel, Mr. Pescatore held a variety of senior managerial and supervisory positions including Assistant Controller, Vice President of Operations, President of the Specialized Mobile Radio Division and President of the New York Area. Mr. Pescatore began his career as a consultant with Deloitte within the firm's Emerging Business Services Group, where he developed his expertise in telecommunications. Mr. Pescatore earned a Bachelor of Science degree in Accounting from New York University, was a Certified Public Accountant, and, for nine years ending in November 2014, served as a Board Member and Chair of the Audit Committee at Covenant House International. We believe Mr. Pescatore is well qualified to serve on our Board of Directors based on his extensive management and accounting experience with public companies in our target industries.

Number, Terms of Office and Election of Executive Officers and Directors

Our Board of Directors is divided into two classes with only one class of directors being elected in each year and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a two-year term. The term of office of the first class of directors, consisting of General Kehler and Mr. Manvel, will expire at our first annual meeting of stockholders. The term of office of the second class of directors, consisting of Messrs. Zahler, Devabhaktuni and Pescatore, will expire at the second annual meeting of stockholders. We may not hold an annual meeting of stockholders until after we consummate our initial business combination (unless required by Nasdaq).

Our executive officers are elected by the Board of Directors and serve at the discretion of the Board of Directors, rather than for specific terms of office. Our Board of Directors is authorized to appoint persons to the offices set forth in our bylaws as it deems appropriate. Our bylaws provide that our executive officers may consist of a Chief Executive Officer, a President, a Chairman, a Chief Financial Officer, Vice Presidents, a Secretary, Assistant Secretaries, a Treasurer and such other offices as may be determined by the Board of Directors.

Director Independence

Nasdaq requires that a majority of our board must be composed of “independent directors,” which is defined generally as a person other than an executive officer or employee of the Company or its subsidiaries or any other individual having a relationship, which, in the opinion of our Board of Directors would interfere with the director’s exercise of independent judgment in carrying out the responsibilities of a director.

Upon the date of this prospectus, General Kehler and Messrs. Manvel and Pescatore will be our independent directors. Our independent directors will have regularly scheduled meetings at which only independent directors are present. Any affiliated transactions will be on terms no less favorable to us than could be obtained from independent parties. Any affiliated transactions must be approved by a majority of our independent and disinterested directors.

Executive Officer and Director Compensation

Commencing on the date that our securities are first listed on Nasdaq through the earlier of consummation of our initial business combination and our liquidation, we will pay an affiliate of our sponsor a total of \$10,000 per month, which funds will be used to pay for office space and general and administrative services. This arrangement is being agreed to by an affiliate of our sponsor for our benefit and is not intended to provide such affiliate compensation in lieu of a salary. We believe that such fees are at least as favorable as we could have obtained from an unaffiliated third party for such services.

Except as set forth above, no compensation will be paid to our sponsor, executive officers and directors, or any of their respective affiliates, prior to or in connection with the consummation of our initial business combination. Additionally, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our independent directors will review on a quarterly basis all payments that were made to our sponsor, executive officers, directors or our or their affiliates.

After the completion of our initial business combination, members of our management team who remain with us, may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to stockholders, to the extent then known, in the tender offer materials or proxy solicitation materials furnished to our stockholders in connection with a proposed business combination. It is unlikely the amount of such compensation will be known at the time, as it will be up to the directors of the post-combination business to determine executive and director compensation. Any compensation to be paid to our officers will be determined, or recommenced, to the Board of Directors for determination, either by a committee constituted solely by independent directors or by a majority of the independent directors on our Board of Directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the consummation of our initial business combination, although it is possible that some or all of our officers and directors may negotiate employment or consulting arrangements to remain with us after the initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management’s motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the consummation of our initial business combination will be a determining factor in our decision to proceed with any potential business combination. We are not party to any agreements with our officers and directors that provide for benefits upon termination of employment.

Committees of the Board of Directors

Upon the date of this prospectus, our Board of Directors will have two standing committees, an audit committee and a compensation committee. Each of our audit committee and our compensation committee will be composed solely of independent directors. Each committee will operate under a charter that will be approved by our board and will have the composition and responsibilities described below.

Audit Committee

We have established an audit committee of the Board of Directors. General Kehler and Messrs. Manvel and Pescatore will serve as members of our audit committee. Mr. Pescatore will serve as

chairman of the audit committee. Under Nasdaq listing standards and applicable SEC rules, we are required to have three members of the audit committee all of whom must be independent. General Kehler and Messrs. Manvel and Pescatore are independent.

Each member of the audit committee is financially literate and our Board of Directors has determined that Mr. Pescatore qualifies as an “audit committee financial expert” as defined in applicable SEC rules.

We have adopted an audit committee charter, which will detail the purpose and principal functions of the audit committee, including:

- assisting board oversight of (1) the integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) our independent auditor’s qualifications and independence, and (4) the performance of our internal audit function and independent auditors;
- the appointment, compensation, retention, replacement, and oversight of the work of the independent auditors and any other independent registered public accounting firm engaged by us;
- pre-approving all audit and non-audit services to be provided by the independent auditors or any other registered public accounting firm engaged by us, and establishing pre-approval policies and procedures;
- reviewing and discussing with the independent auditors all relationships the auditors have with us in order to evaluate their continued independence;
- setting clear hiring policies for employees or former employees of the independent auditors;
- setting clear policies for audit partner rotation in compliance with applicable laws and regulations;
- obtaining and reviewing a report, at least annually, from the independent auditors describing (1) the independent auditor’s internal quality-control procedures and (2) any material issues raised by the most recent internal quality-control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues;
- meeting to review and discuss our annual audited financial statements and quarterly financial statements with management and the independent auditor, including reviewing our specific disclosures under “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*”;
- reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and
- reviewing with management, the independent auditors, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

Compensation Committee

We have established a compensation committee of the Board of Directors. The members of our Compensation Committee will be General Kehler and Messrs. Manvel and Pescatore. General Kehler will serve as chairman of the compensation committee. We have adopted a compensation committee charter, which will detail the purpose and responsibility of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer’s compensation, evaluating our Chief Executive Officer’s performance in light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer based on such evaluation;

- reviewing and making recommendations to our Board of Directors with respect to the compensation, and any incentive-compensation and equity-based plans that are subject to board approval of all of our other officers;
- reviewing our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our officers and employees;
- producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

The charter also provides that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, independent legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by Nasdaq and the SEC.

Director Nominations

We do not have a standing nominating committee, though we intend to form a corporate governance and nominating committee as and when required to do so by applicable law or stock exchange rules. In accordance with Rule 5605(e)(2) of the Nasdaq listing rules, a majority of the independent directors may recommend a director nominee for selection by the board of directors. The board of directors believes that the independent directors can satisfactorily carry out the responsibility of properly selecting or approving director nominees without the formation of a standing nominating committee. In accordance with Rule 5605(e)(1)(A) of the Nasdaq listing rules, all such directors are independent. As there is no standing nominating committee, we do not have a nominating committee charter in place.

Prior to our initial business combination, the board of directors will also consider director candidates recommended for nomination by our stockholders during such times as they are seeking proposed nominees to stand for election at an annual meeting of stockholders (or, if applicable, a special meeting of stockholders). Our stockholders that wish to nominate a director for election to the Board should follow the procedures set forth in our bylaws.

We have not formally established any specific, minimum qualifications that must be met or skills that are necessary for directors to possess. In general, in identifying and evaluating nominees for director, the Board of Directors considers educational background, diversity of professional experience, knowledge of our business, integrity, professional reputation, independence, wisdom, and the ability to represent the best interests of our stockholders. Prior to our initial business combination, holders of our public shares will not have the right to recommend director candidates for nomination to our Board of Directors.

Code of Conduct and Ethics

We have adopted a code of conduct and ethics applicable to our directors, officers and employees in accordance with applicable federal securities laws. We have filed a copy of our form of Code of Ethics and our audit committee charter as exhibits to the registration statement of which this prospectus forms a part. You will be able to review these documents by accessing our public filings at the SEC's web site at www.sec.gov. In addition, a copy of the Code of Ethics will be provided without charge upon request from us. We intend to disclose any amendments to or waivers of certain provisions of our Code of Ethics in a Current Report on Form 8-K. For additional details, please see "*Where You Can Find Additional Information.*"

Conflicts of Interest

Investors should be aware of the following potential conflicts of interest:

- None of our officers and directors is required to commit their full time to our affairs and, accordingly, they may have conflicts of interest in allocating their time among various business activities.
- In the course of their other business activities, our sponsor, officers and directors may become aware of investment and business opportunities which may be appropriate for presentation to our company as well as the other entities with which they are affiliated. However, our officers and directors have agreed to present to us all suitable target business opportunities, subject to any fiduciary or contractual obligations.
- Unless we consummate our initial business combination, our executive officers, directors and sponsor will not receive reimbursement for any out-of-pocket expenses incurred by them to the extent that such expenses exceed the amount of available proceeds not deposited in the trust account.
- The founder shares beneficially owned by our founders will be released from lockup only if a business combination is successfully completed, and the private units, including the underlying shares of common stock and warrants, purchased by our founders and/or their designees will expire worthless if a business combination is not consummated. Additionally, our executive officers and directors will not receive liquidation distributions with respect to any of their founder shares or the shares of common stock underlying the private units. Furthermore, our founders and/or their designees have agreed that the founder shares, the private units and securities underlying the private units, will not be sold or transferred by them until after we have completed a business combination. For the foregoing reasons, our board may have a conflict of interest in determining whether a particular target business is appropriate to effect a business combination with.

In general, executive officers and directors of a corporation incorporated under the laws of the State of Delaware are required to present business opportunities to a corporation if:

- the corporation could financially undertake the opportunity;
- the opportunity is within the corporation's line of business; and
- it would not be fair to the corporation and its stockholders for the opportunity not to be brought to the attention of the corporation.

Accordingly, as a result of multiple business affiliations, our officers and directors may have similar legal obligations relating to presenting business opportunities meeting the above-listed criteria to multiple entities. In addition, conflicts of interest may arise when our board evaluates a particular business opportunity with respect to the above-listed criteria. We cannot assure you that any of the above mentioned conflicts will be resolved in our favor.

In order to minimize potential conflicts of interest which may arise from multiple corporate affiliations, each of our officers and directors has contractually agreed, pursuant to a written agreement with us, until the earliest of our execution of a definitive agreement for a business combination, our liquidation or such time as he or she ceases to be an officer or director, to present to our company for our consideration, prior to presentation to any other entity, any suitable business opportunity which may reasonably be required to be presented to us, subject to any fiduciary or contractual obligations he or she might have. Accordingly, our amended and restated certificate of incorporation will provide that the doctrine of corporate opportunity will not apply with respect to any of our executive officers or directors in circumstances where the application of the doctrine would conflict with any fiduciary duties or contractual obligations they may have.

Below is a table summarizing the entities to which our executive officers, directors and director nominees currently have fiduciary duties or contractual obligations.

Individual	Entity	Entity's Business	Affiliation
Eric J. Zahler	Sagamore Capital	Private Equity	Managing Director
	Maxar Technologies Ltd.	Space Technology	Director
	exactEarth Ltd.	Space Technology	Chairman
	Sequa Corporation	Aerospace and Industrial	Director
Sai S. Devabhaktuni	Sequa Corporation	Aerospace and Industrial	Director
Richard J. Townsend	Rangeley Capital LLC	Private Investment Fund	Advisory Partner
C. Robert Kehler	Kehler and Associates LLC	Consulting	President and Member
	Inmarsat plc	Telecommunications	Director
	MAXAR Technologies Ltd.	Aerospace and Defense	Director
	The Mitre Corporation	Non-profit Organization	Trustee
	McKinsey and Company	Management Consulting	Senior Advisor
	EaglePicher Technologies, LLC	Aerospace and Defense	Special Advisor
Donald W. Manvel	AVL Michigan Holding Corporation	Automotive Engineering	Chairman and CEO
	Barbara Ann Karmanos Cancer Institute	Non-profit Organization	Director
	Michigan Science Center	Non-profit Organization	Director
	College for Creative Studies	Education	Trustee
	FIRST in Michigan	Non-profit Organization	Director
American Institute of Musical Studies	Non-profit Organization	President and Director	
John C. Pescatore	pdvWireless, Inc.	Telecommunications	Consultant

In addition, our executive officers and directors have agreed not to participate in the formation of, or become an executive officer or director of, any other special purpose acquisition company with a class of securities registered under the Exchange Act until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within 21 months (or 24 months, as applicable) after the closing of this offering.

If we submit our initial business combination to our public stockholders for a vote, our founders, as well as all of our executive officers, directors and director nominees, have agreed to vote any shares held by them in favor of our initial business combination. In addition, they have agreed to waive their respective rights to participate in any liquidation distribution with respect to their founder shares or the shares of common stock underlying the private units. If they purchase shares of common stock as part of this offering or in the open market, however, they would be entitled to participate in any liquidation distribution in respect of such shares but have agreed not to redeem or sell such shares to us in connection with the consummation of an initial business combination.

All ongoing and future transactions between us and any of our sponsor, executive officers and directors or their respective affiliates will be on terms believed by us to be no less favorable to us than are available from unaffiliated third parties. Such transactions will require prior approval by a majority of our uninterested "independent" directors or the members of our Board of Directors who do not have an interest in the transaction, in either case who had access, at our expense, to our attorneys or independent legal counsel. We will not enter into any such transaction unless our disinterested "independent" directors determine that the terms of such transaction are no less favorable to us than those that would be available to us with respect to such a transaction from unaffiliated third parties.

PRINCIPAL STOCKHOLDERS

The following table sets forth information regarding the beneficial ownership of our shares of common stock as of the date of this prospectus, and as adjusted to reflect the sale of our shares of common stock included in the units offered by this prospectus and private units, and assuming no purchase of units in this offering, by:

- each person known by us to be the beneficial owner of more than 5% of the outstanding shares of common stock;
- each of our executive officers, directors and director nominees that beneficially owns shares of common stock; and
- all our executive officers and directors as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them. The following table does not reflect record or beneficial ownership of any shares of common stock issuable upon exercise of warrants as these warrants are not exercisable within 60 days of the date of this prospectus.

Name and Address of Beneficial Owner ⁽¹⁾	Prior to Offering		After Offering ⁽²⁾	
	Amount and Nature of Beneficial Ownership	Approximate Percentage of Outstanding common stock ⁽³⁾	Amount and Nature of Beneficial Ownership	Approximate Percentage of Outstanding Common Stock ⁽⁴⁾
Monocle Partners, LLC ⁽⁵⁾	3,997,969	92.7%	3,887,292	20.2%
Cowen Investments II LLC ⁽⁶⁾	269,531	6.3%	317,708	1.7%
Eric J. Zahler ⁽⁵⁾	3,997,969	92.7%	3,887,292	20.2%
Sai S. Devabhaktuni ⁽⁵⁾	3,997,969	92.7%	3,887,292	20.2%
Richard J. Townsend ⁽⁵⁾	3,997,969	92.7%	3,887,292	20.2%
C. Robert Kehler	15,000	*	15,000	*
Donald W. Manvel	15,000	*	15,000	*
John C. Pescatore	15,000	*	15,000	*
All directors and officers as a group (six individuals)	4,042,969	93.8%	3,932,292	20.4%

* Less than one percent

(1) Unless otherwise indicated, the business address of each of the individuals is 750 Lexington Avenue, Suite 1501, New York, NY 10022.

(2) Assumes (i) no exercise of the over-allotment option, (ii) an aggregate of 562,500 shares of common stock have been forfeited by our founders and (iii) 500,000 private units have been purchased by our founders simultaneously with the consummation of this offering.

(3) Based on 4,312,500 shares of common stock outstanding immediately prior to this offering.

(4) Based on 19,250,000 shares of common stock outstanding immediately after this offering.

(5) Represents shares held by our sponsor. Eric J. Zahler, Sai S. Devabhaktuni and Richard J. Townsend are managers of our sponsor. Accordingly, all of the shares held by our sponsor may be deemed to be beneficially held by Messrs. Zahler, Devabhaktuni, and Townsend. Each of Messrs. Zahler, Devabhaktuni, and Townsend disclaims beneficial ownership of such securities except to the extent of his pecuniary interest therein.

(6) Cowen Investments II LLC's business address is 599 Lexington Avenue, 27th Floor, New York, NY 10022.

Immediately after this offering (without the exercise of the underwriters' over-allotment option), our founders, executive officers and directors will beneficially own approximately 21.8% of our issued and outstanding common stock (assuming our founders do not purchase any public units), with our sponsor beneficially owning approximately 20.2% of such issued and outstanding common stock.

Because of this ownership block, our founders, together, and our sponsor acting alone, may be able to effectively influence the outcome of all matters requiring approval by our stockholders, including the election of directors, amendments to our amended and restated certificate of incorporation and approval of significant corporate transactions.

To the extent the underwriters do not exercise the over-allotment option, up to an aggregate of 562,500 founder shares will be subject to forfeiture. Our founders will be required to forfeit only a number of founder shares necessary to maintain a 20% ownership interest in our shares of common stock upon the consummation of this offering (assuming that they do not purchase any units in this offering and without giving effect to the sale of the private units) after giving effect to the offering and without giving effect to the exercise, if any, of the underwriters' over-allotment option. Our sponsor may forfeit up to 527,344 founder shares and Cowen Investments may forfeit up to 35,156 founder shares depending upon the extent to which the underwriters' over-allotment option is exercised.

Subject to certain limited exceptions, our founders, executive officers, directors and director nominees have agreed not to transfer, assign or sell any of their founder shares or private units, or the securities underlying the private units, until one year after the date of the consummation of our initial business combination. Notwithstanding the foregoing, (1) if the last reported sale price of our common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (2) if we consummate a liquidation, merger, stock exchange or other similar transaction after our initial business combination which results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property, then all of such shares will be released from the lock-up. Any permitted transferees would be subject to the same restrictions and other agreements of our initial stockholders with respect to any founder shares.

During the lock-up period, the holders of these shares will not be able to sell or transfer their securities except (1) to any persons (including their affiliates and members) participating in the private placement of the private units, (2) amongst our founders or to our officers, directors and employees, (3) if a holder is an entity, as a distribution to its partners, stockholders or members upon its liquidation, (4) by bona fide gift to a member of the holder's immediate family or to a trust, the beneficiary of which is a holder or a member of a holder's immediate family, for estate planning purposes, (5) by virtue of the laws of descent and distribution upon death, (6) pursuant to a qualified domestic relations order, (7) by certain pledges to secure obligations incurred in connection with purchases of our securities, (8) by private sales or transfers made in connection with the consummation of the Company's initial business combination at prices no greater than the price at which the applicable securities were originally purchased or (9) to us for no value for cancellation in connection with the consummation of our initial business combination, in each case (except for clause 9) where the transferee agrees to the terms of the insider letter. If we are unable to effect a business combination and liquidate, there will be no liquidation distribution with respect to the founder shares. If we are unable to effect a business combination and liquidate, there will be no liquidation distribution with respect to the founder shares, the private units or the securities underlying the private units.

Our founders have committed that they and/or their respective designees will purchase an aggregate of 500,000 private units (or 545,000 private units if the over-allotment option is exercised) at \$10.00 per unit, among which 416,667 units (or 449,167 units if the over-allotment option is exercised in full) will be purchased by our sponsor and/or its designees and 83,333 units (or 95,833 units if the over-allotment option is exercised in full) will be purchased by Cowen Investments and/or its designees. These purchases will take place on a private placement basis simultaneously with the consummation of this offering, provided that the additional private units whose purchase is triggered by the exercise of the over-allotment option will be purchased in a private placement that will occur simultaneously with the purchase of public units resulting from the exercise of the over-allotment option. The private units are identical to the units sold in this

offering except the private warrants will be non-redeemable and may be exercised on a cashless basis, in each case so long as they continue to be held by the initial purchasers or their permitted transferees. In addition, for as long as the private warrants are held by Cowen Investments or its designees or affiliates, they may not be exercised after five years from the effective date of the registration statement of which this prospectus forms a part. Our founders, directors, director nominees and executive officers have agreed (and any of their permitted transferees will agree) (A) to vote their private shares in favor of any proposed business combination, (B) not to propose any amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 21 months (or 24 months if we extend our time to complete a business combination as described in this prospectus) from the closing of this offering, unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, (C) not to redeem any private shares or private units (and underlying securities) in connection with a stockholder vote to approve our proposed initial business combination and (D) that such private shares and private units (and underlying securities) shall not participate in any liquidating distribution upon winding up if a business combination is not consummated, until all of the claims of any redeeming stockholders and creditors are fully satisfied (and then only from funds held outside the trust account). Additionally, the purchasers of the private units have agreed not to transfer, assign or sell any of the private units one year after the date of the consummation of our initial business combination. Notwithstanding the foregoing, (1) if the last sale price of our common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (2) if we consummate a liquidation, merger, stock exchange or other similar transaction after our initial business combination which results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property, then the private shares will be released from the lock-up. Any permitted transferees would be subject to the same restrictions and other agreements of our initial stockholders with respect to any private shares.

Registration Rights

Our founders, executive officers, directors and their permitted transferees can demand that we register the founder shares, the private units and underlying securities and any securities issued upon conversion of working capital loans, pursuant to an agreement to be signed prior to or on the date of this prospectus. The holders of the private units (or underlying securities) are entitled to demand that the Company register these securities at any time after the Company consummates a business combination. In addition, the holders have certain “piggy-back” registration rights on registration statements filed after the Company’s consummation of a business combination. Notwithstanding the foregoing, Cowen Investments may not exercise its demand and “piggyback” registration rights after five and seven years, respectively, after the effective date of the registration statement of which this prospectus forms a part and may not exercise its demand rights on more than one occasion.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

In September 2018, we issued an aggregate of 5,750,000 founder shares to our founders for an aggregate purchase price of \$25,000 in cash, or approximately \$0.004 per share. In November 2018, our sponsor transferred to our independent directors an aggregate of 45,000 founder shares. On November 19, 2018, our founders forfeited for no consideration, an aggregate of 1,437,500 founder shares. Up to 562,500 founder shares will be subject to forfeiture by our founders to the extent the underwriters' over-allotment option is exercised.

Subject to certain limited exceptions, our founders, executive officers, directors and director nominees have agreed not to transfer, assign or sell any of their founder shares or private units, or the securities underlying the private units, until one year after the date of the consummation of our initial business combination. Notwithstanding the foregoing, (1) if the last reported sale price of our common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (2) if we consummate a liquidation, merger, stock exchange or other similar transaction after our initial business combination which results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property, then the founder shares will be released from the lock-up. Any permitted transferees would be subject to the same restrictions and other agreements of our initial stockholders with respect to any founder shares.

Our founders have committed that they and/or their respective designees will purchase an aggregate of 500,000 private units (or 545,000 private units if the over-allotment option is exercised) at \$10.00 per unit, among which 416,667 units (or 449,167 units if the over-allotment option is exercised in full) will be purchased by our sponsor and/or its designees and 83,333 units (or 95,833 units if the over-allotment option is exercised in full) will be purchased by Cowen Investments and/or its designees. These purchases shall take place as private placements simultaneously with the sale of the public units in this offering. Our founders have agreed not to transfer, assign or sell any of the private shares or the shares of common stock underlying the private units (except to certain permitted transferees as described below) until the earlier of (i) one year after the date of the consummation of our initial business combination or (ii) the date on which we complete a liquidation, merger, share exchange, reorganization or other similar transaction after our initial business combination that results in all of our public stockholders having the right to exchange their shares of common stock for cash, securities or other property. The purchasers of the private units have agreed not to transfer, assign or sell any of the private units one year after the date of the consummation of our initial business combination. Notwithstanding the foregoing, (1) if the last reported sale price of our common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (2) if we consummate a liquidation, merger, stock exchange or other similar transaction after our initial business combination which results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property, then the private shares will be released from the lock-up. Any permitted transferees would be subject to the same restrictions and other agreements of our initial stockholders with respect to any private shares.

On September 26, 2018, we issued a promissory note to our sponsor in the aggregate principal amount of \$300,000. The note contains a drawdown feature such that at any time prior to the consummation of this offering we may draw up to an aggregate of \$300,000 on the note for general working capital expenses. The note is non-interest bearing and will mature on such date as is the earlier of the date on which we close this offering and March 31, 2019. As of December 31, 2018, \$150,000 was outstanding under such promissory note.

In order to meet our working capital needs following the consummation of this offering, our founders, executive officers and directors may, but are not obligated to, loan us funds, from time to time or at any time, in whatever amount they deem reasonable in their sole discretion. Each loan would be evidenced by a promissory note. Up to \$1,500,000 of such loans may be convertible into additional units of the post-business combination entity at a price of \$10.00 per unit at the option of the lender. The units would be identical to the private units. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans.

The holders of our founder shares issued and outstanding on the date of this prospectus, as well as the holders of the private units and any units our sponsor, officers, directors or their affiliates may be issued in payment of working capital loans made to us (and all underlying securities), will be entitled to registration rights pursuant to an agreement to be signed prior to or on the effective date of this offering. The holders of a majority of these securities are entitled to make up to three demands that we register such securities. The holders of the majority of the founder shares can elect to exercise these registration rights at any time commencing three months prior to the date on which these shares of common stock are to be released from escrow. The holders of a majority of the founders' units or units issued in payment of working capital loans made to us (or underlying securities) can elect to exercise these registration rights at any time after we consummate a business combination. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the consummation of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements. Notwithstanding the foregoing, Cowen Investments may not exercise its demand and "piggyback" registration rights after five and seven years, respectively, after the effective date of the registration statement of which this prospectus forms a part and may not exercise its demand rights on more than one occasion.

An affiliate of our sponsor has agreed that, commencing on the effective date of this prospectus through the earlier of our consummation of our initial business combination or our liquidation, it will make available to us certain general and administrative services, including office space and general and administrative services, as we may require from time to time. We have agreed to pay an affiliate of our sponsor an aggregate of \$10,000 per month for these services.

Other than the foregoing, no compensation or fees of any kind, including finder's, consulting fees and other similar fees, will be paid to our sponsor, members of our management team or their respective affiliates, for services rendered prior to or in connection with the consummation of our initial business combination (regardless of the type of transaction that it is). However, such individuals will receive the repayment of any loans from our sponsor, officers and directors for working capital purposes and reimbursement for any out-of-pocket expenses incurred by them in connection with activities on our behalf, such as identifying potential target businesses, performing business due diligence on suitable target businesses and business combinations as well as traveling to and from the offices, plants or similar locations of prospective target businesses to examine their operations. There is no limit on the amount of out-of-pocket expenses reimbursable by us.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to stockholders, to the extent then known, in the proxy solicitation materials furnished to our stockholders. It is unlikely the amount of such compensation will be known at the time of a stockholder meeting held to consider an initial business combination, as it will be up to the directors of the post-combination business to determine executive and director compensation. In this event, such compensation will be publicly disclosed at the time of its determination in a Current Report on Form 8-K, as required by the SEC.

All ongoing and future transactions between us and any of our officers and directors or their respective affiliates will be on terms believed by us to be no less favorable to us than are available from unaffiliated third parties. Such transactions will require prior approval by a majority of our uninterested "independent" directors or the members of our board who do not have an interest in the transaction, in either case who had access, at our expense, to our attorneys or independent legal counsel. We will not enter into any such transaction unless our disinterested "independent" directors determine that the terms of such transaction are no less favorable to us than those that would be available to us with respect to such a transaction from unaffiliated third parties.

Related Party Policy

Our Code of Ethics requires us to avoid, wherever possible, all related party transactions that could result in actual or potential conflicts of interests, except under guidelines approved by the Board of Directors (or the audit committee). Related-party transactions are defined as transactions in which (1) the aggregate amount involved will or may be expected to exceed \$120,000 in any calendar year, (2) we or any of

our subsidiaries is a participant, and (3) any (a) executive officer, director or nominee for election as a director, (b) greater than 5% beneficial owner of our shares of common stock, or (c) immediate family member, of the persons referred to in clauses (a) and (b), has or will have a direct or indirect material interest (other than solely as a result of being a director or a less than 10% beneficial owner of another entity). A conflict of interest situation can arise when a person takes actions or has interests that may make it difficult to perform his or her work objectively and effectively. Conflicts of interest may also arise if a person, or a member of his or her family, receives improper personal benefits as a result of his or her position.

Our audit committee, pursuant to its written charter, will be responsible for reviewing and approving related-party transactions to the extent we enter into such transactions. The audit committee will consider all relevant factors when determining whether to approve a related party transaction, including whether the related party transaction is on terms no less favorable to us than terms generally available from an unaffiliated third-party under the same or similar circumstances and the extent of the related party's interest in the transaction. No director may participate in the approval of any transaction in which he is a related party, but that director is required to provide the audit committee with all material information concerning the transaction. We also require each of our directors and executive officers to complete a directors' and officers' questionnaire that elicits information about related party transactions.

These procedures are intended to determine whether any such related party transaction impairs the independence of a director or presents a conflict of interest on the part of a director, employee or officer.

To further minimize conflicts of interest, we have agreed not to consummate an initial business combination with an entity that is affiliated with any of our sponsor, officers or directors including (i) an entity that is either a portfolio company of, or has otherwise received a material financial investment from, any private equity fund or investment company (or an affiliate thereof) that is affiliated with any of the foregoing, (ii) an entity in which any of the foregoing or their affiliates are currently passive investors, (iii) an entity in which any of the foregoing or their affiliates are currently officers or directors, or (iv) an entity in which any of the foregoing or their affiliates are currently invested through an investment vehicle controlled by them, unless we have obtained an opinion from an independent investment banking firm, or another independent entity that commonly renders valuation opinions on the type of target business we are seeking to acquire, and the approval of a majority of our disinterested independent directors that the business combination is fair to our unaffiliated stockholders from a financial point of view.

DESCRIPTION OF SECURITIES

General

As of the date of this prospectus, we are authorized to issue 200,000,000 shares of common stock, par value \$0.0001 per share, and 5,000,000 shares of preferred stock, par value \$0.0001 per share. As of the date of this prospectus, 4,312,500 shares of common stock are outstanding. No shares of preferred stock are currently outstanding. The following description summarizes the material terms of our securities. Because it is only a summary, it may not contain all the information that is important to you. For a complete description you should refer to our amended and restated certificate of incorporation and the form of warrant agreement, which are filed as exhibits to the registration statement of which this prospectus is a part, and to the applicable provisions of Delaware law.

Units

Each unit consists of one share of common stock and one warrant to purchase one share of common stock for a price of \$11.50 per share of common stock, subject to adjustment as described in this prospectus. Holders will need to have their brokers contact our transfer agent in order to separate the units into shares of common stock and warrants. The warrants will become exercisable on the later of (a) 30 days after the completion of our initial business combination; and (b) 12 months from the closing of this offering. The warrants will expire at 5:00 p.m., New York City time, on the fifth anniversary of our completion of an initial business combination, or earlier upon redemption or liquidation; provided, however, that the private warrants issued to Cowen Investments will not be exercisable more than five years from the effective date of the registration statement of which this prospectus forms a part in accordance with FINRA Rule 5110(f)(2)(G)(i).

The shares of common stock and warrants will begin to trade separately on the 52nd day after the date of this prospectus unless Cowen informs us of its decision to allow earlier separate trading, provided that in no event may the shares of common stock and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds of this offering and we have issued a press release announcing when separate trading will begin. Once the shares of common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component pieces.

We will file a Current Report on Form 8-K which includes an audited balance sheet promptly upon the consummation of this offering. The audited balance sheet will reflect proceeds we receive from the exercise of the over-allotment option, if the over-allotment option is exercised on the date of this prospectus. If the over-allotment option is exercised after the date of this prospectus, we will file a subsequent Form 8-K to provide updated financial information to reflect the exercise of the over-allotment option. We will also include in this Form 8-K, an amendment thereto, or a subsequent Form 8-K information indicating if Cowen has allowed separate trading of the shares of common stock and warrants prior to the 52nd day after the date of this prospectus.

Common Stock

Prior to the date of this prospectus, there were 4,312,500 shares of our common stock outstanding. Our founders, executive officers and directors will own 20.0% of our issued and outstanding shares after this offering (excluding private shares and assuming they do not purchase any units in this offering). Upon the closing of this offering, 19,250,000 shares of our common stock will be outstanding (assuming no exercise of the underwriters' over-allotment option and the corresponding forfeiture of an aggregate of 562,500 founder shares).

Holders of record of our common stock are entitled to one vote for each share of our common stock held on all matters to be voted on by stockholders. Unless specified in our amended and restated certificate of incorporation, or as required by applicable provisions of the DGCL or applicable stock exchange rules, the affirmative vote of a majority of our shares of common stock that are voted is required to approve any such matter voted on by our stockholders. Our stockholders are entitled to receive ratable dividends when, as and if declared by the Board of Directors out of funds legally available therefor. We will consummate

our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and, solely if a vote is held to approve a business combination, a majority of the outstanding shares of common stock voted are voted in favor of the business combination.

Our Board of Directors is divided into two classes with only one class of directors being elected in each year and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a two-year term. The term of office of the first class of directors, consisting of General Kehler and Mr. Manvel, will expire at our first annual meeting of stockholders. The term of office of the second class of directors, consisting of Messrs. Zahler, Devabhaktuni and Pescatore, will expire at the second annual meeting of stockholders. We may not hold an annual meeting of stockholders until after we consummate our initial business combination (unless required by Nasdaq). There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the shares eligible to vote for the election of directors can elect all of the directors.

In accordance with Nasdaq corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on Nasdaq. Our fiscal year end will be on December 31. Under Section 211(b) of the DGCL, we are, however, required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our amended and restated certificate of incorporation unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price which is payable in cash and equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination, including interest (which interest shall be net of taxes payable by us) divided by the number of then outstanding public shares, subject to the limitations described in this prospectus. The amount in the trust account is initially anticipated to be approximately \$10.00 per public share. Our founders, executive officers, directors and director nominees have entered into letter agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares, private shares and public shares in connection with the completion of our business combination or any amendment to the provisions of our amended and restated certificate of incorporation relating to our pre-initial business combination activity and related stockholders' rights.

Unlike many blank check companies that hold stockholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of securities even when a vote is not required by law, if a stockholder vote is not required by law and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC, and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated certificate of incorporation requires these tender offer documents to contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the shares of common stock voting at a stockholder meeting are voted in favor of the business combination. However, the participation of our founders, officers, directors, advisors or their affiliates in privately-negotiated transactions (as described in this prospectus), if any, could result in the approval of our business combination even if a majority of our public stockholders vote, or indicate their intention to vote, against such business combination. For purposes of seeking approval of the majority of our outstanding

shares of common stock, non-votes will have no effect on the approval of our business combination once a quorum is obtained. We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our business combination.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in this offering. However, we would not be restricting our stockholders’ ability to vote all of their shares for or against our business combination.

If we seek stockholder approval in connection with our business combination, our founders have agreed to vote their founder shares, private shares and any public shares purchased during or after this offering in favor of our initial business combination. As a result, we would need only 5,375,001 of the 15,000,000 public shares, or approximately 35.8%, sold in this offering to be voted in favor of our initial business combination in order to have such transaction approved (assuming the over-allotment option is not exercised and all shares of our common stock are voted at the meeting). Additionally, each public stockholder may elect to redeem their public shares without voting, and, if they do vote, irrespective of whether they vote for or against the proposed transaction.

Pursuant to our amended and restated certificate of incorporation, if we are unable to complete our business combination within 21 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than 10 business days thereafter, subject to lawfully available funds therefor, redeem the public shares, at a per-share price which is payable in cash and equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable by us and up to \$100,000 of interest to pay dissolution expenses) divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our Board of Directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Our founders, executive officers, directors and director nominees have entered into a letter agreement with us, pursuant to which they have agreed to (1) waive their redemption rights with respect to any common stock held by them in connection with the completion of our initial business combination or any amendment to the provisions of our amended and restated certificate of incorporation relating to our pre-initial business combination activity and related stockholders’ rights and (2) waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our business combination within 21 months (or 24 months if we extend our time to complete a business combination as described in this prospectus) from the closing of this offering. However, if our founders, executive officers, directors or director nominees acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our business combination within the prescribed time frame.

In the event of a liquidation, dissolution or winding up of the company after a business combination, our stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of stock, if any, having preference over the common stock. Our stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock, except that we will provide our public stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable by us) upon the completion of our initial business combination, subject to the limitations described in this prospectus.

Warrants

No warrants are currently outstanding. Each warrant entitles the registered holder to purchase one share of our common stock at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing on the later of 12 months from the closing of this offering or 30 days after the completion of our initial business combination. The warrants will expire at 5:00 p.m., New York City time, on the fifth anniversary of our completion of an initial business combination, or earlier upon redemption or liquidation.

Holders of our public warrants cannot pay cash to exercise of their public warrants unless we have an effective and current registration statement covering the issuance of the shares underlying such warrants and a current prospectus relating thereto. Notwithstanding the foregoing, if a registration statement covering the issuance of the shares issuable upon exercise of the public warrants is not effective within 90 days from the closing of our initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we shall have failed to maintain an effective registration statement or a current prospectus, exercise warrants on a cashless basis pursuant to an available exemption from registration under the Securities Act. If an exemption from registration is not available, holders will not be able to exercise their warrants on a cashless basis. In no event will we be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under the Securities Act or applicable state securities laws. In addition, any private warrants held by Cowen Investments will not be exercisable more than five years from the effective date of the registration statement of which this prospectus forms a part.

The private warrants will be identical to the public warrants underlying the units being offered by this prospectus except that such private warrants will be exercisable for cash (even if a registration statement covering the issuance of the warrant shares issuable upon exercise of such warrants is not effective) or on a cashless basis, at the holder's option, and will not be redeemable by us, in each case so long as they are still held by the founders or their affiliates.

Once the warrants become exercisable, we may redeem the outstanding warrants (excluding the private warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption, which we refer to as the 30-day redemption period; and
- if, and only if, the last reported sale price of our common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30 trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

We will not redeem the warrants unless a registration statement under the Securities Act covering the issuance of the warrant shares underlying the warrants to be so redeemed is then effective and a current prospectus relating to those warrant shares is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

If the foregoing conditions are satisfied and we issue a notice of redemption, each warrant holder may exercise his, her or its warrants prior to the scheduled redemption date. However, the price of the shares of common stock may fall below the \$18.00 trigger price (as adjusted) as well as the \$11.50 exercise price (as adjusted) after the redemption notice is issued.

The redemption criteria for our warrants have been established at a price which is intended to provide warrant holders a reasonable premium to the initial exercise price and provide a sufficient differential between the then-prevailing share price and the exercise price so that if the share price declines as a result of our redemption call, the redemption will not cause the share price to drop below the exercise price of the warrants.

If we call the warrants for redemption as described above, our management will have the option to require all holders that wish to exercise warrants to do so on a “cashless basis.” In making such determination, our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of warrant shares issuable upon exercise of outstanding warrants. In such event, the holder would pay the exercise price by surrendering the warrants for that number of shares of common stock equal to the quotient obtained by dividing (x) the product of the number of warrant shares underlying the warrants to be so exercised, and the difference between the exercise price of the warrants and the fair market value by (y) the fair market value.

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person’s affiliates), to the warrant agent’s actual knowledge, would beneficially own in excess of 4.9% or 9.8% (or such other amount as a holder may specify) of the shares of common stock outstanding immediately after giving effect to such exercise.

If the number of outstanding shares of common stock is increased by a stock dividend payable in shares of common stock, or by a split-up of shares of common stock or other similar event, then, on the effective date of such stock dividend, split-up or similar event, the number of shares of common stock issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding shares of common stock. A rights offering to holders of common stock entitling holders to purchase shares of common stock at a price less than the fair market value will be deemed a stock dividend of a number of shares of common stock equal to the product of (i) the number of shares of common stock actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for common stock) multiplied by (ii) one (1) minus the quotient of (x) the price per share of common stock paid in such rights offering divided by (y) the fair market value. For these purposes (i) if the rights offering is for securities convertible into or exercisable for common stock, in determining the price payable for common stock, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) fair market value means the volume weighted average price of common stock as reported during the 10 trading day period ending on the trading day prior to the first date on which the shares of common stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to the holders of common stock on account of such shares of common stock (or other shares of our capital stock into which the warrants are convertible), other than (a) as described above, (b) certain ordinary cash dividends, (c) to satisfy the redemption rights of the holders of common stock in connection with a proposed initial business combination or the approval of any amendment to the provisions of our amended and restated certificate of incorporation our pre-initial business combination activity and related stockholders’ rights, including the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within the required time period, (d) as a result of the repurchase of shares of common stock by the Company if the proposed initial business combination is presented to the stockholders of the Company for approval, or (e) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each share of common stock in respect of such event.

If the number of outstanding shares of our common stock is decreased by a consolidation, combination, reverse stock split or reclassification of shares of common stock or other similar event, then, on the effective date of such consolidation, combination, reverse stock split, reclassification or similar

event, the number of shares of common stock issuable on exercise of each warrant will be decreased in proportion to such decrease in outstanding shares of common stock.

Whenever the number of shares of common stock purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of shares of common stock purchasable upon the exercise of the warrants immediately prior to such adjustment, and (y) the denominator of which will be the number of shares of common stock so purchasable immediately thereafter.

In case of any reclassification or reorganization of the outstanding shares of common stock (other than those described above or that solely affects the par value of such shares of common stock), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in which we are the continuing corporation and that does not result in any reclassification or reorganization of our outstanding shares of common stock), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of the shares of our common stock immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of shares of stock or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event. However, if such holders were entitled to exercise a right of election as to the kind or amount of securities, cash or other assets receivable upon such consolidation or merger, then the kind and amount of securities, cash or other assets for which each warrant will become exercisable will be deemed to be the weighted average of the kind and amount received per share by such holders in such consolidation or merger that affirmatively make such election, and if a tender, exchange or redemption offer has been made to and accepted by such holders (other than a tender, exchange or redemption offer made by the company in connection with redemption rights held by stockholders of the company as provided for in our amended and restated certificate of incorporation or as a result of the repurchase of shares of common stock by the company if a proposed initial business combination is presented to the stockholders of the company for approval) under circumstances in which, upon completion of such tender or exchange offer, the maker thereof, together with members of any group (within the meaning of Rule 13d-5(b)(1) under the Exchange Act) of which such maker is a part, and together with any affiliate or associate of such maker (within the meaning of Rule 12b-2 under the Exchange Act) and any members of any such group of which any such affiliate or associate is a part, own beneficially (within the meaning of Rule 13d-3 under the Exchange Act) more than 50% of the outstanding shares of common stock, the holder of a warrant will be entitled to receive the highest amount of cash, securities or other property to which such holder would actually have been entitled as a stockholder if such warrant holder had exercised the warrant prior to the expiration of such tender or exchange offer, accepted such offer and all of the common stock held by such holder had been purchased pursuant to such tender or exchange offer, subject to adjustments (from and after the consummation of such tender or exchange offer) as nearly equivalent as possible to the adjustments provided for in the warrant agreement. Additionally, if less than 70% of the consideration receivable by the holders of common stock in such a transaction is payable in the form of common stock in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within 30 days following public disclosure of such transaction, the warrant exercise price will be reduced as specified in the warrant agreement based on the per share consideration minus Black-Scholes Warrant Value (as defined in the warrant agreement) of the warrant in order to determine and realize the option value component of the warrant. This formula is to compensate the warrant holder for the loss of the option value portion of the warrant due to the requirement that the warrant holder exercise the warrant within 30 days of the event. The Black-Scholes model is an accepted pricing model for estimating fair market value where no quoted market price for an instrument is available.

The warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. You should review a copy of the warrant agreement,

which will be filed as an exhibit to the registration statement of which this prospectus is a part, for a complete description of the terms and conditions applicable to the warrants. The warrant agreement will provide that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 65% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price (or on a cashless basis, if applicable), by certified or official bank check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of common stock and any voting rights until they exercise their warrants and receive shares of common stock. After the issuance of shares of common stock upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by stockholders.

Preferred Stock

There are no shares of preferred stock outstanding. Our amended and restated certificate of incorporation will authorize the issuance of 5,000,000 shares of preferred stock with such designation, rights and preferences as may be determined from time to time by our Board of Directors. No shares of preferred stock are being issued or registered in this offering. Accordingly, our Board of Directors is empowered, without stockholder approval, to issue preferred stock with dividend, liquidation, conversion, voting or other rights which could adversely affect the voting power or other rights of the holders of common stock. However, the underwriting agreement prohibits us, prior to a business combination, from issuing preferred stock which participates in any manner in the proceeds of the trust account, or which votes as a class with the common stock on a business combination. We may issue some or all of the preferred stock to effect a business combination. In addition, the preferred stock could be utilized as a method of discouraging, delaying or preventing a change in control of us. Although we do not currently intend to issue any shares of preferred stock, we cannot assure you that we will not do so in the future.

Dividends

We have not paid any cash dividends on our shares of common stock to date and do not intend to pay cash dividends prior to the completion of a business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of a business combination. The payment of any dividends subsequent to a business combination will be within the discretion of our then Board of Directors. It is the present intention of our Board of Directors to retain all earnings, if any, for use in our business operations and, accordingly, our board does not anticipate declaring any dividends in the foreseeable future.

Our Transfer Agent and Warrant Agent

The transfer agent for our securities and warrant agent for our warrants is Continental Stock Transfer & Trust Company.

Listing of Securities

We anticipate that the units, as well as the shares of common stock and warrants underlying the units (once they begin separate trading), will be listed on Nasdaq under the symbols "MNCLU," "MNCL" and "MNCLW," respectively.

Certain Anti-Takeover Provisions of Delaware Law and our Amended and Restated Certificate of Incorporation

Special meeting of stockholders

Our amended and restated certificate of incorporation will provide that special meetings of our stockholders may be called only by a majority vote of our Board of Directors, by our Chief Executive Officer or by our Chairman.

Advance notice requirements for stockholder proposals and director nominations

Our bylaws will provide that stockholders seeking to bring business before our annual meeting of stockholders, or to nominate candidates for election as directors at our annual meeting of stockholders, must provide timely notice of their intent in writing. To be timely, a stockholder's notice will need to be received by the company secretary at our principal executive offices not later than the close of business on the 90th day nor earlier than the open of business on the 120th day prior to the anniversary date of the immediately preceding annual meeting of stockholders. Pursuant to Rule 14a-8 of the Exchange Act, proposals seeking inclusion in our annual proxy statement must comply with the notice periods contained therein. Our amended and restated certificate of incorporation will also specify certain requirements as to the form and content of a stockholders' meeting. These provisions may preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders.

Authorized but unissued shares

Our authorized but unissued common stock and preferred stock are available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Exclusive Forum Selection

Our amended and restated certificate of incorporation will require, to the fullest extent permitted by law, that derivative actions brought in our name, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel; provided that the exclusive forum provision will not apply to (i) suits brought to enforce any liability or duty created by the Exchange Act, (ii) any other claim for which the federal courts have exclusive jurisdiction, (iii) any claim as to which the Court of Chancery determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (iv) any claim which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, or (v) any claim for which the Court of Chancery does not have subject matter jurisdiction. Furthermore, our amended and restated certificate of incorporation will also provide that unless we consent in writing to the selection of an alternative forum, the federal district courts of the United States shall be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act. Although we believe this provision benefits our company by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, a court may determine that this provision is unenforceable, and to the extent it is enforceable, the provision may have the effect of discouraging lawsuits against our directors and officers, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder.

Section 203 of the Delaware General Corporation Law

We have opted out of Section 203 of the DGCL. However, our amended and restated certificate of incorporation contains similar provisions providing that we may not engage in certain "business combinations" with any "interested stockholder" for a three-year period following the time that the stockholder became an interested stockholder, unless:

- prior to such time, our board of directors approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, excluding certain shares; or

- at or subsequent to that time, the business combination is approved by our board of directors and by the affirmative vote of holders of at least 66 $\frac{2}{3}$ % of the outstanding voting stock that is not owned by the interested stockholder.

Generally, a “business combination” includes a merger, asset or stock sale or certain other transactions resulting in a financial benefit to the interested stockholder. Subject to certain exceptions, an “interested stockholder” is a person who, together with that person’s affiliates and associates, owns, or within the previous three years owned, 15% or more of our voting stock.

Under certain circumstances, this provision will make it more difficult for a person who would be an “interested stockholder” to effect various business combinations with a corporation for a three-year period. This provision may encourage companies interested in acquiring our company to negotiate in advance with our board of directors because the stockholder approval requirement would be avoided if our board of directors approves either the business combination or the transaction which results in the stockholder becoming an interested stockholder. These provisions also may have the effect of preventing changes in our board of directors and may make it more difficult to accomplish transactions which stockholders may otherwise deem to be in their best interests.

Our amended and restated certificate of incorporation provides that our sponsor and its respective affiliates, any of their respective direct or indirect transferees of at least 15% of our outstanding common stock and any group as to which such persons are party to, do not constitute “interested stockholders” for purposes of this provision.

Our amended and restated certificate of incorporation will provide that our board of directors will be classified into two classes of directors. As a result, in most circumstances, a person can gain control of our board only by successfully engaging in a proxy contest at two or more annual meetings.

Our authorized but unissued common stock and preferred stock are available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Limitation on Liability and Indemnification of Directors and Officers

Our amended and restated certificate of incorporation will provide that our directors and officers will be indemnified by us to the fullest extent authorized by Delaware law as it now exists or may in the future be amended. In addition, our amended and restated certificate of incorporation will provide that our directors will not be personally liable for monetary damages to us for breaches of their fiduciary duty as directors, unless they violated their duty of loyalty to us or our stockholders, acted in bad faith, knowingly or intentionally violated the law, authorized unlawful payments of dividends, unlawful stock purchases or unlawful redemptions, or derived an improper personal benefit from their actions as directors.

Our bylaws also will permit us to secure insurance on behalf of any officer, director or employee for any liability arising out of his or her actions, regardless of whether Delaware law would permit indemnification. We will purchase a policy of directors’ and officers’ liability insurance that insures our directors and officers against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify the directors and officers.

These provisions may discourage stockholders from bringing a lawsuit against our directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. Furthermore, a stockholder’s investment may be adversely affected to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions. We believe that these provisions, the insurance and the indemnity agreements are necessary to attract and retain talented and experienced directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

SECURITIES ELIGIBLE FOR FUTURE SALE

Immediately after this offering we will have 19,250,000 (or 22,107,500 if the over-allotment option is exercised in full) shares of common stock outstanding. Of these shares, the 15,000,000 (or 17,250,000 if the over-allotment option is exercised in full) shares sold in this offering will be freely tradable without restriction or further registration under the Securities Act, except for any shares purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the 3,750,000 founder shares (or 4,312,500 if the over-allotment option is exercised in full) and 500,000 (or 545,000 if the over-allotment option is exercised in full) private shares are restricted securities under Rule 144, in that they were issued in private transactions not involving a public offering.

Rule 144

Pursuant to Rule 144, a person who has beneficially owned restricted securities for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale and have filed all required reports under Section 13 or 15(d) of the Exchange Act during the 12 months (or such shorter period as we were required to file reports) preceding the sale.

Persons who have beneficially owned restricted shares of common stock and warrants for at least six months but who are our affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of shares of our common stock then outstanding, which will equal 192,500 shares immediately after this offering (or 221,075 if the underwriters exercise their over-allotment option in full); or
- the average weekly reported trading volume of shares of our common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Current Reports on Form 8-K; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, our founders will be able to sell their founder shares and private units, as applicable, pursuant to Rule 144 without registration one year after we have completed our initial business combination.

Registration Rights

Pursuant to an agreement to be entered into on the date of this prospectus, our founders, executive officers, directors and director nominees and their permitted transferees can demand that we register for resale the founder shares, the private units and underlying securities and any securities issued upon conversion of working capital loans. The holders of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the consummation of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements. Notwithstanding the foregoing, Cowen Investments may not exercise its demand and “piggyback” registration rights after five and seven years, respectively, after the effective date of the registration statement of which this prospectus forms a part and may not exercise its demand rights on more than one occasion.

U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a summary of U.S. federal income tax considerations generally applicable to the acquisition, ownership and disposition of our units or components thereof, which we refer to collectively as our securities, assuming you purchase the securities in this offering and will hold them as capital assets within the meaning of the Internal Revenue Code of 1986, as amended (the “Code”).

This discussion assumes that the one share of our common stock and warrants to acquire one share of our common stock will each trade separately and does not address all of the U.S. federal income and estate tax considerations that may be relevant to you in light of your particular circumstances. In particular, it does not describe all of the tax consequences that may be relevant to persons subject to special rules, such as:

- certain financial institutions;
- insurance companies;
- dealers and traders in securities or foreign currencies;
- persons holding our securities as part of a hedge, straddle, conversion transaction or other integrated transaction;
- former citizens or residents of the United States;
- U.S. persons whose functional currency for U.S. federal income tax purposes is not the U.S. dollar;
- partnerships or other entities or arrangements classified as partnerships for U.S. federal income tax purposes;
- persons liable for the alternative minimum tax;
- persons subject to the Medicare tax on unearned income; and
- tax-exempt organizations.

The following does not discuss any aspect of state, local or non-U.S. taxation. This discussion is based on current provisions of the Code, Treasury regulations, judicial opinions, published positions of the U.S. Internal Revenue Service (“IRS”) and all other applicable authorities, all of which are subject to change, possibly with retroactive effect.

If an entity or arrangement that is treated as a partnership for U.S. federal income tax purposes holds our securities, the tax treatment of a partner will generally depend on the status of the partner and the activities of the entity. If you are a partner in such an entity, you should consult your tax advisor.

WE URGE PROSPECTIVE INVESTORS TO CONSULT THEIR TAX ADVISORS REGARDING THE U.S. FEDERAL, STATE, LOCAL AND NON-U.S. INCOME, ESTATE AND OTHER TAX CONSIDERATIONS WITH RESPECT TO ACQUIRING, HOLDING AND DISPOSING OF OUR SECURITIES.

Personal Holding Company Status

We could be subject to United States federal income tax at rates in excess of those generally applicable to corporations on a portion of our income if we are determined to be a personal holding company, or PHC, for United States federal income tax purposes. A U.S. corporation will generally be classified as a PHC for United States federal income tax purposes in a given taxable year if (i) at any time during the last half of such taxable year, five or fewer individuals (without regard to their citizenship or residency and including as individuals for this purpose certain entities such as certain tax-exempt organizations, pension funds, and charitable trusts) own or are deemed to own (pursuant to certain constructive ownership rules) more than 50% of the stock of the corporation by value and (ii) at least 60% of the corporation’s adjusted ordinary gross income, as determined for U.S. federal income tax purposes, for such taxable year consists of PHC income (which includes, among other things, dividends, interest, certain royalties, annuities and, under certain circumstances, rents).

Depending on the date and size of our initial business combination, it is possible that at least 60% of our adjusted ordinary gross income may consist of PHC income as discussed above. In addition, depending on the concentration of our stock in the hands of individuals, including the members of our sponsor and certain tax-exempt organizations, pension funds, and charitable trusts, it is possible that more than 50% of our stock will be owned or deemed owned (pursuant to the constructive ownership rules) by such persons during the last half of a taxable year. Thus, no assurance can be given that we will not become a PHC following this offering or in the future. If we are or were to become a PHC in a given taxable year, we would be subject to an additional PHC tax, currently 20%, on our undistributed taxable income, subject to certain adjustments.

Allocation of Purchase Price and Characterization of a Unit

No statutory, administrative or judicial authority directly addresses the treatment of a unit or instruments similar to a unit for U.S. federal income tax purposes and, therefore, that treatment is not entirely clear. The acquisition of a unit should be treated for U.S. federal income tax purposes as the acquisition of one share of our common stock and one warrant to purchase one share of common stock. We intend to treat the acquisition of a unit in this manner and, by purchasing a unit, you agree to adopt such treatment for tax purposes. Each holder of a unit must allocate the purchase price paid by such holder for such unit between the one share of common stock and one warrant based on the relative fair market value of each at the time of issuance. The price allocated to each share of common stock and the warrant should be the stockholder's tax basis in such share or warrant, as the case may be. Any disposition of a unit should be treated for U.S. federal income tax purposes as a disposition of one share of common stock and one warrant comprising the unit, and the amount realized on the disposition should be allocated between the share of common stock and the warrant based on their respective relative fair market values. The separation of the share of common stock and one warrant comprising a unit should not be a taxable event for U.S. federal income tax purposes.

The foregoing treatment of the shares of common stock and warrants and a holder's purchase price allocation are not binding on the IRS or the courts. Because there are no authorities that directly address instruments that are similar to the units, no assurance can be given that the IRS or the courts will agree with the characterization described above or the discussion below. Accordingly, each prospective investor is urged to consult its own tax advisors regarding the tax consequences of an investment in a unit (including alternative characterizations of a unit). The balance of this discussion assumes that the characterization of the units described above is respected for U.S. federal income tax purposes.

U.S. Holders

This section is addressed to U.S. holders of our securities. For purposes of this discussion, you are a "U.S. holder" if you are a beneficial owner of a security that is:

- an individual citizen or resident of the United States for U.S. federal income tax purposes;
- a corporation, or other entity taxable as a corporation, created or organized in, or under the laws of, the United States or any state thereof or the District of Columbia;
- an estate the income of which is includible in gross income for United States federal income tax purposes regardless of its source; or
- a trust (A) the administration of which is subject to the primary supervision of a United States court and which has one or more United States persons (within the meaning of the Code) who have the authority to control all substantial decisions of the trust or (B) that has in effect a valid election under applicable Treasury regulations to be treated as a United States person.

Taxation of Distributions

If we pay distributions to U.S. holders of shares of our common stock, such distributions generally will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of current and accumulated earnings and profits will constitute a return of capital that will be

applied against and reduce (but not below zero) the U.S. holder's adjusted tax basis in our common stock. Any remaining excess will be treated as gain realized on the sale or other disposition of the common stock and will be treated as described under "*U.S. Holders — Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Common Stock and Warrants*" below.

Dividends we pay to a U.S. holder that is a taxable corporation generally will qualify for the dividends received deduction if the requisite holding period is satisfied. With certain exceptions (including, but not limited to, dividends treated as investment income for purposes of investment interest deduction limitations), and provided certain holding period requirements are met, dividends we pay to a non-corporate U.S. holder generally will constitute "qualified dividends" that will be subject to tax at the maximum tax rate accorded to long-term capital gains. It is unclear whether the redemption rights with respect to the common stock described in this prospectus may prevent a U.S. holder from satisfying the applicable holding period requirements with respect to the dividends received deduction or the preferential tax rate on qualified dividend income, as the case may be. If the holding period requirements are not satisfied, then a corporation may not be able to qualify for the dividends received deduction and would have taxable income equal to the entire dividend amount, and non-corporate holders may be subject to tax on such dividend at regular ordinary income tax rates instead of the preferential rate that applies to qualified dividend income.

Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Common Stock and Warrants

Upon a sale or other taxable disposition of our common stock or warrants which may include a redemption of common stock or warrants as described below, and including as a result of a dissolution and liquidation in the event we do not consummate an initial business combination within the required time period, a U.S. holder generally will recognize capital gain or loss in an amount equal to the difference between the amount realized and the U.S. holder's adjusted tax basis in the common stock or warrants. Any such capital gain or loss generally will be long-term capital gain or loss if the U.S. holder's holding period for the common stock or warrants so disposed of exceeds one year. It is unclear, however, whether the redemption rights with respect to the common stock described in this prospectus may suspend the running of the applicable holding period for this purpose. If the running of the holding period is suspended, then non-corporate U.S. holders may not be able to satisfy the one-year holding period requirement for long-term capital gain treatment, in which case any gain on a sale or taxable disposition of the shares or warrants would be subject to short-term capital gain treatment and would be taxed at regular ordinary income tax rates. Long-term capital gains recognized by non-corporate U.S. holders will be eligible to be taxed at reduced rates. The deductibility of capital losses is subject to limitations.

Generally, the amount of gain or loss recognized by a U.S. holder in any such taxable transaction is an amount equal to the difference between (i) the sum of the amount of cash and the fair market value of any property received in such disposition (or, if the common stock or warrants are held as part of units at the time of the disposition, the portion of the amount realized on such disposition that is allocated to the common stock or the warrants based upon the then fair market values of the common stock and the warrants included in the units) and (ii) the U.S. holder's adjusted tax basis in its common stock or warrants so disposed of. A U.S. holder's adjusted tax basis in its common stock or warrants generally will equal the U.S. holder's acquisition cost (that is, as discussed above, the portion of the purchase price of a unit allocated to a share of common stock or warrant or, as discussed below, the U.S. holder's initial basis for common stock received upon exercise of warrants) less, in the case of a share of common stock, any prior distributions treated as a return of capital.

Redemption of common stock

In the event that a U.S. holder's common stock is redeemed pursuant to the redemption provisions described in this prospectus under "*Description of Securities — common stock*" or if we purchase a U.S. holder's common stock in an open market transaction, the treatment of the transaction for U.S. federal income tax purposes will depend on whether the redemption qualifies as sale of the common stock under Section 302 of the Code. If the redemption qualifies as a sale of common stock, the U.S. holder will be treated as described under "*U.S. Holders — Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of common stock and Warrants*" above. If the redemption does not qualify as a sale of common

stock, the U.S. holder will be treated as receiving a corporate distribution with the tax consequences described above under “*U.S. Holders — Taxation of Distributions*”. Whether a redemption qualifies for sale treatment will depend largely on the total number of shares of our stock treated as held by the U.S. holder (including any stock constructively owned by the U.S. holder as a result of owning warrants) relative to all of our shares outstanding both before and after the redemption. The redemption of common stock generally will be treated as a sale of the common stock (rather than as a corporate distribution) if the redemption (i) is “substantially disproportionate” with respect to the U.S. holder, (ii) results in a “complete termination” of the U.S. holder’s interest in us or (iii) is “not essentially equivalent to a dividend” with respect to the U.S. holder. These tests are explained more fully below.

In determining whether any of the foregoing tests are satisfied, a U.S. holder takes into account not only stock actually owned by the U.S. holder, but also shares of our stock that are constructively owned by such U.S. holder. A U.S. holder may constructively own, in addition to stock owned directly, stock owned by certain related individuals and entities in which the U.S. holder has an interest or that have an interest in such U.S. holder, as well as any stock the U.S. holder has a right to acquire by exercise of an option, which would generally include common stock which could be acquired pursuant to the exercise of the warrants. In order to meet the substantially disproportionate test, the percentage of our outstanding voting stock actually and constructively owned by the U.S. holder immediately following the redemption of common stock must, among other requirements, be less than 80% of the percentage of our outstanding voting stock actually and constructively owned by the U.S. holder immediately before the redemption. There will be a complete termination of a U.S. holder’s interest if either (i) all of the shares of our stock actually and constructively owned by the U.S. holder are redeemed or (ii) all of the shares of our stock actually owned by the U.S. holder are redeemed and the U.S. holder is eligible to waive, and effectively waives in accordance with specific rules, the attribution of stock owned by certain family members and the U.S. holder does not constructively own any other stock. The redemption of the common stock will not be essentially equivalent to a dividend if a U.S. holder’s conversion results in a “meaningful reduction” of the U.S. holder’s proportionate interest in us. Whether the redemption will result in a meaningful reduction in a U.S. holder’s proportionate interest in us will depend on the particular facts and circumstances. However, the IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a small minority stockholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a “meaningful reduction.” A U.S. holder should consult with its own tax advisors as to the tax consequences of a redemption, including the application of the constructive ownership rules described above.

If none of the foregoing tests is satisfied, then the redemption will be treated as a corporate distribution and the tax effects will be as described under “*U.S. Holders — Taxation of Distributions*,” above. After the application of those rules, any remaining tax basis of the U.S. holder in the redeemed common stock should be added to the U.S. holder’s adjusted tax basis in its remaining stock, or, if it has none, to the U.S. holder’s adjusted tax basis in its warrants or possibly in other stock constructively owned by it.

Exercise or Lapse of a Warrant.

Except as discussed below with respect to the cashless exercise of a warrant, a U.S. holder generally will not recognize taxable gain or loss on the acquisition of common stock upon exercise of a warrant for cash. The U.S. holder’s tax basis in the share of our common stock received upon exercise of the warrant generally will be an amount equal to the sum of the U.S. holder’s initial investment in the warrant (i.e., the portion of the U.S. holder’s purchase price for a unit that is allocated to the warrant, as described above under “— *Allocation of Purchase Price and Characterization of a Unit*”) and the exercise price of such warrant. The U.S. holder’s holding period for the common stock received upon exercise of the warrants will begin on the date following the date of exercise (or possibly the date of exercise) of the warrants and will not include the period during which the U.S. holder held the warrants. If a warrant is allowed to lapse unexercised, a U.S. holder generally will recognize a capital loss equal to such holder’s tax basis in the warrant.

The tax consequences of a cashless exercise of a warrant are not clear under current tax law. A cashless exercise may be tax-free, either because the exercise is not a realization event or because the exercise is treated as a recapitalization for U.S. federal income tax purposes. In either tax-free situation, a U.S. holder’s

basis in the common stock received would equal the holder's basis in the warrant. If the cashless exercise were treated as not being a realization event, a U.S. holder's holding period in the common stock would be treated as commencing on the date following the date of exercise (or possibly the date of exercise) of the warrant. If the cashless exercise were treated as a recapitalization, the holding period of the common stock would include the holding period of the warrant.

It is also possible that a cashless exercise could be treated as a taxable exchange in which gain or loss would be recognized. In such event, a U.S. holder would be deemed to have surrendered warrants equal to the number of shares of common stock having a value equal to the exercise price for the total number of warrants to be exercised. The U.S. holder would recognize capital gain or loss in an amount equal to the difference between the fair market value of the common stock represented by the warrants deemed surrendered and the U.S. holder's tax basis in the warrants deemed surrendered. In this case, a U.S. holder's tax basis in the common stock received would equal the sum of the U.S. holder's initial investment in the warrants exercised (i.e., the portion of the U.S. holder's purchase price for a unit that is allocated to the warrant, as described above under "*Allocation of Purchase Price and Characterization of a Unit*") and the exercise price of such warrants. A U.S. holder's holding period for the common stock would commence on the date following the date of exercise (or possibly the date of exercise) of the warrant.

Due to the absence of authority on the U.S. federal income tax treatment of a cashless exercise, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, U.S. holders should consult their tax advisors regarding the tax consequences of a cashless exercise.

Possible Constructive Distributions

The terms of each warrant provide for an adjustment to the number of shares of common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus captioned "*Description of Securities — Warrants*." An adjustment which has the effect of preventing dilution generally is not taxable. The U.S. holders of the warrants would, however, be treated as receiving a constructive distribution from us if, for example, the adjustment to the number of such shares or to such exercise price increases the warrant holders' proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of shares of common stock that would be obtained upon exercise or through a decrease in the exercise price of the warrant) as a result of a distribution of cash or other property, such as other securities, to the holders of shares of our common stock, or as a result of the issuance of a stock dividend to holders of shares of our common stock, in each case which is taxable to the U.S. holders of such shares as described under "*U.S. Holders — Taxation of Distributions*" above. Such constructive distribution would be subject to tax as described under that section in the same manner as if the U.S. holders of the warrants received a cash distribution from us equal to the fair market value of such increased interest.

Information Reporting and Backup Withholding

In general, information reporting requirements may apply to dividends paid to a U.S. holder and to the proceeds of the sale or other disposition of our units, shares of common stock and warrants, unless the U.S. holder is an exempt recipient. Backup withholding may apply to such payments if the U.S. holder fails to provide a taxpayer identification number, a certification of exempt status or has been notified by the IRS that it is subject to backup withholding (and such notification has not been withdrawn).

Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a U.S. holder's U.S. federal income tax liability provided the required information is timely furnished to the IRS.

All U.S. holders should consult their tax advisors regarding the application of information reporting and backup withholding rules to them.

Non-U.S. Holders

This section applies to you if you are a “Non-U.S. holder.” A Non-U.S. holder is a beneficial owner of our units, shares of common stock and warrants who or that is, for U.S. federal income tax purposes:

- a non resident alien individual, other than certain former citizens and residents of the United States subject to U.S. tax as expatriates;
- a foreign corporation; or
- an estate or trust that is not a U.S. holder;

but does not include an individual who is present in the United States for 183 days or more in the taxable year of disposition. If you are such an individual, you should consult your tax advisor regarding the U.S. federal income tax consequences of the sale or other disposition of a security.

Taxation of Distributions

In general, any distributions we make to a Non-U.S. holder of shares of our common stock, to the extent paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles), will constitute dividends for U.S. federal income tax purposes; provided, that, such dividends are not effectively connected with the Non-U.S. holder’s conduct of a trade or business within the United States, we will be required to withhold tax from the gross amount of the dividend at a rate of 30%, unless such Non-U.S. holder is eligible for a reduced rate of withholding tax under an applicable income tax treaty and provides proper certification of its eligibility for such reduced rate (usually on an IRS Form W-8BEN or W-8BEN-E). In the case of any constructive dividend, it is possible that this tax would be withheld from any amount owed to a Non-U.S. holder by the applicable withholding agent, including cash distributions on other property or sale proceeds from warrants or other property subsequently paid or credited to such Non-U.S. holder. Any distribution not constituting a dividend will be treated first as reducing (but not below zero) the Non-U.S. holder’s adjusted tax basis in its shares of our common stock and, to the extent such distribution exceeds the Non-U.S. holder’s adjusted tax basis, as gain realized from the sale or other disposition of the common stock, which will be treated as described under “*Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Common Stock and Warrants*” below. In addition, if we determine that we are likely to be classified as a “United States real property holding corporation” (see “*Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Common Stock and Warrants*” below), we will withhold 15% of any distribution that exceeds our current and accumulated earnings and profits.

Dividends we pay to a Non-U.S. holder that are effectively connected with such Non-U.S. holder’s conduct of a trade or business within the United States (or if a tax treaty applies are attributable to a U.S. permanent establishment or fixed base maintained by the Non-U.S. holder) will generally not be subject to U.S. withholding tax, provided such Non-U.S. holder complies with certain certification and disclosure requirements (usually by providing an IRS Form W-8ECI). Instead, such dividends will generally be subject to U.S. federal income tax, net of certain deductions, at the same graduated individual or corporate rates applicable to U.S. holders. If the non-U.S. holder is a corporation, dividends that are effectively connected income may also be subject to a “branch profits tax” at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty).

Exercise or Lapse of a Warrant

The U.S. federal income tax treatment of a Non-U.S. holder’s exercise of a warrant, or the lapse of a warrant held by a Non-U.S. holder, generally will correspond to the U.S. federal income tax treatment of the exercise or lapse of a warrant by a U.S. holder, as described under “*U.S. Holders — Exercise or Lapse of a Warrant*” above, although to the extent a cashless exercise results in a taxable exchange, the consequences would be similar to those described below in “*Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Common Stock and Warrants*.”

Gain on Sale, Taxable Exchange or Other Taxable Disposition of Common Stock and Warrants

A Non-U.S. holder generally will not be subject to U.S. federal income or withholding tax in respect of gain recognized on a sale, taxable exchange or other taxable disposition of our common stock, which would include a dissolution and liquidation in the event we do not complete an initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering, or warrants (including an expiration or redemption of our warrants), in each case without regard to whether those securities were held as part of a unit, unless:

- the gain is effectively connected with the conduct of a trade or business by the Non-U.S. holder within the United States (and, under certain income tax treaties, is attributable to a United States permanent establishment or fixed base maintained by the Non-U.S. holder); or
- we are or have been a “United States real property holding corporation” for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition or the period that the Non-U.S. holder held our common stock, and, in the case where shares of our common stock are regularly traded on an established securities market, the Non-U.S. holder has owned, directly or constructively, more than 5% of our common stock at any time within the shorter of the five-year period preceding the disposition or such Non-U.S. holder’s holding period for the shares of our common stock. There can be no assurance that our common stock will be treated as regularly traded on an established securities market for this purpose.

Unless an applicable treaty provides otherwise, gain described in the first bullet point above will be subject to tax at generally applicable U.S. federal income tax rates as if the Non-U.S. holder were a U.S. resident. Any gains described in the first bullet point above of a Non-U.S. holder that is a foreign corporation may also be subject to an additional “branch profits tax” at a 30% rate (or lower treaty rate).

If the second bullet point above applies to a Non-U.S. holder, gain recognized by such holder on the sale, exchange or other disposition of our common stock or warrants will be subject to tax at generally applicable U.S. federal income tax rates. In addition, a buyer of our common stock or warrants from such holder may be required to withhold U.S. federal income tax at a rate of 15% of the amount realized upon such disposition. We cannot determine whether we will be a United States real property holding corporation in the future until we complete an initial business combination. We will be classified as a United States real property holding corporation if the fair market value of our “U.S. real property interests” equals or exceeds 50% of the sum of the fair market value of our worldwide real property interests plus our other assets used or held for use in a trade or business, as determined for U.S. federal income tax purposes.

Redemption of Common Stock

The characterization for U.S. federal income tax purposes of the redemption of a Non-U.S. holder’s common stock pursuant to the redemption provisions described in this prospectus under “*Description of Securities — common stock*” generally will correspond to the U.S. federal income tax characterization of such a redemption of a U.S. holder’s common stock, as described under “*U.S. Holders — Redemption of Common Stock*” above, and the consequences of the redemption to the Non-U.S. holder will be as described above under “*Non-U.S. Holders — Taxation of Distributions*” and “*Non-U.S. Holders — Gain on Sale, Taxable Exchange or Other Taxable Disposition of Common Stock and Warrants,*” as applicable.

Possible Constructive Distributions

The terms of each warrant provide for an adjustment to the number of shares of common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus captioned “*Description of Securities — Redeemable Warrants — Public Stockholders’ Warrants*” An adjustment which has the effect of preventing dilution is generally not a taxable event. Nevertheless, a Non-U.S. holder of warrants would be treated as receiving a constructive distribution from us if, for example, the adjustment increases the holder’s proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of shares of common stock that would be obtained upon exercise) as a result of a distribution of cash to the holders of shares of our common stock which is taxable to such Non-U.S. holders as described under “*Non-U.S. Holders —*

Taxation of Distributions” above. A Non-U.S. holder would be subject to U.S. federal income tax withholding under that section in the same manner as if such Non-U.S. holder received a cash distribution from us equal to the fair market value of such increased interest without any corresponding receipt of cash.

Information Reporting and Backup Withholding

In general, information returns will be filed with the IRS in connection with payments of dividends and the proceeds from a sale or other disposition of our units, shares of common stock and warrants. A Non-U.S. holder may have to comply with certification procedures to establish that it is not a United States person in order to avoid information reporting and backup withholding requirements. The certification procedures required to claim a reduced rate of withholding under a treaty will generally satisfy the certification requirements necessary to avoid the backup withholding as well. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a Non-U.S. holder will be allowed as a credit against such holder’s U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is timely furnished to the Internal Revenue Service.

All Non-U.S. holders should consult their tax advisors regarding the application of information reporting and backup withholding rules to them.

FATCA Withholding Taxes

Sections 1471 through 1474 of the Code and the Treasury Regulations and administrative guidance promulgated thereunder (commonly referred as the “*Foreign Account Tax Compliance Act*” or “*FATCA*”) generally impose withholding at a rate of 30% in certain circumstances on dividends in respect of, and, after December 31, 2018, gross proceeds from the sale or other disposition of, our securities which are held by or through certain foreign financial institutions (including investment funds), unless any such institution (1) enters into, and complies with, an agreement with the IRS to report, on an annual basis, information with respect to interests in, and accounts maintained by, the institution that are owned by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments, or (2) if required under an intergovernmental agreement between the United States and an applicable foreign country, reports such information to its local tax authority, which will exchange such information with the U.S. authorities. An intergovernmental agreement between the United States and an applicable foreign country may modify these requirements. Accordingly, the entity through which our securities are held will affect the determination of whether such withholding is required. Similarly, dividends in respect of, and, after December 31, 2018, gross proceeds from the sale or other disposition of, our securities held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exceptions will generally be subject to withholding at a rate of 30%, unless such entity either (1) certifies to us or the applicable withholding agent that such entity does not have any “substantial United States owners” or (2) provides certain information regarding the entity’s “substantial United States owners,” which will in turn be provided to the U.S. Department of Treasury. All prospective investors should consult their tax advisors regarding the possible implications of FATCA on their investment in our securities.

UNDERWRITING

We are offering the units described in this prospectus through the underwriters named below. Cowen is acting as representative of the underwriters named below. We have entered into an underwriting agreement with the representative. Subject to the terms and conditions of the underwriting agreement, each of the underwriters has severally agreed to purchase, on a firm commitment basis, and we have agreed to sell to the underwriters, the number of units listed next to its name in the following table.

Underwriter	Number of Units
Cowen and Company, LLC	
Chardan Capital Markets, LLC	
Total	15,000,000

The underwriting agreement provides that the underwriters must buy all of the units if they buy any of them. However, the underwriters are not required to purchase the units covered by the underwriters' option to purchase additional units as described below.

Our public units are offered hereby subject to a number of conditions, including:

- receipt and acceptance of such units by the underwriters; and
- the underwriters' right to reject orders in whole or in part.

We have been advised by the representative that the underwriters intend to make a market in our public units as permitted by applicable laws and regulations but that they are not obligated to do so and may discontinue making a market at any time without notice.

Option to Purchase Additional Units

We have granted the underwriters an option to buy up to an aggregate of 2,250,000 additional units. The underwriters have 45 days from the date of this prospectus to exercise this option. If the underwriters exercise this option, they will each purchase additional units approximately in proportion to the amounts specified in the table above. The underwriters may exercise this option for the purpose of covering over-allotments, if any, in connection with this offering. Any units issued or sold under this option will be issued and sold on the same terms and conditions as the other units that are the subject of this offering.

Underwriting Discount

Units sold by the underwriters to the public will initially be offered at the initial offering price set forth on the cover of this prospectus. Any units sold by the underwriters to securities dealers may be sold at a discount of up to \$ per unit from the initial public offering price. Sales of units made outside of the United States may be made by affiliates of the underwriters. If all the units are not sold at the initial public offering price, the representative may change the offering price and the other selling terms. Upon execution of the underwriting agreement, the underwriters will be obligated to purchase the units at the prices and upon the terms stated therein.

The following table shows the per unit and total underwriting discount we will pay to the underwriters in connection with this offering assuming both no exercise and full exercise of the underwriters' option to purchase up to 2,250,000 additional units.

	No Exercise	Full Exercise
Per Unit	\$ 0.20	\$ 0.20
Total	\$3,000,000	\$3,450,000

Prior to this offering, there has been no public market for our securities. Consequently, the initial public offering price for the units was determined by negotiations between us and the underwriters.

The determination of our per unit offering price was more arbitrary than would typically be the case if we were an operating company. Among the factors considered in determining initial public offering price were the history and prospects of companies whose principal business is the acquisition of other companies,

prior offerings of those companies, our management, our capital structure, and currently prevailing general conditions in equity securities markets, including current market valuations of publicly traded companies considered comparable to our company. We cannot assure you, however, that the price at which the units, common stock or warrants will sell in the public market after this offering will not be lower than the initial public offering price or that an active trading market in our units, common stock or warrants will develop and continue after this offering.

We estimate that the total expenses of the offering payable by us, not including the underwriting discount, will be approximately \$700,000.

Business Combination Marketing Agreement

We have engaged the underwriters as advisors in connection with our initial business combination, including to assist us in holding meetings with our stockholders to discuss the potential business combination and the target business's attributes, introduce us to potential investors that may be interested in purchasing our securities in connection with the potential business combination, assist us in obtaining stockholder approval for the business combination, assist us with our press releases and public filings in connection with the business combination and provide other marketing services as may be customary and appropriate in connection with our consummation of a business combination. We will pay the underwriters a cash fee for such services upon the consummation of our initial business combination in an amount equal to, in the aggregate, 3.5% of the gross proceeds of this offering, including any proceeds from the full or partial exercise of the over-allotment option.

Right of First Refusal and Potential Loans in Connection with Our Initial Business Combination

Upon the closing of the offering, we have agreed that, once we have focused on a specific target for our initial business combination and completed our initial due diligence on such target, we will offer to engage Cowen as a financial advisor in connection with the business combination, provided, however, that Cowen may decline in writing such engagement in its sole and absolute discretion at such time. The terms of such engagement shall be set forth in a separate agreement between us and Cowen and contain terms that are customary to investment banks for similar transactions, including compliance with FINRA Rule 5110(f)(2)(E) to the extent applicable, and are mutually agreed to by us and Cowen, taking into account the extent of advice and effort provided by Cowen in connection with the target, including, without limitation, the size of the transaction and the source of the target.

In addition, if we and our sponsor determine that a loan to us is required to fund our expenses in connection with the closing of our initial business combination, our sponsor and Cowen shall provide the loan to us, with Cowen providing 16 2/3% of the total amount loaned in compliance with FINRA rules as applicable.

Founder Shares and Private Units

In September 2018, Cowen Investments purchased 359,375 founder shares for aggregate proceeds of \$1,562.50. In November 2018, Cowen Investments forfeited for no consideration, 89,844 founder shares. If the over-allotment option is not fully sold, Cowen Investments has agreed to forfeit up to 35,156 founder shares, such that Cowen Investments will hold 234,375 founder shares if the over-allotment option is not exercised. Cowen Investments (and/or its designee) has also committed to purchase from us 83,333 private units (or 95,833 private units if the underwriters' option to purchase additional units is exercised in full) at \$10.00 per unit for an aggregate purchase price of \$833,330 (or \$958,330 if the over-allotment option is exercised). The private units have terms and provisions that are identical to the units sold in this offering except as described under "*Description of Securities — Private Units*," including that, subject to certain exceptions, the private units will not be transferable, assignable or salable until after the completion of our initial business combination and that, the warrants underlying the private units held by Cowen Investments will not be redeemable as long as they are held by the underwriters or their permitted transferees and will not be exercisable more than five years from the effective date of the registration statement of which this prospectus forms a part in accordance with FINRA Rule 5110(f)(2)(G)(i). The purchase of the private units will take place on a private placement basis simultaneously with the consummation of this offering. Such private units and founder shares will be considered underwriting

compensation in connection with this offering. Such private units and founder shares will be subject to lock-up restrictions as required by FINRA Rule 5110(g)(1) and may not be sold, transferred, assigned, pledged, or hypothecated, or be the subject of any hedging, short sale, derivative, put, or call transaction that would result in the effective economic disposition of such securities by any person for a period of 180 days immediately following the date of effectiveness of the registration statement of which this prospectus forms a part or commencement of sales of the offering, except as provided in FINRA Rule 5110(g)(2).

No Sales of Similar Securities

We, our executive officers and directors, and our founders will enter into lock-up agreements with the underwriters. Under the lock-up agreements, subject to certain exceptions, we and each of these persons may not, without the prior written approval of Cowen, offer, sell, contract to sell, pledge, or otherwise dispose of, directly or indirectly, or hedge our units, rights, warrants, shares of common stock or any other securities convertible into or exchangeable or exercisable for shares of our common stock. These restrictions will be in effect for a period of 180 days after the date of this prospectus.

Cowen may, at any time and in its sole discretion, release some or all the securities from these lock-up agreements. Cowen will consider, among other factors, the holder's reasons for requesting the release, the number of securities for which the release is being requested and market conditions at the time. If the restrictions under the lock-up agreements are waived, our units, warrants and shares of common stock may become available for resale into the market, subject to applicable law, which could reduce the market price of our securities.

Our founders, executive officers, directors and director nominees have agreed not to transfer, assign or sell any of their founder shares or private units, or the securities underlying the private units, until one year after the completion of the Company's initial business combination (except with respect to permitted transferees as described herein under "*Principal Stockholders*"). Notwithstanding the foregoing, (1) if the last reported sale price of our common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (2) if we consummate a liquidation, merger, stock exchange or other similar transaction after our initial business combination which results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property, then the shares will be released from these restrictions on transfer. Any permitted transferees would be subject to the same restrictions and other agreements of our initial stockholders with respect to any shares.

Indemnification

We have agreed to indemnify the several underwriters against certain liabilities, including certain liabilities under the Securities Act. If we are unable to provide this indemnification, we have agreed to contribute to payments the underwriters may be required to make in respect of those liabilities.

Nasdaq Listing

We intend to apply for listing of our units on Nasdaq under the symbol "MNCLU" and, once the common stock and warrants begin separate trading, we expect our common stock and warrants to be listed on Nasdaq under the symbols "MNCL" and "MNCLW", respectively.

Price Stabilization, Short Positions

In connection with this offering, the underwriters may engage in activities that stabilize, maintain or otherwise affect the price of units during and after this offering, including:

- stabilizing transactions;
- short sales;
- purchases to cover positions created by short sales;

- imposition of penalty bids; and
- syndicate covering transactions.

Stabilizing transactions consist of bids or purchases made for the purpose of preventing or retarding a decline in the market price of our units while this offering is in progress. Stabilization transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. These transactions may also include making short sales of our units, which involve the sale by the underwriters of a greater number of units than they are required to purchase in this offering and purchasing units on the open market to cover short positions created by short sales. Short sales may be “covered short sales,” which are short positions in an amount not greater than the underwriters’ option to purchase additional units referred to above, or may be “naked short sales,” which are short positions in excess of that amount.

The underwriters may close out any covered short position by either exercising their option, in whole or in part, or by purchasing units in the open market. In making this determination, the underwriters will consider, among other things, the price of units available for purchase in the open market as compared to the price at which they may purchase units through the over-allotment option.

Naked short sales are short sales made in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing units in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the units in the open market that could adversely affect investors who purchased in this offering.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased units sold by or for the account of that underwriter in stabilizing or short covering transactions.

These stabilizing transactions, short sales, purchases to cover positions created by short sales, the imposition of penalty bids and syndicate covering transactions may have the effect of raising or maintaining the market price of our units or preventing or retarding a decline in the market price of our units. As a result of these activities, the price of our units may be higher than the price that otherwise might exist in the open market. The underwriters may carry out these transactions on Nasdaq, in the over-the-counter market or otherwise. Neither we nor the underwriters make any representation or prediction as to the effect that the transactions described above may have on the price of the units. Neither we, nor any of the underwriters make any representation that the underwriters will engage in these stabilization transactions or that any transaction, once commenced, will not be discontinued without notice.

Affiliations

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and their affiliates may from time to time in the future engage with us and perform services for us or in the ordinary course of their business for which they will receive customary fees and expenses. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of us. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of these securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in these securities and instruments.

Except as otherwise described in this section, we are not under any contractual obligation to any of the underwriters. However, any of the underwriters may introduce us to potential target businesses or assist us in raising additional capital in the future. If any of the underwriters provide services to us after this offering, we may pay such underwriter fair and reasonable fees that would be determined at that time in an

arm's length negotiation; provided that no agreement will be entered into with any of the underwriters and no fees for such services will be paid to any of the underwriters prior to the date that is 90 days from the date of this prospectus, unless FINRA determines that such payment would not be deemed underwriter's compensation in connection with this offering and we may pay the underwriters of this offering or any entity with which they are affiliated a finder's fee or other compensation for services rendered to us in connection with the completion of a business combination.

Electronic Distribution

A prospectus in electronic format may be made available on the Internet sites or through other online services maintained by one or more of the underwriters participating in this offering, or by their affiliates. In those cases, prospective investors may view offering terms online and, depending upon the particular underwriter, prospective investors may be allowed to place orders online. The underwriters may agree with us to allocate a specific number of units for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriters on the same basis as other allocations. Other than the prospectus in electronic format, the information on any underwriter's website and any information contained in any other website maintained by an underwriter is not part of the prospectus or the registration statement of which this prospectus forms a part, has not been approved and/or endorsed by us or any underwriter in its capacity as underwriter and should not be relied upon by investors.

Notice to Residents of Canada

The units may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the units must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Notice to Prospective Investors in the European Economic Area

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a "relevant member state"), with effect from and including the date on which the Prospectus Directive is implemented in that relevant member state (the "relevant implementation date"), an offer of units described in this prospectus may not be made to the public in that relevant member state prior to the publication of a prospectus in relation to the units that has been approved by the competent authority in that relevant member state or, where appropriate, approved in another relevant member state and notified to the competent authority in that relevant member state, all in accordance with the Prospectus Directive, except that, with effect from and including the relevant implementation date, an offer of our units may be made to the public in that relevant member state at any time:

- to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the issuer for any such offer; or

- in any other circumstances that do not require the publication by us of a prospectus pursuant to Article 3 of the Prospectus Directive,

provided that no such offer of units referred to in (a) to (c) above shall result in a requirement for us or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each purchaser of units described in this prospectus located within a relevant member state will be deemed to have represented, acknowledged and agreed that it is a “qualified investor” within the meaning of Article 2(1)(e) of the Prospectus Directive.

For the purpose of this provision, the expression an “offer to the public” in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the units to be offered so as to enable an investor to decide to purchase or subscribe for the units, as the expression may be varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression “Prospectus Directive” means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU) and includes any relevant implementing measure in each relevant member state.

We have not authorized and do not authorize the making of any offer of units through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of the units as contemplated in this prospectus. Accordingly, no purchaser of the units, other than the underwriters, is authorized to make any further offer of the units on behalf of us or the underwriters.

Notice to Prospective Investors in Switzerland

The shares may not be publicly offered in Switzerland and will not be listed on the SIX Swiss Exchange (“SIX”) or on any other stock exchange or regulated trading facility in Switzerland. This document has been prepared without regard to the disclosure standards for issuance prospectuses under art. 652a or art. 1156 of the Swiss Code of Obligations or the disclosure standards for listing prospectuses under art. 27 ff. of the SIX Listing Rules or the listing rules of any other stock exchange or regulated trading facility in Switzerland. Neither this document nor any other offering or marketing material relating to the shares or the offering may be publicly distributed or otherwise made publicly available in Switzerland.

Neither this document nor any other offering or marketing material relating to the offering, the Company, the shares have been or will be filed with or approved by any Swiss regulatory authority. In particular, this document will not be filed with, and the offer of shares will not be supervised by, the Swiss Financial Market Supervisory Authority FINMA (FINMA), and the offer of shares has not been and will not be authorized under the Swiss Federal Act on Collective Investment Schemes (“CISA”). The investor protection afforded to acquirers of interests in collective investment schemes under the CISA does not extend to acquirers of shares.

Notice to Prospective Investors in the United Kingdom

This prospectus is only being distributed to, and is only directed at, persons in the United Kingdom that are qualified investors within the meaning of Article 2(1)(e) of the Prospectus Directive that are also (i) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “Order”) or (ii) high net worth entities, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as a “relevant person”). The units are only available to, and any invitation, offer or agreement to purchase or otherwise acquire such units will be engaged in only with, relevant persons. This prospectus and its contents are confidential and should not be distributed, published or reproduced (in whole or in part) or disclosed by recipients to any other persons in the United Kingdom. Any person in the United Kingdom that is not a relevant person should not act or rely on this document or any of its contents.

Notice to Prospective Investors in France

Neither this prospectus nor any other offering material relating to the units described in this prospectus has been submitted to the clearance procedures of the Autorité des Marchés Financiers or by the competent

authority of another member state of the European Economic Area and notified to the Autorité des Marchés Financiers. The units have not been offered or sold and will not be offered or sold, directly or indirectly, to the public in France. Neither this prospectus nor any other offering material relating to the units has been or will be:

- released, issued, distributed or caused to be released, issued or distributed to the public in France; or
- used in connection with any offer for subscription or sale of the units to the public in France.

Such offers, sales and distributions will be made in France only:

- to qualified investors (investisseurs qualifiés) and/or to a restricted circle of investors (cercle restreint d'investisseurs), in each case investing for their own account, all as defined in, and in accordance with, Article L.411-2, D.411-1, D.411-2, D.734-1, D.744-1, D.754-1 and D.764-1 of the French Code monétaire et financier;
- to investment services providers authorized to engage in portfolio management on behalf of third parties; or
- in a transaction that, in accordance with article L.411-2-II-1|Mbb[-or-2|Mbb[-or 3|Mbb[of the French Code monétaire et financier and article 211-2 of the General Regulations (Règlement Général) of the Autorité des Marchés Financiers, does not constitute a public offer (appel public à l'épargne).

The units may be resold directly or indirectly, only in compliance with Articles L.411-1, L.411-2, L.412-1 and L.621-8 through L.621-8-3 of the French Code monétaire et financier.

LEGAL MATTERS

The validity of the securities offered in this prospectus is being passed upon for us by Greenberg Traurig, LLP, New York, New York. Ellenoff Grossman & Schole LLP, New York, New York, advised the underwriter in connection with this offering of securities.

EXPERTS

The financial statements of Monocle Acquisition Corporation as of December 31, 2018, and for the period from August 20, 2018 (inception) through December 31, 2018 appearing in this prospectus have been audited by WithumSmith+Brown, PC, independent registered public accounting firm, as set forth in their report thereon appearing elsewhere in this prospectus and are included in reliance upon such report given on the authority of WithumSmith+Brown, PC as experts in accounting and auditing.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the securities we are offering by this prospectus. This prospectus does not contain all of the information included in the registration statement. For further information about us and our securities, you should refer to the registration statement and the exhibits and schedules filed with the registration statement. Whenever we make reference in this prospectus to any of our contracts, agreements or other documents, the references are materially complete but may not include a description of all aspects of such contracts, agreements or other documents, and you should refer to the exhibits attached to the registration statement for copies of the actual contract, agreement or other document.

Upon completion of this offering, we will be subject to the information requirements of the Exchange Act and will file annual, quarterly and current event reports, proxy statements and other information with the SEC. You can read our SEC filings, including the registration statement, over the Internet at the SEC's website at www.sec.gov. You also may read and copy any document we file with the SEC at its public reference facility at 100 F Street, N.E., Washington, D.C. 20549.

You also may obtain copies of the documents at prescribed rates by writing to the Public Reference Section of the SEC at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference facilities.

Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors of
Monocle Acquisition Corporation

Opinion on the Financial Statements

We have audited the accompanying balance sheet of Monocle Acquisition Corporation (the “Company”) as of December 31, 2018, the related statements of operations, changes in stockholders’ equity and cash flows, for the period from August 20, 2018 (inception) through December 31, 2018, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2018, and the results of its operations and its cash flows for the period from August 20, 2018 (inception) through December 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ WithumSmith+Brown, PC

We have served as the Company’s auditor since 2018.

New York, New York

MONOCLE ACQUISITION CORPORATION

NOTES TO FINANCIAL STATEMENTS

Note 1 — Description of Organization and Business Operations

Monocle Acquisition Corporation (the “Company”) was incorporated in Delaware on August 20, 2018. The Company was formed for the purpose of effecting a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or similar business combination with one or more businesses (the “Business Combination”).

Although the Company is not limited to a particular or geographic region for purposes of consummating a Business Combination, the Company intends to focus on businesses in the aerospace and defense, industrial, and technology and telecommunication sectors. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of December 31, 2018, the Company had not commenced any operations. All activity for the period from August 20, 2018 (inception) through December 31, 2018 relates to the Company’s formation and the proposed initial public offering (“Proposed Public Offering”), which is described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company anticipates it will generate non-operating income in the form of interest income from the proceeds derived from the Proposed Public Offering. The Company has selected December 31 as its fiscal year end.

The Company’s ability to commence operations is contingent upon obtaining adequate financial resources through a Proposed Public Offering of 15,000,000 units (the “Units” and, with respect to the shares common stock included in the Units being offered, the “Public Shares”) at \$10.00 per Unit (or 17,250,000 Units if the underwriters’ over-allotment option is exercised in full), which is discussed in Note 3, and the sale of 500,000 units (or 545,000 units if the underwriters’ over-allotment option is exercised in full) (each, a “Private Unit” and collectively, the “Private Units”) at a price of \$10.00 per Private Unit in a private placement to the Monocle Partners, LLC, a Delaware limited liability company (the “Sponsor”) and Cowen Investments II LLC (“Cowen” and, together with the Sponsor, the “Founders”) that will close simultaneously with the Proposed Public Offering.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Proposed Public Offering and the sale of Private Units, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. The Company’s initial Business Combination must be with one or more target businesses that together have a fair market value of at least 80% of the assets held in the Trust Account (as defined below) (excluding taxes payable on income earned on the Trust Account) at the time of the agreement to enter into a Business Combination. The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act 1940, as amended (the “Investment Company Act”). There is no assurance that the Company will be able to complete a Business Combination successfully. Upon the closing of the Proposed Public Offering, management has agreed that an amount equal to at least \$10.00 per Unit sold in the Proposed Public Offering, including the proceeds from the sale of the Private Units, will be held in a trust account (“Trust Account”), located in the United States and invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 180 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting the conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account, as described below.

The Company will provide its holders of the outstanding Public Shares (the “public stockholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business

MONOCLE ACQUISITION CORPORATION

NOTES TO FINANCIAL STATEMENTS

Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The public stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially approximately \$10.00 per Public Share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its franchise and income tax obligations). There will be no redemption rights upon the completion of a Business Combination with respect to the Company's warrants. The Public Shares subject to redemption will be recorded at a redemption value and classified as temporary equity upon the completion of the Proposed Public Offering in accordance with the Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity."

The Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required by law and the Company does not decide to hold a stockholder vote for business or other legal reasons, the Company will, pursuant to its Certificate of Incorporation, conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission ("SEC") and file tender offer documents with the SEC prior to completing a Business Combination. If, however, stockholder approval of the transactions is required by law, or the Company decides to obtain stockholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks stockholder approval in connection with a Business Combination, the Company's Founders, executive officers and directors (the "initial stockholders") have agreed to vote their Founder Shares (as defined in Note 5), Private Shares (as defined in Note 4) and any Public Shares purchased during or after the Proposed Public Offering in favor of approving a Business Combination. Additionally, each public stockholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction.

Notwithstanding the foregoing, if the Company seeks stockholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Certificate of Incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from redeeming its shares with respect to more than an aggregate of 15% or more of the Public Shares, without the prior consent of the Company.

The initial stockholders have agreed (a) to waive their redemption rights with respect to their Founder Shares, Private Shares and Public Shares held by them in connection with the completion of a Business Combination and (b) not to propose an amendment to the Certificate of Incorporation (i) that would affect the substance or timing of the Company's obligation to redeem 100% of its Public Shares if the Company does not complete a Business Combination, unless the Company provides the public stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment.

The Company will have until 21 months from the closing of the Proposed Public Offering to complete a Business Combination. However, if the Company anticipates that it may not be able to consummate a Business Combination within 21 months, the Company may, but is not obligated to, extend the period of time to consummate a Business Combination by three months (for a total of 24 months to complete a Business Combination) (the "Combination Period"). In order to extend the time available for the Company to consummate a Business Combination, the Sponsor or its affiliate or designees must deposit into the Trust Account \$1,500,000, or up to \$1,725,000 depending on the extent to which the underwriters' over-allotment option is exercised, if at all (\$0.10 per Public Share in any case), on or prior to the date of the deadline, for the extension.

MONOCLE ACQUISITION CORPORATION**NOTES TO FINANCIAL STATEMENTS**

If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to the Company to pay franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining stockholders and the Company's board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company's warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

The initial stockholders have agreed to waive their liquidation rights with respect to the Founder Shares and Private Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Founders, executive officers and director acquire Public Shares in or after the Proposed Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period.

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party (other than our independent auditors) for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amounts in the Trust Account to below (i) \$10.00 per share or (ii) such lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of the trust asset. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account or to any claims under the Company's indemnity of the underwriters of the Proposed Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Note 2 — Summary of Significant Accounting Policies***Basis of Presentation***

The accompanying financial statements are presented in conformity with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the SEC.

The Company does not have sufficient liquidity to meet its anticipated obligations over the next year from the date of issuance of these financial statements. In connection with the Company's assessment of going concern considerations in accordance with Accounting Standards Update ("ASU") 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," management has determined that the Company has access to funds from the Sponsor that are sufficient to fund the working capital needs of the Company until the earlier of the consummation of the Proposed Public Offering or one year from the date of issuance of these financial statements (see Note 5), including extending the maturity date of the Promissory Note described in Note 5, if the Proposed Public Offering is not consummated by March 31, 2019.

MONOCLE ACQUISITION CORPORATION

NOTES TO FINANCIAL STATEMENTS

Emerging Growth Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended (the “Securities Act”), as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Company’s management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Deferred Offering Costs

Deferred offering costs consist of legal, accounting, underwriting fees and other costs incurred through the balance sheet date that are directly related to the Proposed Public Offering and that will be charged to stockholders’ equity upon the completion of the Proposed Public Offering. Should the Proposed Public Offering prove to be unsuccessful, these deferred costs, as well as additional expenses to be incurred, will be charged to operations.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under ASC 740, “Income Taxes.” Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to

MONOCLE ACQUISITION CORPORATION**NOTES TO FINANCIAL STATEMENTS**

be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of December 31, 2018. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

On December 22, 2017 the U.S. Tax Cuts and Jobs Act of 2017 (“Tax Reform”) was signed into law. As a result of Tax Reform, the U.S. statutory tax rate was lowered from 35% to 21% effective January 1, 2018, among other changes. ASC Topic 740 requires companies to recognize the effect of tax law changes in the period of enactment. This Tax Reform has no effect on the Company’s financial statements since the Company was formed in August 2018.

The provision for income taxes was deemed to be immaterial for the period from August 20, 2018 (inception) through December 31, 2018.

Net Loss Per Common Share

Net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period, excluding shares of common stock subject to forfeiture. Weighted average shares were reduced for the effect of an aggregate of 562,500 shares of common stock that are subject to forfeiture if the over-allotment option is not exercised by the underwriters (see Notes 5 and 7). At December 31, 2018, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into shares of common stock and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the period presented.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. At December 31, 2018, the Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Financial Instruments

The fair value of the Company’s assets and liabilities, which qualify as financial instruments under ASC 820, “Fair Value Measurements and Disclosures,” approximates the carrying amounts represented in the balance sheet, primarily due to their short-term nature.

Recent Accounting Pronouncements

In August 2018, the SEC adopted the final rule under SEC Release No. 33-10532, “Disclosure Update and Simplification,” amending certain disclosure requirements that were redundant, duplicative, overlapping, outdated or superseded. In addition, the amendments expanded the disclosure requirements on the analysis of stockholders’ equity for interim financial statements. Under the amendments, an analysis of changes in each caption of stockholders’ equity presented in the balance sheet must be provided in a note or separate statement. The analysis should present a reconciliation of the beginning balance to the ending balance of each period for which a statement of income is required to be filed. The Company anticipates its first presentation of changes in stockholders’ equity will be included in its first quarterly report on Form 10-Q.

MONOCLE ACQUISITION CORPORATION**NOTES TO FINANCIAL STATEMENTS**

Management does not believe that any other recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's financial statements.

Note 3— Public Offering

Pursuant to the Proposed Public Offering, the Company intends to offer for sale 15,000,000 Units or 17,250,000 Units if the underwriters' over-allotment option is exercised in full at a purchase price of \$10.00 per Unit. Each Unit consists of one share of common stock and one redeemable warrant ("Public Warrant"). Each Public Warrant entitles the holder to purchase one share of common stock at a price of \$11.50 per share, subject to adjustment (see Note 7).

Note 4— Private Placement

The Sponsor and Cowen have agreed to purchase an aggregate of 500,000 Private Units (or 545,000 Private Units if the over-allotment option is exercised in full) at a price of \$10.00 per Private Unit, for an aggregate purchase price of \$5,000,000, or \$5,450,000 if the over-allotment option is exercised in full, in a private placement that will occur simultaneously with the closing of the Proposed Public Offering. The Sponsor has agreed to purchase 416,667 Private Units (or 449,167 Private Units if the over-allotment option is exercised in full) and Cowen has agreed to purchase 83,333 Private Units (or 95,833 Private Units if the over-allotment option is exercised in full). Each Private Unit consists of one share of common stock ("Private Share") and one warrant (each, a "Private Warrant"). Each Private Warrant is exercisable to purchase one share of common stock at a price of \$11.50 per share. A portion of the proceeds from the Private Units will be added to the proceeds from the Proposed Public Offering to be held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds of the sale of the Private Units will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law), and the Private Units and all underlying securities will expire worthless.

Note 5— Related Party Transactions***Founder Shares***

In September 2018, the Founders purchased 5,750,000 shares (the "Founder Shares") of the Company's common stock for an aggregate price of \$25,000. The Sponsor and Cowen purchased 5,390,625 and 359,375 Founder Shares, respectively.

In November 2018, the Sponsor transferred to the Company's independent directors an aggregate of 45,000 Founder Shares for an aggregate purchase price of \$195. On November 19, 2018, the Sponsor and Cowen forfeited to the Company, for no consideration, 1,437,500 Founder Shares, of which the Sponsor forfeited 1,347,656 Founder Shares and Cowen forfeited 89,844 Founder Shares. As a result, the Founders now hold 4,312,500 Founder Shares, of which the Sponsor owns 3,997,969 Founder Shares and Cowen owns 269,531 Founder Shares. The Founder Shares include an aggregate of up to 562,500 shares subject to forfeiture (of which the Sponsor may forfeit up to 527,344 Founder Shares and Cowen may forfeit up to 35,156 Founder Shares) to the extent that the underwriters' over-allotment option is not exercised in full or in part, so that the initial stockholders will own, on an as-converted basis, 20% of the Company's issued and outstanding shares after the Proposed Public Offering (assuming the initial stockholders do not purchase any Public Shares in the Proposed Public Offering and excluding the Private Units). All share and per-share amounts have been retroactively restated to reflect the forfeiture of the Founder Shares.

The initial stockholders have agreed, subject to limited exceptions, not to transfer, assign or sell any of their Founder Shares until one year after the completion of the Company's Business Combination. Notwithstanding the foregoing, (1) if the reported last sale price of the Company's common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the

MONOCLE ACQUISITION CORPORATION**NOTES TO FINANCIAL STATEMENTS**

Company's Business Combination, or (2) if the Company consummates a liquidation, merger, stock exchange or other similar transaction after the Company's Business Combination which results in all of the Company's stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Promissory Note — Related Party

The Company issued an unsecured promissory note (the "Promissory Note") to the Sponsor, pursuant to which the Company may borrow up to an aggregate principal amount of \$300,000. The Promissory Note is non-interest bearing and payable on the earlier of March 31, 2019 or the completion of the Proposed Public Offering. As of December 31, 2018, the Company had \$150,000 in borrowings outstanding under the Promissory Note.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Founders or an affiliate of the Founders, or certain of the Company's officers and director may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination or, at the lender's discretion, up to \$1,500,000 of such Working Capital Loans may be convertible into units of the post Business Combination entity at a price of \$10.00 per unit. The units would be identical to the Private Units.

Related Party Extension Loans

As discussed in Note 1, the Company may extend the period of time to consummate a Business Combination by an additional three months (for a total of 24 months to complete a Business Combination). In order to extend the time available for the Company to consummate a Business Combination, the Sponsor or its affiliates or designees must deposit into the Trust Account \$1,500,000, or up to \$1,725,000 depending on the extent to which the underwriters' over-allotment option is exercised, if at all (\$0.10 per Public Share in any case), on or prior to the date of the applicable deadline. Any such payments would be made in the form of a non-interest bearing, unsecured promissory note. If the Company does not complete a Business Combination, the Company will not repay such loans. The loans would either be repaid upon consummation of a Business Combination or, at the lender's discretion, may be converted, in whole or in part, into units of the post Business Combination entity at a price of \$10.00 per unit. The units would be identical to the Private Units. The Sponsor and its affiliates or designees are not obligated to fund the Trust Account to extend the time for the Company to complete a Business Combination.

Administrative Support Agreement

The Company has agreed, commencing on the effective date of the Proposed Public Offering through the earlier of the Company's consummation of a Business Combination and its liquidation, to pay the Sponsor a total of \$10,000 per month for office space, and general and administrative support.

MONOCLE ACQUISITION CORPORATION

NOTES TO FINANCIAL STATEMENTS

Note 6— Commitments***Registration Rights***

The holders of the Founder Shares, Private Units (including securities contained therein) and securities that may be issued upon conversion of Working Capital Loans (including securities issued upon conversion of Working Capital Loans) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of Proposed Public Offering, requiring the Company to register such securities for resale. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of a Business Combination. Notwithstanding the foregoing, Cowen may not exercise its demand and “piggyback” registration rights after five (5) and seven (7) years, respectively, after the effective date of the registration statement and may not exercise its demand rights on more than one occasion. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The Company will grant the underwriters a 45-day option from the date of Proposed Public Offering to purchase up to 2,250,000 additional Units to cover over-allotments, if any, at the Proposed Public Offering price less the underwriting discounts and commissions.

The underwriters will be entitled to a cash underwriting discount of \$0.20 per Unit, or \$3,000,000 in the aggregate (or \$3,450,000 in the aggregate if the underwriters’ over-allotment option is exercised in full), payable upon the closing of the Proposed Public Offering.

Business Combination Marketing Agreement

The Company intends to engage the underwriters as advisors in connection with its Business Combination to assist the Company in holding meetings with its stockholders to discuss the potential Business Combination and the target business’s attributes, introduce the Company to potential investors that are interested in purchasing the Company’s securities in connection with the potential Business Combination, assist the Company in obtaining stockholder approval for the Business Combination and assist the Company with its press releases and public filings in connection with the Business Combination. The Company will pay the underwriters a cash fee for such services upon the consummation of a Business Combination in an amount equal to, in the aggregate, 3.5% of the gross proceeds of Proposed Public Offering, including any proceeds from the full or partial exercise of the over-allotment option.

Note 7— Stockholders’ Equity

Preferred Stock — The Company is authorized to issue to 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. At December 31, 2018, there were no shares of preferred stock issued or outstanding.

Common Stock — The Company is authorized to issue to 100,000,000 shares of common stock with a par value of \$0.0001 per share. Holders of common stock are entitled to one vote for each share. At December 31, 2018, there were 4,312,500 shares of common stock issued and outstanding, of which an aggregate of up to 562,500 shares are subject to forfeiture to the extent that the underwriters’ over-allotment option is not exercised in full or in part, so that the initial stockholders will collectively own 20% of the Company’s issued and outstanding common stock after the Proposed Public Offering (assuming the initial stockholders do not purchase any Public Shares in the Proposed Public Offering and excluding the Private Units) (see Note 4).

MONOCLE ACQUISITION CORPORATION

NOTES TO FINANCIAL STATEMENTS

Warrants — The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination or (b) 12 months from the closing of the Proposed Public Offering; provided in each case that the Company has an effective registration statement under the Securities Act covering the shares of common stock issuable upon exercise of the Public Warrants and a current prospectus relating to them is available. Notwithstanding the foregoing, if a registration statement covering the issuance of the shares issuable upon exercise of the Public Warrants is not effective within 90 days from the closing of a Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company shall have failed to maintain an effective registration statement or a current prospectus, exercise warrants on a cashless basis pursuant to an available exemption from registration under the Securities Act. If an exemption from registration is not available, holders will not be able to exercise their warrants on a cashless basis. In no event will the Company be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that the Company is unable to register or qualify the shares underlying the warrants under the Securities Act or applicable state securities laws. In addition, any Private Warrants held by Cowen will not be exercisable more than five years from the effective date of the registration statement. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

Once the warrants become exercisable, the Company may redeem the Public Warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption; and
- if, and only if, the reported last sale price of the Company's common stock equals or exceeds \$18.00 per share for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

The Private Warrants will be identical to the Public Warrants underlying the Units being sold in the Proposed Public Offering, except that the Private Warrants and the common stock issuable upon the exercise of the Private Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Warrants will be exercisable on a cashless basis and be non-redeemable so long as they are held by the initial purchasers or their permitted transferees. If the Private Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

If the Company calls the Public Warrants for redemption, management will have the option to require all holders that wish to exercise the Public Warrants to do so on a "cashless basis," as described in the warrant agreement. The exercise price and number of shares of common stock issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a stock dividend, or recapitalization, reorganization, merger or consolidation. However, the warrants will not be adjusted for issuance of common stock at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

Note 8 — Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the financial statements were available to be issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

Monocle Acquisition Corporation

PROSPECTUS

Joint Book-Running Managers

Cowen

Chardan

, 2019

Until _____, 2019 (25 days after the date of this prospectus), all dealers that buy, sell or trade our common stock, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealers' obligation to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.

No dealer, salesperson or any other person is authorized to give any information or make any representations in connection with this offering other than those contained in this prospectus and, if given or made, the information or representations must not be relied upon as having been authorized by us. This prospectus does not constitute an offer to sell or a solicitation of an offer to buy any security other than the securities offered by this prospectus, or an offer to sell or a solicitation of an offer to buy any securities by anyone in any jurisdiction in which the offer or solicitation is not authorized or is unlawful.

PART II
INFORMATION NOT REQUIRED IN PROSPECTUS

Item 13. Other Expenses of Issuance and Distribution.

The estimated expenses payable by us in connection with the offering described in this registration statement (other than the underwriting discount and commissions) will be as follows:

SEC Registration Fees	\$ 20,907
FINRA Filing Fees	\$ 35,000
Accounting fees and expenses	\$ 40,000
Printing and engraving expenses	\$ 40,000
Nasdaq listing expenses	\$ 75,000
D&O insurance	\$125,000
Legal fees and expenses	\$300,000
Miscellaneous ⁽¹⁾	\$ 64,093
Total	<u>\$700,000</u>

(1) This amount represents additional expenses that may be incurred by the Company in connection with the offering over and above those specifically listed above, including transfer agent and trustee fees.

Item 14. Indemnification of Directors and Officers.

Our amended and restated certificate of incorporation will provide that all of our directors, officers, employees and agents shall be entitled to be indemnified by us to the fullest extent permitted by Section 145 of the Delaware General Corporation Law (“DGCL”).

Section 145 of the DGCL concerning indemnification of officers, directors, employees and agents is set forth below.

Section 145. Indemnification of officers, directors, employees and agents; insurance.

- (a) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys’ fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person’s conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that the person’s conduct was unlawful.
- (b) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys’ fees) actually and

reasonably incurred by the person in connection with the defense or settlement of such action or suit if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

- (c) To the extent that a present or former director or officer of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in subsections (a) and (b) of this section, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.
- (d) Any indemnification under subsections (a) and (b) of this section (unless ordered by a court) shall be made by the corporation only as authorized in the specific case upon a determination that indemnification of the present or former director, officer, employee or agent is proper in the circumstances because the person has met the applicable standard of conduct set forth in subsections (a) and (b) of this section. Such determination shall be made, with respect to a person who is a director or officer at the time of such determination, (1) by a majority vote of the directors who are not parties to such action, suit or proceeding, even though less than a quorum, or (2) by a committee of such directors designated by majority vote of such directors, even though less than a quorum, or (3) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion, or (4) by the stockholders.
- (e) Expenses (including attorneys' fees) incurred by an officer or director in defending any civil, criminal, administrative or investigative action, suit or proceeding may be paid by the corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of such director or officer to repay such amount if it shall ultimately be determined that such person is not entitled to be indemnified by the corporation as authorized in this section. Such expenses (including attorneys' fees) incurred by former officers and directors or other employees and agents may be so paid upon such terms and conditions, if any, as the corporation deems appropriate.
- (f) The indemnification and advancement of expenses provided by, or granted pursuant to, the other subsections of this section shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in such person's official capacity and as to action in another capacity while holding such office. A right to indemnification or to advancement of expenses arising under a provision of the certificate of incorporation or a bylaw shall not be eliminated or impaired by an amendment to such provision after the occurrence of the act or omission that is the subject of the civil, criminal, administrative or investigative action, suit or proceeding for which indemnification or advancement of expenses is sought, unless the provision in effect at the time of such act or omission explicitly authorizes such elimination or impairment after such action or omission has occurred.
- (g) A corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as such, whether or not the corporation would have the power to indemnify such person against such liability under this section.
- (h) For purposes of this section, references to "the corporation" shall include, in addition to the resulting corporation, any constituent corporation (including any constituent of a constituent)

absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors, officers, and employees or agents, so that any person who is or was a director, officer, employee or agent of such constituent corporation, or is or was serving at the request of such constituent corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under this section with respect to the resulting or surviving corporation as such person would have with respect to such constituent corporation if its separate existence had continued.

- (i) For purposes of this section, references to “other enterprises” shall include employee benefit plans; references to “fines” shall include any excise taxes assessed on a person with respect to any employee benefit plan; and references to “serving at the request of the corporation” shall include any service as a director, officer, employee or agent of the corporation which imposes duties on, or involves services by, such director, officer, employee or agent with respect to an employee benefit plan, its participants or beneficiaries; and a person who acted in good faith and in a manner such person reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner “not opposed to the best interests of the corporation” as referred to in this section.
- (j) The indemnification and advancement of expenses provided by, or granted pursuant to, this section shall, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.
- (k) The Court of Chancery is hereby vested with exclusive jurisdiction to hear and determine all actions for advancement of expenses or indemnification brought under this section or under any bylaw, agreement, vote of stockholders or disinterested directors, or otherwise. The Court of Chancery may summarily determine a corporation’s obligation to advance expenses (including attorneys’ fees).

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers, and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment of expenses incurred or paid by a director, officer or controlling person in a successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to the court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

In accordance with Section 102(b)(7) of the DGCL, our amended and restated certificate of incorporation will provide that no director shall be personally liable to us or any of our stockholders for monetary damages resulting from breaches of their fiduciary duty as directors, except to the extent such limitation on or exemption from liability is not permitted under the DGCL. The effect of this provision of our amended and restated certificate of incorporation is to eliminate our rights and those of our stockholders (through stockholders’ derivative suits on our behalf) to recover monetary damages against a director for breach of the fiduciary duty of care as a director, including breaches resulting from negligent or grossly negligent behavior, except, as restricted by Section 102(b)(7) of the DGCL. However, this provision does not limit or eliminate our rights or the rights of any stockholder to seek non-monetary relief, such as an injunction or rescission, in the event of a breach of a director’s duty of care.

If the DGCL is amended to authorize corporate action further eliminating or limiting the liability of directors, then, in accordance with our certificate of incorporation, the liability of our directors to us or our stockholders will be eliminated or limited to the fullest extent authorized by the DGCL, as so amended. Any repeal or amendment of provisions of our amended and restated certificate of incorporation limiting

or eliminating the liability of directors, whether by our stockholders or by changes in law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by law) be prospective only, except to the extent such amendment or change in law permits us to further limit or eliminate the liability of directors on a retroactive basis.

Our amended and restated certificate of incorporation will also provide that we will, to the fullest extent authorized or permitted by applicable law, indemnify our current and former officers and directors, as well as those persons who, while directors or officers of our corporation, are or were serving as directors, officers, employees or agents of another entity, trust or other enterprise, including service with respect to an employee benefit plan, in connection with any threatened, pending or completed proceeding, whether civil, criminal, administrative or investigative, against all expense, liability and loss (including, without limitation, attorney's fees, judgments, fines, ERISA excise taxes and penalties and amounts paid in settlement) reasonably incurred or suffered by any such person in connection with any such proceeding. Notwithstanding the foregoing, a person eligible for indemnification pursuant to our amended and restated certificate of incorporation will be indemnified by us in connection with a proceeding initiated by such person only if such proceeding was authorized by our Board of Directors, except for proceedings to enforce rights to indemnification.

The right to indemnification conferred by our amended and restated certificate of incorporation is a contract right that includes the right to be paid by us the expenses incurred in defending or otherwise participating in any proceeding referenced above in advance of its final disposition, provided, however, that if the DGCL requires, an advancement of expenses incurred by our officer or director (solely in the capacity as an officer or director of our corporation) will be made only upon delivery to us of an undertaking, by or on behalf of such officer or director, to repay all amounts so advanced if it is ultimately determined that such person is not entitled to be indemnified for such expenses under our amended and restated certificate of incorporation or otherwise.

The rights to indemnification and advancement of expenses will not be deemed exclusive of any other rights which any person covered by our amended and restated certificate of incorporation may have or hereafter acquire under law, our amended and restated certificate of incorporation, our bylaws, an agreement, vote of stockholders or disinterested directors, or otherwise.

Any repeal or amendment of provisions of our amended and restated certificate of incorporation affecting indemnification rights, whether by our stockholders or by changes in law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by law) be prospective only, except to the extent such amendment or change in law permits us to provide broader indemnification rights on a retroactive basis, and will not in any way diminish or adversely affect any right or protection existing at the time of such repeal or amendment or adoption of such inconsistent provision with respect to any act or omission occurring prior to such repeal or amendment or adoption of such inconsistent provision. Our amended and restated certificate of incorporation will also permit us, to the extent and in the manner authorized or permitted by law, to indemnify and to advance expenses to persons other than those specifically covered by our amended and restated certificate of incorporation.

Our bylaws, which we intend to adopt immediately prior to the closing of this offering, include provisions relating to advancement of expenses and indemnification rights consistent with those set forth in our amended and restated certificate of incorporation. In addition, our bylaws provide for a right of indemnity to bring a suit in the event a claim for indemnification or advancement of expenses is not paid in full by us within a specified period of time. Our bylaws also permit us to purchase and maintain insurance, at our expense, to protect us and/or any director, officer, employee or agent of our corporation or another entity, trust or other enterprise against any expense, liability or loss, whether or not we would have the power to indemnify such person against such expense, liability or loss under the DGCL.

Any repeal or amendment of provisions of our bylaws affecting indemnification rights, whether by our Board of Directors, stockholders or by changes in applicable law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by law) be prospective only, except to the extent such amendment or change in law permits us to provide broader indemnification rights on a retroactive basis, and will not in any way diminish or adversely affect any right or protection existing thereunder with respect to any act or omission occurring prior to such repeal or amendment or adoption of such inconsistent provision.

We will enter into indemnification agreements with each of our officers and directors a form of which is filed as Exhibit 10.8 to this registration statement. These agreements will require us to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified.

Pursuant to the Underwriting Agreement filed as Exhibit 1.1 to this registration statement, we have agreed to indemnify the underwriters and the underwriters have agreed to indemnify us against certain civil liabilities that may be incurred in connection with this offering, including certain liabilities under the Securities Act.

Item 15. Recent Sales of Unregistered Securities.

On September 26, 2018, our founders purchased from us, prior to the consummation of this offering, an aggregate of 5,750,000 shares of common stock, or “founder shares”, for an aggregate purchase price of \$25,000, or approximately \$0.004 per share, in a private placement. Such securities were issued pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

In addition, our founders have committed to purchase an aggregate of 500,000 private units (or 545,000 private units if the over-allotment option is exercised in full), at \$10.00 per unit in a private placement that will close simultaneously with this offering. Among the private units, 416,667 units (or 449,167 units if the over-allotment option is exercised in full) will be purchased by our sponsor and/or its designees and 83,333 units (or 95,833 units if the over-allotment option is exercised in full) will be purchased by Cowen Investments and/or its designees. These issuances will be made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

Each of our founders and our executive officers and director nominees is an accredited investor for purposes of Rule 501 of Regulation D. No underwriting discounts or commissions were paid with respect to such sales.

Item 16. Exhibits and Financial Statement Schedules.

(a) The following exhibits are filed as part of this registration statement:

Exhibit No.	Description
1.1	Form of Underwriting Agreement*
1.2	Form of Business Combination Marketing Agreement*
3.1	Certificate of Incorporation*

Item 17. Undertakings.

- (a) The undersigned registrant hereby undertakes to provide to the underwriter at the closing specified in the underwriting agreements, certificates in such denominations and registered in such names as required by the underwriter to permit prompt delivery to each purchaser.
- (b) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

- (c) The undersigned registrant hereby undertakes that:
- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;
 - (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.
 - (2) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.
 - (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
 - (4) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
 - (5) For the purpose of determining liability under the Securities Act of 1933 to any purchaser, if the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
 - (6) For the purpose of determining liability of a registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of an undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:
 - (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
-

- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by an undersigned registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, on the 28th day of January, 2019.
